

Louisiana Medicaid Fee-for-Service (FFS) Pharmacy Provider Notice: 2017-2018 Influenza Season

Influenza Vaccine Administration

Beginning September 15, 2017, Louisiana Medicaid Fee-for-Service (FFS) Pharmacy Program will reimburse enrolled pharmacies for influenza vaccines and administration of the vaccines for Medicaid recipients who are nineteen years of age and older when the administering pharmacist is an enrolled Medicaid provider.

The cost of the vaccine will not be reimbursed for recipients under the age of nineteen as these vaccines are available through the Louisiana Vaccines for Children (VFC) program. Only the administration fee will be reimbursed for these recipients.

Fluzone® intradermal vaccine is indicated for ages eighteen to sixty-four. Therefore, Medicaid FFS Pharmacy Program will reimburse the cost of the vaccine and its administration when given to recipients who are ages eighteen through sixty-four.

Pharmacists who have the Authority to Administer authorized by the Louisiana Board of Pharmacy may administer the vaccine. These pharmacists may be issued individual Medicaid provider numbers. To confirm or request Medicaid enrollment, authorized pharmacists should contact Molina Provider Enrollment by phone at 225-216-6370. Additionally, pharmacists who have the Authority to Administer should acquire a National Provider Identifier (NPI) and report this number to Molina Provider Enrollment.

Effective August 15, 2010, Act 287 of the 2010 Louisiana Legislature permits pharmacists who possess a Medication Administration Registration from the Board of Pharmacy to administer the influenza vaccine to individuals seven years and older without a prescription or medical order. Please refer to the Louisiana Board of Pharmacy website at www.pharmacy.la.gov for more information.

Additionally, the Board of Pharmacy adopted the following motion: “For the purposes of recordkeeping and facilitating access to influenza immunizations to the public, and for the benefit of public health, pharmacists shall create a document in their prescription files which contains a prescription number and lists the immunizing pharmacist as the prescriber.”

When submitting claims without prescriptions authorized by a prescribing practitioner, the vaccinating pharmacist shall enter his/her Louisiana Medicaid provider number or NPI in NCPDP field 411-DB (Prescriber ID) and in NCPDP field 444-E9 (Provider ID). When a prescription does exist, the prescribing practitioner’s Medicaid provider number or NPI shall be entered into NCPDP field 411-DB (Prescriber ID). In this scenario, the vaccinating pharmacist’s Louisiana Medicaid provider number or NPI shall be entered into NCPDP field 444-E9 (Provider ID).
