

## **Recycle Status of ClaimCheck Modifier -51 Denials**

---

The recycle of claims that have been previously denied for errors (934 and 938) related to modifier -51 will not appear on the R/A of September 14, 2010, as anticipated in a previous message. (The recycle will apply only to those claims denied with these errors prior to the update related to modifier -51 that was effective with the date of processing of September 7, 2010.) Testing of the recycle is underway as a priority and is expected to be finalized within the next few weeks. Providers will be notified when the testing is complete and provided with pertinent details about the recycle. Please continue to monitor the Louisiana Medicaid website homepage at [www.lamedicaid.com](http://www.lamedicaid.com), under the ClaimCheck icon on the website, as well as RA messages for the latest information. For further questions related to this matter, please contact Molina Provider Relations at (800) 473-2783 or (225) 924-5040.
