MEMORANDUM

DATE: June 15, 2022

TO: All Louisiana Medicaid Prescribing Providers and Pharmacists

FROM: Tara LeBlanc, Medicaid Executive Director *Tara A. LeBlanc*

SUBJECT: Louisiana Medicaid Pharmacy COVID-19 Vaccine Billing:
Administration Fee Update

Effective July 1, 2022, the Louisiana Medicaid Fee for Service (FFS) Pharmacy Program and Managed Care Organizations (MCOs) will update the COVID-19 vaccine administration fee. This update will apply to pharmacy claims submitted to FFS Medicaid and Louisiana Medicaid MCOs (Aetna, AmeriHealth Caritas, Healthy Blue, Louisiana Healthcare Connections, and UnitedHealthcare).

COVID-19 Vaccine Reimbursement

The federal government covers the cost of the COVID-19 vaccine. Therefore, Louisiana Medicaid will reimburse enrolled pharmacies for the **administration fee and not the ingredient** for COVID-19 vaccines. The current administration fee per injection of the COVID-19 vaccine will be changed from \$37.08 to \$36.78 to align with Medicare rate and LA Medicaid Professional Services. No dispensing fee shall be reimbursed, only administration fee. After administration of the first dose, the second dose of the COVID-19 vaccine may be filled as early as day 17 for the Pfizer product and day 24 for the Moderna product. At home administration of the COVID-19 vaccine for any dose, will be changed from \$32.60 to \$32.98 for a total reimbursement of \$69.76 (\$32.98 + \$36.78) or billed charges, whichever is the lesser amount.

COVID-19 Vaccine Copay

There will be no copay assessed on COVID-19 vaccine claims. Third party billing policy will apply and Medicaid will be the payer of last resort.

Point of Sale Bypass for COVID-19 Vaccine Administration

Pharmacy claims for COVID-19 vaccines will bypass FFS Point of Sale edits for the four prescription monthly limit and pharmacy Lock-In.

Pharmacist Requirements

For COVID-19 vaccine administration reimbursement, the pharmacist shall:

- be registered with the Louisiana Board of Pharmacy with the “Authority to Administer” vaccines.
- be registered as a Louisiana Medicaid provider.
- report certain data elements to the CDC for each COVID-19 dose administered within 24 hours of administration, as a vaccination provider.
- inform the individual that the administration of an immunization or vaccine is not to be construed as being in lieu of an annual preventive visit with the individual's primary care or family physician.
- access Louisiana Immunization Network Kids Statewide (LINKS) prior to immunization administration to verify appropriate utilization according to Advisory Committee on Immunization Practices (ACIP) to prevent duplication, unnecessary doses, inappropriate age, etc., if possible.
- report each immunization to the Louisiana Department of Health, Office of Public Health's LINKS at the time of the immunization or as soon as reasonably practicable, thereafter.
- report all adverse events observed or which are reported to the pharmacist to the Vaccine Adverse Events Reporting System, or its successor program; and further, the pharmacist shall refer the patient with an adverse event to appropriate medical care.
- request the name of a patient's primary care provider prior to the administering of any immunization. The pharmacist shall notify the primary care provider, by written or electronic communication, as soon as reasonably possible that the immunization was administered.
- ensure that pharmacy technicians and/or state-authorized pharmacy interns administering COVID-19 vaccines meet PREP Act qualifications. The qualified pharmacy technicians and/or state-authorized pharmacy interns act under the supervision of a qualified pharmacist. The supervising qualified pharmacist of qualified pharmacy technicians and/or state-authorized interns must comply with CDC, state, and federal requirements for COVID-19 vaccine administration.
