

## Attention Pharmacy Providers

*The deadline for being compliant with NCPDP D.0 is fast approaching. Please be sure that any software changes needed for interface with your telecommunications switch vendor are complete and will be ready for use no later than January 1, 2012. If you have any questions or concerns about readiness for submitting claims using the new transaction, be sure and contact your software vendor and your telecommunications switch vendor as soon as possible. These vendors provide pharmacies with the ability to test electronic claims for compliance with D.0 transaction standards. Visit [lamedicaid.com](http://lamedicaid.com) for additional information on NCPDP D.0 implementation and select the 5010v of the HIPAA Electronic Transactions 11/7/11 link. Specifications for Medicaid Vendor Point of Sale (POS) Adjudication as well as the Appendices are available on the web site.*
