

ATTENTION DENTAL PROVIDERS

If you do not provide Medicaid-covered sedation in your office, you must inform Medicaid recipients upon each appointment scheduling that: 1) your office does not provide the type of sedation covered by Medicaid; 2) the patient will be responsible for the full payment of noncovered sedation/anesthesia if the patient continues to seek the non-covered service; 3) another dental office can provide Medicaid-covered sedation; and 4) other dental office contact information may be obtained by calling the Medicaid Referral Assistance Hotline at 1-877-455-9955. The patient's record must reflect that the patient was informed of this information and chose to utilize the services of your office, when applicable.
