

UNISYS HIM acquired by Molina Healthcare

Effective May 1, 2010, Molina Healthcare purchased the Health Information Management (HIM) Division of UNISYS Corporation. With this acquisition, the Louisiana Medicaid fiscal intermediary transitions from UNISYS to Molina Medicaid Solutions.

Founded 30 years ago, Molina Healthcare is a national company based in California. They operate in 15 states providing managed care services and will now provide MMIS services to Louisiana and other states.

This transition will be seamless. Providers will continue to interact with the same local staff as in the past, and there will be no disruption of services. All contact telephone numbers and addresses will remain the same.

Please visit the Molina website at www.molinahealthcare.com for more detailed information.
