ABOUT THIS DOCUMENT

This document has been produced at the direction of the Louisiana Department of Health and Hospitals (DHH), Bureau of Health Services Financing (BHSF), the agency that establishes all policy regarding Louisiana Medicaid. DHH contracts with a fiscal intermediary, currently Unisys Corporation, to administer certain aspects of Louisiana Medicaid according to policy, procedures, and guidelines established by DHH. This includes payment of Medicaid claims; processing of certain financial transactions; utilization review of provider claim submissions and payments; processing of pre-certification and prior authorization requests; and assisting providers in understanding Medicaid policy and procedure and correctly filing claims to obtain reimbursement.

This training packet has been developed for presentation at the Spring 2006 Louisiana Medicaid Provider Training workshops. Each year these workshops are held to inform providers of recent changes that affect Louisiana Medicaid billing and reimbursement. In addition, established policies and procedures that prompt significant provider inquiry or billing difficulty may be clarified by workshop presenters. The emphasis of the workshops is on policy and procedures that affect Medicaid billing.

This packet does not present general Medicaid policy such as recipient eligibility and ID cards, and third party liability. Such information is presented only in the Basic Medicaid Information Training packet. This packet may be obtained by attending the Basic Medicaid Information workshop; by requesting a copy from Unisys Provider Relations; or by downloading it from the Louisiana MEDICAID website, www.lamedicaid.com.
THE FOLLOWING SERVICES ARE AVAILABLE TO CHILDREN AND YOUTH WITH DEVELOPMENTAL DISABILITIES.
TO REQUEST THEM CALL THE OFFICE FOR CITIZENS WITH DEVELOPMENTAL DISABILITIES (OCDD)/DISTRICT/AUTHORITY IN YOUR AREA.
(See listing of numbers on attachment)

MR/DD MEDICAID WAIVER SERVICES
To sign up for "waiver programs" that offer Medicaid and additional services to eligible persons (including those whose income may be too high for other Medicaid), ask to be added to the Mentally Retarded/ Developmentally Disabled (MR/DD) Request for Services Registry (RFSR). The New Opportunities Waiver (NOW) and the Children’s Choice Waiver both provide services in the home, instead of in an institution, to persons who have mental retardation and/or other developmental disabilities. Both waivers cover Family Support, Center-Based Respite, Environmental Accessibility Modifications, and Specialized Medical Equipment and Supplies. In addition, NOW covers services to help individuals live alone in the community or to assist with employment, and professional and nursing services beyond those that Medicaid usually covers. The Children’s Choice Waiver also includes Family Training. Children remain eligible for the Children’s Choice Waiver until their nineteenth birthday, at which time they will be transferred to an appropriate Mentally Retarded/Developmentally Disabled (MR/DD) Waiver.

(If you are accessing services for someone 0-3 please contact EarlySteps at 1-866-327-5978.)

SUPPORT COORDINATION
A support coordinator works with you to develop a comprehensive list of all needed services (such as medical care, therapies, personal care services, equipment, social services, and educational services) then assists you in obtaining them. If you are a Medicaid recipient and under the age of 21 and it is medically necessary, you may be eligible to receive support coordination services immediately.

THE FOLLOWING BENEFITS ARE AVAILABLE TO ALL MEDICAID ELIGIBLE CHILDREN AND YOUTH UNDER THE AGE OF 21 WHO HAVE A MEDICAL NEED.
TO ACCESS THESE SERVICES CALL KIDMED (TOLL FREE) at 1-877-455-9955 (or TTY 1-877-544-9544)

MENTAL HEALTH REHABILITATION SERVICES
Children and youth with mental illness may receive Mental Health Rehabilitation Services. These services include clinical and medication management; individual and parent/family intervention; supportive and group counseling; individual and group psychosocial skills training; behavior intervention plan development and service integration. All mental health rehabilitation services must be approved by mental health prior authorization unit.

PSYCHOLOGICAL AND BEHAVIORAL SERVICES
Children and youth who require psychological and/or behavioral services may receive these services from a licensed psychologist. These services include necessary assessments and evaluations, individual therapy, and family therapy.

EPSDT/KIDMED EXAMS AND CHECKUPS
Medicaid recipients under the age of 21 are eligible for checkups (“EPSDT screens”). These checkups include a health history; physical exam; immunizations; laboratory tests, including lead blood level assessment; vision and hearing checks; and dental services. They are available both on a regular basis, and whenever additional health treatment or services are needed. EPSDT screens may help to find problems, which need other health treatment or additional services. Children under 21 are entitled to receive all medically necessary health care, diagnostic services, and treatment and other measures covered by Medicaid to correct or improve physical or mental conditions. This includes a wide range of services not covered by Medicaid for recipients over the age of 21.
PERSONAL CARE SERVICES
Personal Care Services (PCS) are provided by attendants when physical limitations due to illness or injury require assistance with eating, bathing, dressing, and personal hygiene. PCS services do not include medical tasks such as medication administration, tracheostomy care, feeding tubes or catheters. The Medicaid Home Health program or Extended Home Health program covers those medical services. PCS services must be ordered by a physician. The PCS service provider must request approval for the service from Medicaid.

EXTENDED SKILLED NURSING SERVICES
Children and youth may be eligible to receive Skilled Nursing Services in the home. These services are provided by a Home Health Agency. A physician must order this service. Once ordered by a physician, the home health agency must request approval for the service from Medicaid.

PHYSICAL THERAPY, OCCUPATIONAL THERAPY, SPEECH THERAPY, AUDIOLOGY SERVICES, and PSYCHOLOGICAL EVALUATION AND TREATMENT
If a child or youth wants rehabilitation services such as Physical, Occupational, or Speech Therapy, Audiology Services, or Psychological Evaluation and Treatment; these services can be provided at school, in an early intervention center, in an outpatient facility, in a rehabilitation center, at home, or in a combination of settings, depending on the child’s needs. For Medicaid to cover these services at school (ages 3 to 21), or early intervention centers and EarlySteps (ages 0 to 3), they must be part of the IEP or IFSP. For Medicaid to cover the services through an outpatient facility, rehabilitation center, or home health, they must be ordered by a physician and be prior-authorized by Medicaid.

FOR INFORMATION ON RECEIVING THESE THERAPIES CONTACT YOUR SCHOOL OR EARLY INTERVENTION CENTER. EARLYSTEPS CAN BE CONTACTED (toll free) AT 1-866-327-5978. CALL KIDMED REFERRAL ASSISTANCE AT 1-877-455-9955 TO LOCATE OTHER THERAPY PROVIDERS.

MEDICAL EQUIPMENT AND SUPPLIES
Children and youth can obtain any medically necessary medical supplies, equipment and appliances needed to correct, or improve physical or mental conditions. Medical Equipment and Supplies must be ordered by a physician. Once ordered by a physician, the supplier of the equipment or supplies must request approval for them from Medicaid.

TRANSPORTATION
Transportation to and from medical appointments, if needed, is provided by Medicaid. These medical appointments do not have to be with Medicaid providers for the transportation to be covered. Arrangements for non-emergency transportation must be made at least 48 hours in advance.

Children under age 21 are entitled to receive all medically necessary health care, diagnostic services, treatment, and other measures that Medicaid can cover. This includes many services that are not covered for adults.

IF YOU NEED A SERVICE THAT IS NOT LISTED ABOVE CALL THE REFERRAL ASSISTANCE COORDINATOR AT KIDMED (TOLL FREE) 1-877-455-9955 (OR TTY 1-877-544-9544). IF THEY CANNOT REFER YOU TO A PROVIDER OF THE SERVICE YOU NEED, CALL 1-888-758-2220 FOR ASSISTANCE.
OTHER MEDICAID COVERED SERVICES

- Ambulatory Care Services, Rural Health Clinics, and Federally Qualified Health Centers
- Ambulatory Surgery Services
- Certified Family and Pediatric Nurse Practitioner Services
- Chiropractic Services
- Developmental and Behavioral Clinic Services
- Diagnostic Services-laboratory and X-ray
- Early Intervention Services
- Emergency Ambulance Services
- Family Planning Services
- Hospital Services-inpatient and outpatient
- Nursing Facility Services
- Nurse Midwifery Services
- Podiatry Services
- Prenatal Care Services
- Prescription and Pharmacy Services
- Health Services
- Sexually Transmitted Disease Screening

MEDICAID RECIPIENTS UNDER THE AGE OF 21 ARE ENTITLED TO RECEIVE THE ABOVE SERVICES AND ANY OTHER NECESSARY HEALTH CARE, DIAGNOSTIC SERVICE, TREATMENT AND OTHER MEASURES COVERED BY MEDICAID TO CORRECT OR IMPROVE A PHYSICAL OR MENTAL CONDITION. This may include services not specifically listed above. These services must be ordered by a physician and sent to Medicaid by the provider of the service for approval.

If you need a service that is not listed above call KIDMED (TOLL FREE) at 1-877-455-9955 (or TTY 1-877-544-9544).

If you do not RECEIVE the help YOU need ask for the referral assistance coordinator.

STANDARDS FOR PARTICIPATION

Provider participation in Medicaid of Louisiana is entirely voluntary. State regulations and policy define certain standards for providers who choose to participate. These standards are listed as follows:

- Provider agreement and enrollment with the Bureau of Health Services Financing (BHSF) of the Department of Health and Hospitals (DHH);
- Agreement to charge no more for services to eligible recipients than is charged on the average for similar services to others;
- Agreement to accept as payment in full the amounts established by the BHSF and refusal to seek additional payment from the recipient for any unpaid portion of a bill, except in cases of Spend-Down Medically Needy recipients; a recipient may be billed for services which have been determined as non-covered or exceeding a limitation set by the Medicaid Program. Patients are also responsible for all services rendered after eligibility has ended.
- Agreement to maintain medical records (as are necessary) and any information regarding payments claimed by the provider for furnishing services;
- NOTE: Records must be retained for a period of five (5) years and be furnished, as requested, to the BHSF, its authorized representative, representatives of the DHH, or the state Attorney General's Medicaid Fraud Control Unit.
- Agreement that all services to and materials for recipients of public assistance be in compliance with Title VI of the 1964 Civil Rights Act, Section 504 of the Rehabilitation Act of 1978, and, where applicable, Title VII of the 1964 Civil Rights Act.

Picking and Choosing Services

On March 20, 1991, Medicaid of Louisiana adopted the following rule:

Practitioners who participate as providers of medical services shall bill Medicaid for all covered services performed on behalf of an eligible individual who has been accepted by the provider as a Medicaid patient.

This rule prohibits Medicaid providers from "picking and choosing" the services for which they agree to accept a client's Medicaid payment as payment in full for services rendered. Providers must bill Medicaid for all Medicaid covered services that they provide to their clients.

Providers continue to have the option of picking and choosing from which patients they will accept Medicaid. Providers are not required to accept every Medicaid patient requiring treatment.
Statutorily Mandated Revisions to All Provider Agreements

The 1997 Regular Session of the Legislature passed and the Governor signed into law the Medical Assistance Program Integrity Law (MAPIL) cited as LSA-RS 46:437.1-46:440.3. This legislation has a significant impact on all Medicaid providers. All providers should take the time to become familiar with the provisions of this law.

MAPIL contains a number of provisions related to provider agreements. Those provisions which deal specifically with provider agreements and the enrollment process are contained in LSA-RS 46:437.11-46:437.14. The provider agreement provisions of MAPIL statutorily establishes that the provider agreement is a contract between the Department and the provider and that the provider voluntarily entered into that contract. Among the terms and conditions imposed on the provider by this law are the following:

- comply with all federal and state laws and regulations;
- provide goods, services and supplies which are medically necessary in the scope and quality fitting the appropriate standard of care;
- have all necessary and required licenses or certificates;
- maintain and retain all records for a period of five (5) years;
- allow for inspection of all records by governmental authorities;
- safeguard against disclosure of information in patient medical records;
- bill other insurers and third parties prior to billing Medicaid;
- report and refund any and all overpayments;
- accept payment in full for Medicaid recipients providing allowances for copayments authorized by Medicaid;
- agree to be subject to claims review;
- the buyer and seller of a provider are liable for any administrative sanctions or civil judgments;
- notification prior to any change in ownership;
- inspection of facilities; and,
- posting of bond or letter of credit when required.

MAPIL’s provider agreement provisions contain additional terms and conditions. The above is merely a brief outline of some of the terms and conditions and is not all inclusive. The provider agreement provisions of MAPIL also provide the Secretary with the authority to deny enrollment or revoke enrollment under specific conditions.

The effective date of these provisions was August 15, 1997. All providers who were enrolled at that time or who enroll on or after that date are subject to these provisions. All provider agreements which were in effect before August 15, 1997 or became effective on or after August 15, 1997 are subject to the provisions of MAPIL and all provider agreements are deemed to be amended effective August 15, 1997 to contain the terms and conditions established in MAPIL.

Any provider who does not wish to be subjected to the terms, conditions and requirements of MAPIL must notify Provider Enrollment immediately that the provider is withdrawing from the Medicaid program. If no such written notice is received, the provider may continue as an enrolled provider subject to the provisions of MAPIL.
Surveillance Utilization Review

The Department of Health and Hospitals’ Office of Program Integrity, in partnership with Unisys, perform the Surveillance Utilization Review function of the Louisiana Medicaid program. This function is intended to combat fraud and abuse within Louisiana Medicaid and is accomplished by a combination of computer runs, along with medical staff that review providers on a post payment basis. Providers are profiled according to billing activity and are selected for review using computer-generated reports. The Program Integrity Unit of DHH also reviews telephone and written complaints sent from various sources throughout the state, including the fraud hotline.

Program Integrity and SURS would also like to remind all providers that they are bound by the conditions of their provider agreement which includes but is not limited to those things set out in Medical Assistance Program Integrity Law (MAPIL) R.S. 46:437.1 through 440.3, The Surveillance and Utilization Review Systems Regulation (SURS Rule) Louisiana Register Vol. 29, No. 4, April 20, 2003, and all other applicable federal and state laws and regulations, as well as Departmental and Medicaid policies. Failure to adhere to these could result in administrative, civil and/or criminal actions.

Providers should anticipate an audit during their association with the Louisiana Medicaid program. When audited, providers are to cooperate with the representatives of DHH, which includes Unisys, in accordance with their participation agreement signed upon enrollment. Failure to cooperate could result in administrative sanctions. The sanctions include, but are not limited to:

- Withholding of Medicaid payments
- Referral to the Attorney General’s Office for investigation
- Termination of Provider Agreement

Program Integrity and the Unisys Surveillance Utilization Review area remind providers **that a service undocumented is considered a service not rendered**. Providers should ensure their documentation is accurate and complete. All undocumented services are subject to recoupment. Other services subject to recoupment are:

- Upcoding level of care
- Maximizing payments for services rendered
- Billing components of lab tests, rather than the appropriate lab panel
- Billing for medically unnecessary services
- Billing for services not rendered
- Consultations performed by the patient’s primary care, treating, or attending physicians
Fraud and Abuse Hotline

The state has a hotline for reporting possible fraud and abuse in the Medicaid Program. Providers are encouraged to give this phone number/web address to any individual or provider who wants to report possible cases of fraud or abuse.

Anyone can report concerns at (800) 488-2917 or by using the web address at http://www.dhh.state.la.us/offices/fraudform.asp?id=92
MEDICAID PROSPECTIVE PAYMENT SYSTEM

In accordance with Section 1902(aa)/the provisions of the Benefits Improvement Act (BIPA) of 2000, effective January 1, 2001, payments to Rural Health Clinics (RHCs) and Federally Qualified Health Centers (FQHCs) for Medicaid services will be made under a Prospective Payment System (PPS) and paid on a per visit basis.

The PPS per visit rate is provider specific. To establish the interim baseline rate for 2001, each RHC/FQHC’s 1999 and 2000 allowable costs as taken from the RHC/FQHC’s filed 1999 and 2000 Medicaid cost reports were totaled and divided by the total number of Medicaid patient visits for 1999 and 2000. The baseline calculation includes all Medicaid coverable services provided by the RHC/FQHC regardless of existing methods of reimbursement for said services. This includes, but is not to be limited to ambulatory, transportation, laboratory (where applicable), KidMed and dental services previously reimbursed on a fee-for-service or other non-encounter basis. The per visit rate is all-inclusive. RHC/FQHC’s are not eligible to bill separately for any Medicaid covered services. The final PPS rate will be based on audited final cost reports for 1999 and 2000.

For an RHC/FQHC which enrolls and receives approval to operate on or after January 1, 2001, the facility’s initial PPS per visit rate will be determined first through comparison to other RHCs/FQHCs in the same town/city/parish. Scope of services will be considered in determining which proximate provider most closely approximates the new provider. For FQHCs which enroll and receive approval to operate on or after October 21, 2004, the facility will receive the Statewide Average Rate of all FQHCs.

Reimbursement Adjustments

The PPS per visit rate for each facility will be increased annually by percentage increase in the published Medicare Economic Index (MEI) for primary care services. The MEI will be applied on July 1 of each year.

NOTE: Please direct all cost reporting concerns to Carolyn Jones at (225) 342-2495.

REMINDER: RHCs must submit an annual cost report. The cost report must be sent to Trispan at the following address:

Trispan Health Services
5420 Corporate Boulevard, Suite 201
Baton Rouge, LA 70808
Phone: 225/925-8115
RHC/FQHC PROGRAM OVERVIEW

There are 3 components that may be provided under the RHC/FQHC Program: Encounter Visits, KIDMED Screening Services, and EPSDT Dental, Adult Denture Services and Expanded Dental Services for Pregnant Women (EDSPW)

RHC/FQHC Encounter Visits

Encounter visits must be billed using procedure code T1015. **It is necessary to indicate on subsequent lines the specific services provided by entering the individual procedure code and description for each service rendered. If the encounter detail is not included the claim will deny.**

For obstetrical (OB) services the RHC/FQHC providers must bill the encounter code T1015 with modifier TH and all services performed on that DOS.

RHC/FQHC KIDMED Screening Services

RHC/FQHC KIDMED screening services must be billed using the 837P Professional format, including the K3 KIDMED segment or the revised KM3 form using encounter code T1015 along with modifier EP. (Please see page 38 for further information regarding the filing of electronic claims.) It will be necessary for providers to indicate the specific screening services provided by entering the individual procedure code for each service rendered on the appropriate line. If a registered nurse performs the screening, providers must enter the appropriate procedure code followed by the modifier TD next to ‘Screening Completed by a Nurse’. If immunizations are given at the time of the screening, then those codes continue to be billed on the CMS1500, along with encounter code T1015 and modifier EP. All claims billed using the T1015 and EP modifier **must include** supporting detail procedures.

RHC/FQHC EPSDT Dental, Adult Denture Services and Expanded Dental Services for Pregnant Women (EDSPW)

Dental services must be billed on the 2002 or 2002, 2004 ADA claim form using the encounter code D0999. It will be necessary for providers to indicate on subsequent lines the specific dental services provided by entering the individual procedure code and description. All claims billed using D0999 **must include** supporting detail procedures.

**NOTE:** The dental encounter, D0999, may be billed on the same date of service as the encounter codes T1015(RHC/FQHC), T1015 TH(OB encounter), and/or T1015 EP(KIDMED screening).
RHC/FQHC ENCOUNTERT VISIT

RHC/FQHC Medical Encounter

A medical encounter is defined as receipt of services from a licensed practitioner and includes physicians, nurse practitioners and physicians’ assistants.

- Upon presentation at the clinic, a full mental, physical and dental assessment shall be done and any health problems identified must be addressed to the highest degree possible at that encounter.
- Encounter must include an assessment and written plan for each identified problem noted in the history and physical exam.
- Encounters for those recipients under the age of 21 must include all the aspects of a well-child screening visit.
- The documented Medical Encounter* level of service, at a minimum, is to include
  - An expanded, problem-focused history (chief complaint, brief history of present illness, problem pertinent system review)
  - An expanded, problem-focused exam (limited exam of the affected body area or organ system and other symptomatic or related organ systems)
  - This would be low level complexity of medical decision making (limited number of diagnoses, limited complexity of data to review, the risk of complications and management options- low)

- A new patient medical encounter level of service is to include the following:
  - A detailed history (chief complaint, history of present illness, problem pertinent system review, pertinent past, family, social history)
  - A detailed exam with low-to moderate complexity decision making

ALERT: All medical encounter services not covered through the Professional Services Program are not covered through the RHC/FQHC Program.

RHC/FQHC Clinical Social Worker Encounter

A clinical social worker encounter is defined as receipt of services from a clinical social worker.

- Problems identified at an encounter must be addressed to the highest degree possible at that encounter.

- The documented initial face-to-face clinical social worker encounter is to include, at a minimum:
  - The collection of current demographic data
  - Assessment/identification of current needs and make appropriate referrals with written contact information
  - Record any observable or reported deficits in function
• The documented subsequent face-to-face clinical social worker encounter should include, at a minimum:
  o The identification and coordination of referrals as indicated or requested
  o Discussion of services with the patient
  o Assessment of patient understanding of information discussed
  o Coordinate with facilities, physician, and others the completion of appropriate medical information as required to assist the patient

* These definitions are modeled after those found in the Current Procedural Terminology Manual – 2006 (CPT) currently used by the medical provider community to determine the level of medical care provided. These are minimal requirements from the Louisiana Department of Health and Hospitals, however providers are still required to comply with additional requirements outlined in the CPT book.

RHC/FQHC visits may be generated by the following licensed health care practitioners:

• Physicians
• Nurse Midwives (under a physician's direction)
• Clinical Psychologists (under a physician's direction)
• Physician Assistants (under a physician's supervision)
• Specialized Nurse Practitioners (in accordance with an approved protocol and under a physician's direction)
• Clinical Social Workers (under a physician's direction)
• Nurse Practitioners (in accordance with an approved protocol and under a physician's direction)
• Dentists

ALERT: All Clinical social worker services not covered through the Professional Services Program are not covered through the RHC/FQHC Program.

NOTE: Providers must obtain a Professional manual and training packet as a reference for policy regarding Professional services.

RHC/FQHC Visit Codes

RHC/FQHC encounter visits are billed using code T1015. Each visit counts as one of the allowable physician outpatient visits per calendar year for recipients who are 21 years of age or older. Only one encounter visit should be billed per recipient per day. **All services performed at the visit should be included on the claim form.**

• Providers who bill their claims electronically should list all services performed in addition to encounter code T1015.
• Providers who bill their claims hardcopy should list the top 5 services performed in addition to encounter code T1015.
• The attending provider number MUST BE included in block 24K to indicate the individual provider performing services if the physician, nurse practitioner, physician assistant or
psychiatrist provides the service. Beginning **July 1, 2006**, the individual provider ID # for social workers (MSW) must be included in block 24K of the CMS 1500 claim form. If a psychologist provides the services, the number entered must be the RHC/FQHC group number. Please remember to refer to the Professional Program policy for clarification of all services.

**Tuberculosis (TB)**

When a recipient returns to the facility only to have a TB skin test read, the RHC or FQHC may not charge an encounter fee. The reading of the test is considered a part of the entire TB test.

**Inpatient/Outpatient Services**

For all services rendered at the RHC/FQHC facility, in a nursing home, or home visits, the RHC/FQHC provider identification number must be used as the billing provider number in block 33 of the CMS 1500. Only inpatient hospital visits are billed using the individual physician’s provider identification number.

**Obstetrical Care Billing**

Code **T1015, along with the modifier of TH**, is used by RHCs/FQHCs to bill for obstetrical (OB) services. This code is also reimbursable at the clinic’s encounter rate. All services performed at the encounter should be listed on the claim form along with the encounter code.

**NOTE:** The code T1015 when used with modifier TH is not counted as one of the "office (regular) and other outpatient visits" for recipients 21 years and older.
Billing Encounters On The CMS 1500

- The encounter should be billed using T1015. If the encounter is obstetrical, the modifier TH should be appended. If the encounter is for a KIDMED screening, the modifier EP should be appended.

- For all services rendered at the RHC/FQHC facility, in a nursing home, or home visits, the RHC/FQHC provider identification number must be used as the billing provider number in block 33 of the CMS 1500. Only inpatient hospital visits are billed using the individual physician’s provider identification number.

- All detailed service procedure codes provided to the patient on a DOS should be listed on the claim form following encounter code T1015, T1015–TH or T1015–EP, beginning with DOS 01/01/2005. These charges may be listed as the provider’s usual & customary charges or $0.

- For KIDMED providers: If immunizations are given at the time of the medical screening, the specific immunization codes are listed on the CMS 1500, along with encounter T1015 and modifier EP. The EP modifier signifies a screening of a recipient under age 21. All claims billed using the T1015 with modifier EP must include one or more supporting detail procedures.

  **REMINDER: Only 1 T1015 procedure code will be paid per DOS.**

- If the encounter code is missing, the detail line item(s) will deny.
- If the encounter code is denied, the detail line item(s) will deny.
- If the encounter code is present and passes all edits but the detail line item(s) is/are missing, the encounter code will deny.
- If the encounter code is present and passes all edits, it will deny if all detail line items deny.
- If the encounter code and detail line items are present, correct, and pass all edits, the encounter code will pay at the provider’s encounter rate and the detail line item(s) will be approved at zero ($0).
- All detailed procedures must be covered services under the Louisiana Medicaid RHC/FQHC program.
- Mental Health Services must be performed under the guidelines of the Mental Health Services program and covered by Louisiana Medicaid. Mental Health Services procedure codes must be billed along with T1015.
Below are instructions for completing the claim form. Completed examples are shown following the instructions for completion.

**Certain items on the CMS-1500 are mandatory, as indicated by underlining and an asterisk (*)**.

Claims submitted with missing or invalid information in these fields will be returned unprocessed to the provider with a rejection letter listing the reason(s) the claims are being returned. Such claims cannot be processed until corrected and resubmitted by the provider.

**NOTE:** These instructions are for hard copy claims ONLY.

1. Enter an “X” in the box marked Medicaid (Medicaid #).

   1A. **Insured’s ID Number** - enter the recipient’s 13 digit Medicaid ID number exactly as it appears in the recipient’s current Medicaid information using the plastic Medicaid swipe card (MEVS) or through REVS or e-MEVS.

   **NOTE:** The recipients’ 13-digit Medicaid ID number must be used to bill claims. The CCN number from the plastic ID card is NOT acceptable.

   **Note:** If the 13-digit Medicaid ID number does not match the recipient’s name in block 2, the claim will be denied. If this item is blank, the claim will be returned.

2. **Patient’s Name** - Print the name of the recipient: last name, first name, middle initial. Spell the name exactly as verified through MEVS, REVS, or e-MEVS.

3. **Patient’s Birth Date and Sex** - Enter the recipient’s date of birth as reflected in the current Medicaid information available through MEVS, REVS or e-MEVS, using six (6) digits (MM DD YY). If there is only one digit in this field, precede that digit with a zero. Enter an “X” in the appropriate box to show the sex of the recipient.

4. **Insured’s Name** - Complete correctly if appropriate or leave this space blank.

5. **Patient’s Address** - Print the recipient’s permanent address.

6. **Patient Relationship to Insured** - Complete if appropriate or leave this space blank.

7. **Insured’s Address** - Complete if appropriate or leave this space blank.

8. **Patient Status** - Leave this space blank.

9. **Other Insured’s Name** - Complete if appropriate or leave this space blank.

   9A. **Other Insured’s Policy or Population Number** - Complete using the recipient’s 6-digit TPL carrier code if the recipient has other insurance and the claim has been processed by the third party insurer. (If this is the case, the EOB from the other insurance should be attached to the claim.) If the recipient does not have other coverage, leave this space blank.

   9B. **Other Insured’s Date of Birth** - Complete if appropriate or leave this space blank.
9C. **Employer’s Name or School Name** - Complete if appropriate or leave this space blank.

9D. **Insurance Plan Name or Program Name** - Complete if appropriate or leave this space blank.

10. **Was Condition Related To** - Leave this space blank.

11. **Insured Policy Population or FECA Number** - Complete if appropriate or leave this space blank.
   
   11A. **Insured’s Date of Birth** - Complete if appropriate or leave this space blank.
   
   11B. **Employer’s Name or School Name** - Complete if appropriate or leave this space blank.
   
   11C. **Insurance Plan Name or Program Name** - Complete if appropriate or leave this space blank.

12. **Patient’s or Authorized Person’s Signature** - Complete if appropriate or leave this space blank.

13. **Insured’s or Authorized Person’s Signature** - Obtain signature if appropriate or leave this space blank.

14. **Date of Current Illness** - Leave this space blank.

15. **Date of Same or Similar Illness** - Leave this space blank.

16. **Dates Patient Unable to Work** - Leave this space blank.

17. **Name of Referring Physician or Other Source** - If services are performed by a CRNA, the name of the directing physician must be entered here. If services are performed by an independent laboratory, the name of the referring physician must be entered in this field. If services are performed by a nurse practitioner, clinical nurse specialist or physician’s assistant, the name of the directing physician must be entered in this field. If the recipient is a lock-in recipient and has been referred to the billing provider for services, the lock-in physician’s name must be entered here.

   17A. **ID Number of Referring Physician** - Enter the referring physician’s Medicaid ID number, if known. If the recipient is a Community Care recipient, the Primary Care Physician referral authorization number must be entered here.

18. **Hospitalization Dates Related to Current Services** - Leave this space blank.

19. **Reserved for Local Use** - Leave this space blank.

20. **Outside Lab** - Leave this space blank.
21. **Diagnosis or Nature of Illness or Injury** - Enter the ICD-9 numeric diagnosis code and, if desired, narrative description. Use of ICD-9-CM coding is mandatory. Standard abbreviations of narrative descriptions are accepted.

22. **Medical Resubmission Code** - Leave this space blank.

23. **Prior Authorization** - Complete if required or leave space blank.

24.

24A. **Date of Service** - Enter the date of service for each procedure. Either six-digit (MMDDYY) or eight-digit (MMDDCCYY) format is acceptable.

24B. **Place of Service** - Enter the appropriate code from the approved Medicaid place of service code list.

24C. **Type of Service** – Enter the appropriate code from the approved Place of Service listing.

24D. **Procedure Code** - Enter the appropriate encounter procedure code on the first line.

   **Encounter codes:**
   - RHC/FQHC encounter visit: T1015
   - RHC/FQHC obstetrical services: T1015 with modifier TH
   - RHC/FQHC KIDMED services: T1015 with modifier EP

   **In addition to the encounter code, it is necessary to indicate on subsequent lines the specific services provided by entering the individual procedure code and description for each service rendered**

24E. **Diagnosis Code** - Reference the diagnosis entered in item 21 and indicate the most appropriate diagnosis for each procedure by entering either a “1”, “2”, “3”, or “4”. More than one diagnosis may be related to a procedure. Do not enter an ICD-9-CM diagnosis code in this item.

24F. **Charges** - Enter your encounter rate for the encounter code. You may enter $0 for the service procedure codes listed on subsequent lines.

24G. **Days or Units** - Enter the number of units billed for the procedure code entered on the same line in 24D.

24H. **EPSDT** - Leave blank or Enter a “Y” if services were performed as a result of an EPSDT referral.

24I. **EMG** - Leave this space blank.

24J. **COB** - Leave this space blank.

24K. **Attending Provider Number** - The attending provider number MUST BE included in block 24K to indicate the individual provider performing services if the physician, nurse practitioner, physician assistant, or psychiatrist provides the
service. If a MSW or psychologist provides the services, the number entered must be the RHC/FQHC group number.

25. **Federal Tax ID Number** - Leave this space blank.

26. **Your Patient’s Account Number** - (Optional) Enter the recipient’s medical record number or other individual provider-assigned number to identify the patient. This number will appear on the Remittance Advice (RA). It may consist of letters and/or numbers and may be a maximum of 16 characters.

27. **Accepts Assignment** - Leave this space blank. Medicaid does not make payments to the recipient. Claim filing acknowledges acceptance of Medicaid assignment.

28. **Total Charge** - Total of all charges listed on the claim.

29. **Amount Paid** - Leave this space blank unless payment has been made by a third party insurer. If such payment has been made, indicate the amount paid.

30. **Balance Due** - If payment has been made by a third party insurer, enter the amount due after third party payment has been subtracted from the billed charges.

31. **Signature of Physician/Supplier** - The claim form **MUST** be signed. The practitioner is not required to sign the claim form. However, the practitioner’s authorized representative must sign the form. Signature stamps or computer-generated signatures are acceptable, but must be initialed by the practitioner or authorized representative. **If this item is left blank, or if the stamped or computer-generated signature does not have original initials, the claim will be returned unprocessed.**

   **Date** - Enter the date of the signature.

32. **Name and Address Where Services Were Rendered** – Complete as appropriate or leave this space blank.

33. **Physician’s or Medical Assistance Supplier’s Name, Address, Zip Code and Telephone Number and PIN** - Enter the provider name, address including zip code and seven (7) digit Medicaid provider identification number. The Medicaid billing provider number must be entered in the space next to “Group (Grp) #.”

**Note:** If no Medicaid provider number is entered, the claim will be returned to the provider for correction and re-submission.

**Provider Information**

RHC/FQHC Clinic

200 Anywhere St.

Central, LA 70002
The Unisys 213 adjustment/void is used to adjust or void incorrect payments on the CMS-1500. These forms may be obtained from Unisys by calling Provider Relations at (800) 473-2783. Electronic submitters may electronically submit adjustment/void claims.

**FORM COMPLETION**

Only one (1) control number can be adjusted or voided on each 213 form.

Only an approved claim can be adjusted or voided.

Blocks 26 and 27 must contain the claim’s most recently approved control number and R.A. date. For example:

2. The claim is adjusted on the R.A. dated 11/16/2005, ICN 5320890123456.
3. If the claim requires further adjustment or needs to be voided, the most recently approved control number (5320890123456) and R.A. date (11/16/2005) must be used.

Provider numbers and recipient Medicaid ID numbers cannot be adjusted. They must be voided, then resubmitted.

**Adjustments**: To file an adjustment, the provider should complete the adjustment as it appears on the original claim form, changing the item that was in error to show the way the claim should have been billed. The approved adjustment will replace the approved original and will be listed under the "adjustment" column on the R.A. The original payment will be taken back on the same R.A. in the "previously paid" column.

**Voids**: To file a void, the provider must enter all the information from the original claim exactly as it appeared on the original claim. When the void claim is approved, it will be listed under the "void" column of the R.A. and a corrected claim may be submitted (if applicable).

Only one (1) claim line can be adjusted or voided on each adjustment/void form.

213 Adjustment/void forms should be mailed to the following address for processing:

### Notes
- **REASONS FOR ADJUSTMENT**
- **REASONS FOR VOID**
- **SIGNATURE OF PROVIDER OR SUPPLIER**
- **FISCAL AGENT COPY**
213 ADJUSTMENT/VOID INSTRUCTIONS

1. *ADJ/VOID—Check the appropriate block.

2. *Patient’s Name

   Adjust—Print the name exactly as it appears on the original claim if not adjusting this information.

   Void—Print the name exactly as it appears on the original claim.

3. *Patient’s Date of Birth

   Adjust—Print the date exactly as it appears on the original claim if not adjusting this information.

   Void—Print the name exactly as it appears on the original claim.

4. *Medicaid ID Number—Enter the 13 digit recipient ID number.

5. Patient’s Address and Telephone Number

   Adjust—Print the address exactly as it appears on the original claim.

   Void—Print the address exactly as it appears on the original claim.

6. Patient’s Sex

   Adjust—Print this information exactly as it appears on the original claim if not adjusting this information.

   Void—Print this information exactly as it appears on the original claim.

7. Insured’s Name—Leave this space blank.

8. Patient’s Relationship to Insured—Leave this space blank.

9. Insured’s Group No.—Complete if appropriate or leave space blank.

10. Other Health Insurance Coverage—Complete with 6-digit TPL carrier code if appropriate or leave blank.

11. Was Condition Related to:—Leave this space blank.

12. Insured’s Address—Leave this space blank.

13. Date of:—Leave this space blank.

14. Date First Consulted You for This Condition—Leave this space blank.
15. **Has Patient Ever Had Same or Similar Symptoms**—Leave this space blank.

16. **Date Patient Able to Return to Work**—Leave this space blank.

17. **Dates of Total Disability-Dates of Partial Disability**—Leave this space blank.

18. **Name of Referring Physician or Other Source**—Leave this space blank.

   18A. **Referring ID Number** - Enter the CommunityCARE authorization number if applicable or leave blank.

19. **For Services Related to Hospitalization Give Hospitalization Dates**—Leave this space blank.

20. Name and Address of Facility Where Services Rendered (if other than home or office)—Leave this space blank.

21. **Was Laboratory Work Performed Outside of Office?**—Leave this space blank.

22. **Diagnosis of Nature of Illness**

   - **Adjust**—Print the information exactly as it appears on the original claim if not adjusting the information.

   - **Void**—Print the information exactly as it appears on the original claim.

23. **Attending Number**—Enter the attending number submitted on original claim, if any, or leave this space blank.

24. **Prior Authorization #**—Enter the PA number if applicable or leave blank.

25. **A through F**

   - **Adjust**—Print the information exactly as it appears on the original claim if not adjusting the information.

   - **Void**—Print the information exactly as it appears on the original claim.

26. **Control Number**—Print the correct Control Number as shown on the Remittance Advice.

27. **Date of Remittance Advice that Listed Claim was Paid**—Enter MM DD YY from RA form.

28. **Reasons for Adjustment**—Check the appropriate box if applicable, and write a brief narrative that describes why this adjustment is necessary.

29. **Reasons for Void**—Check the appropriate box if applicable, and write a brief narrative that describes why this void is necessary.

30. **Signature of Physician or Supplier**—All Adjustment/Void forms must be signed.
31. **Physician’s or Supplier’s Name, Address, Zip Code and Telephone Number**—Enter the requested information appropriately plus the seven (7) digit Medicaid provider number. The form will be returned if this information is not entered.

32. **Patient’s Account Number**—(Optional) Enter the patient’s correct provider-assigned account number.

Marked (*) items must be completed or form will be returned.
CROSSOVER PROCEDURES

If a patient has both Medicare and Medicaid coverage, providers should file claims in the appropriate manner with the regional Medicare Fiscal Intermediary/cARRIER, making sure they have included the recipient’s Medicaid number on the Medicare claim form.

Once the Medicare intermediary/carrier has processed the Medicare portion of the core visit, the provider must send a hard copy claim to Unisys for co-insurance and deductible payment. To process hard copy RHC/FQHC Medicare crossover claims, the provider must do the following:

- Make a copy of the claim filed to Medicare
- Put the Medicaid provider number and recipient Medicaid number in the appropriate form locators
- Attach the Medicare EOB to the claim

RHC/FQHC Medicare crossover claims that are not submitted in this format will be returned to the provider as unprocessable. The provider may submit a copy of the Medicare EOB provided the copy is legible. In addition, all of the EOB data, such as patient name and dates of service must match.

NOTE: This is the only instance where Louisiana Medicaid may be billed on the UB92 for RHC/FQHC services. Straight Medicaid claims must be processed on the HCFA-1500 claim form.

Medicare crossover claims should be sent to the following address for processing:

Unisys
P.O. Box 91023
Baton Rouge, LA 70821
The Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) Program is a Medicaid program that was established by the Federal government in 1967. The purpose of the program is to provide low-income children with comprehensive health care. Louisiana began EPSDT services in 1972. The screening component of EPSDT is called KIDMED and includes medical, vision, and hearing screening services.

KIDMED providers have the responsibility for coordinating medical, vision, and hearing screenings. Medical, vision, and hearing screenings should be performed on the same day to prevent the child from having to return at a later date. The following pages discuss the elements of KIDMED screenings. Additional information, including a description of each component and who may conduct each component, is found in the KIDMED provider manual.

**KIDMED Linkage**

Providers cannot obtain KIDMED linkage through traditional forms of eligibility verification, such as REVS, MEVS, or e-MEVS. In order to obtain KIDMED linkage, providers must call Unisys or ACS. When requesting KIDMED linkage, providers must be specific as to whether they are requesting KIDMED or CommunityCARE linkage. In addition, when rendering a screening, the recipient must either be linked to the screening provider, or the screening provider must have a contractual agreement with the provider to whom the recipient is linked.

**Medical Screening**

Billing for these screenings should be completed hard copy on the KM-3 Form or electronically with the 837P claim transaction including the K3 segment. Billing may not be submitted for a medical screening unless all of the following components are administered:

<table>
<thead>
<tr>
<th>COMPONENTS OF THE MEDICAL SCREENING</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Comprehensive health and developmental history (including assessment of both physical and mental health and development)</td>
</tr>
<tr>
<td>2. Comprehensive unclothed physical exam or assessment</td>
</tr>
<tr>
<td>3. Appropriate immunizations according to age and health history (unless medically contraindicated or parents or guardians refuse at the time)</td>
</tr>
<tr>
<td>4. Laboratory tests (including appropriate neonatal, iron deficiency anemia, urine, and blood lead screening)</td>
</tr>
<tr>
<td>5. Health education (including anticipatory guidance)</td>
</tr>
</tbody>
</table>

**NOTE:** All components, including specimen collection, must be provided on-site during the same medical screening visit.
The following procedure codes are used to bill for the medical screening:

<table>
<thead>
<tr>
<th>Code</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>99381*</td>
<td>Initial comprehensive preventive medicine; Infant (age under 1 year)</td>
</tr>
<tr>
<td>99382*</td>
<td>Initial comprehensive preventive medicine; Early Childhood (ages 1-4)</td>
</tr>
<tr>
<td>99383*</td>
<td>Initial comprehensive preventive medicine; Late Childhood (ages 5-11)</td>
</tr>
<tr>
<td>99384*</td>
<td>Initial comprehensive preventive medicine; Adolescent (ages 12-17)</td>
</tr>
<tr>
<td>99385*</td>
<td>Initial comprehensive preventive medicine; Adult (ages 18-20)</td>
</tr>
<tr>
<td>99391*</td>
<td>Periodic comprehensive preventive medicine; Infant (age under 1 year)</td>
</tr>
<tr>
<td>99392*</td>
<td>Periodic comprehensive preventive medicine; Early Childhood (ages 1-4)</td>
</tr>
<tr>
<td>99393*</td>
<td>Periodic comprehensive preventive medicine; Late Childhood (ages 5-11)</td>
</tr>
<tr>
<td>99394*</td>
<td>Periodic comprehensive preventive medicine; Adolescent (ages 12-17)</td>
</tr>
<tr>
<td>99395*</td>
<td>Periodic comprehensive preventive medicine; Adult (ages 18-20)</td>
</tr>
</tbody>
</table>

*Providers should use the TD Modifier in conjunction with the appropriate CPT code to report a screening that was performed by a nurse.

Note: Providers must use the age appropriate code in order to avoid claim denial.

Vision Screening

The purpose of the vision screening is to detect potentially blinding diseases and visual impairments, such as congenital abnormalities and malfunctions, eye diseases, strabismus, amblyopia, refractive errors, and color blindness.

Subjective Vision Screening

The subjective vision screening is part of the comprehensive history and physical exam or assessment component of the medical screening and must include the history of:

- Any eye disorders of the child or his family
- Any systemic diseases of the child or his family which involve the eyes or affect vision
- Behavior on the part of the child that may indicate the presence or risk of eye problems
- Medical treatment for any eye conditions

Objective Vision Screening

KIDMED objective vision screenings (99173-EP) may be performed by trained office staff under the supervision of a LICENSED Medicaid physician, physician assistant, registered nurse, or optometrist. The interpretive conference to discuss findings from the screenings must still be performed by a licensed physician, physician assistant, or registered nurse, as is currently the stated policy in the KIDMED manual.
Objective vision screenings begin at age 4. The objective vision screening must include tests of:

- visual acuity (Snellen Test or Allen Cards for preschoolers and equivalent tests such as Titmus, HOTV or Good Light, or Keystone Telebinocular for older children);
- color perception (must be performed at least once after the child reaches the age of 6 using polychromatic plates by Ishihara, Stilling, or Hardy-Rand-Ritter); and
- muscle balance (including convergence, eye alignment, tracking, and a cover-uncover test).

The following procedure code is used to bill for vision screening:

<table>
<thead>
<tr>
<th>Procedure Code</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>99173 with EP modifier</td>
<td>Vision Screening</td>
</tr>
</tbody>
</table>

**Hearing Screening**

The purpose of the hearing screening is to detect central auditory problems, sensorineural hearing loss, conductive hearing impairments, congenital abnormalities, or a history of conditions which may increase the risk of potential hearing loss.

**Subjective Hearing Screening**

The subjective hearing screening is part of the comprehensive history and physical exam or assessment component of the medical screening and must include the history of:

- the child’s response to voices and other auditory stimuli
- delayed speech development
- chronic or current otitis media
- other health problems that place the child at risk for hearing loss or impairment

**Objective Hearing Screening**

KIDMED objective hearing screenings (92551) may be performed by trained office staff under the supervision of a LICENSED Medicaid audiologist or speech pathologist, physician, physician assistant, or registered nurse. The interpretive conference to discuss findings from the screenings must still be performed by a licensed physician, physician assistant, or registered nurse, as is currently the stated policy in the KIDMED manual.

Objective hearing screenings begin at age 4. The objective hearing screening must test at 1000, 2000, and 4000 Hz at 20 decibels for each ear using the puretone audiometer, Welsh Allyn audioscope, or other approved instrument.
The following procedure code is used to bill for hearing screening:

<table>
<thead>
<tr>
<th>Code</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>92551</td>
<td>Hearing Screening</td>
</tr>
</tbody>
</table>

**NOTE:** Age appropriate hearing and vision screening should be performed in conjunction with an RHC/FQHC KIDMED medical screening. These services are not payable separately. If a hearing and/or vision screening is done separately from the KIDMED medical screening, an encounter may not be billed, and the services will not be paid.

**Immunizations**

Appropriate immunizations (unless medically contraindicated or the parents/guardians refuse) are a federally required medical screening component, and failure to comply with or properly document the immunization requirement constitutes an incomplete screening and is subject to recoupment of the total medical screening fee. KIDMED follows the current Childhood Immunization Schedule recommended by Advisory Committee on Immunization Practices (ACIP), American Academy of Pediatrics (AAP), and American Academy of Family Physicians (AAFP), which is updated yearly. Providers are responsible for obtaining current copies of the schedule.

⇒ The immunization administration fee is included in the KIDMED encounter reimbursement. Immunizations may not be reimbursed separately. If a recipient is too ill to receive immunizations at the time of a KIDMED medical screening, the reason should be documented in the chart and they should be scheduled to return at a later date for immunization administration. An encounter visit cannot be charged for the return visit, because immunization administration was reimbursed in the original visit payment.

**Laboratory**

Age-appropriate laboratory tests are required at selected age intervals. Specimen collection must be performed in-house at the medical screening visit. A child cannot be sent to an outside laboratory to have blood drawn. Documented laboratory procedures provided less than six months prior to the medical screening should not be repeated unless medically necessary. Iron deficiency anemia screening and urine screening when required are included in the KIDMED medical screening fee and CANNOT be billed separately.

Providers should not bill Medicaid for lab services not performed in their own office.

**Neonatal Screenings**

The initial or repeat neonatal screening results for PKU, hypothyroidism, and sickle cell disease must be documented in the medical record for all children less than 6 months of age. Children over 6 months of age do not need to be screened for these conditions unless it is medically indicated.
Billing Information

Only KIDMED medical, vision, and hearing screenings should be billed on the KM-3 hard copy KIDMED claim form. If billing electronically, KIDMED medical, vision, and hearing screenings must be billed on the 837P with the K-3 (KIDMED) segment completed (see pages 37 - 39 for further details).

Immunizations, laboratory tests, interperiodic screenings, and low level office visits in conjunction with a KIDMED screening are billed electronically on the 837P or hard copy on the CMS 1500 claim form.

**NOTE: Providers must obtain a KIDMED manual and training packet as a reference for policy regarding KIDMED services.**
SCREENING PERIODICITY POLICY

One important obligation of the KIDMED provider is to provide services according to the periodicity schedule. **KIDMED providers should follow the most current copy of the American Academy of Pediatrics (AAP), Advisory Committee on Immunization Practices (ACIP), and American Academy of Family Physicians (AAFP) Recommended Childhood Immunization Schedule.** This schedule should be replaced by KIDMED providers each year as revisions are published.

**Initial Screening**

Initial screenings must be scheduled within the time limits given below upon notification by the Louisiana KIDMED office:

- **Newborns** - immediately
- **Children one month to three years of age** - within 45 days
- **Children three to six years of age** - within 60 days
- **Children six to 21 years of age** - within 120 days

**Periodicity Restrictions**

Screenings must be performed on time at the ages shown on the Periodicity Chart (a copy of which may be found on the following page and in the Appendix of this training packet). For example, the screening due when the child is six months old must be performed after he or she has reached the age of six months, but before the seven-month birthday. The screening scheduled for three years of age must be performed between the child’s third and fourth birthdays. In addition, the periodic screenings performed on children under two must be performed at least 30 days apart. Screenings performed after the child’s second birthday must be at least six months apart. Claims submitted for KIDMED periodic screenings performed at an inappropriate time will not be paid.

**Off-Schedule Screenings**

If a child misses a regular periodic screening, that child may be screened off-schedule in order to bring him or her up to date at the earliest possible time. **However, all screenings on children under two years of age must be at least 30 days apart, and those on children age two through six years of age must be at least six months apart.**

X = Required at visit for this age  
S = Subjective by history  
O = Objective by Medicaid – approved standard testing method  
--- = One test must be administered during this time frame

---

1. Baseline lab and developmental screening must be done at the initial medical screening on all children under age six.
2. The newborn screening examination at birth must occur prior to hospital discharge.
3. The physical examination/assessment must be un clothed or undraped and include all body systems.
4. The state health department immunization schedule must be followed per AAP recommendations.
5. If done less than 48 hours after birth, neonatal screening must be repeated.
6. Anemia screening is to be done once between 9 and 12 months or earlier if medically indicated, one year to four years, five years to 12 years, and between 13 and 20 years.
7. Urine testing (dipstick) is to be done once between one and four years, (as soon as toilet trained), five to 12 years, and between 13 and 20 years.
8. Anticipatory guidance and verbal risk assessment for lead must be done at every medical screening.
9. Screening beginning at six months corresponds to CDC guidelines. The frequency of screening using the blood lead test depends on the result of the verbal risk assessment.
10. Health education must include anticipatory guidance and interpretive conference. Youth, ages 12 through 20, must receive more intensive health education which addresses psychological issues, emotional issues, substance usage, and reproductive health issues at each screening visit.
VACCINES FOR CHILDREN & LOUISIANA IMMUNIZATION NETWORK FOR KIDS STATEWIDE

Vaccines For Children (VFC)

VFC is covered under Section 1928 of the Social Security Act. Implemented on October 1, 1994, it was an “unprecedented approach to improving vaccine availability nationwide by providing vaccines free of charge to VFC-eligible children through public and private providers.”

The goal of VFC is to ensure that no VFC-eligible child contracts a vaccine preventable disease because of his/her parent’s inability to pay for the vaccine or its administration.

Persons eligible for VFC vaccines are between the ages of birth through 18 who meet the following criteria:

- Eligible for Medicaid
- No insurance
- Have health insurance, but it does not offer immunization coverage and they receive their immunizations through a Federally Qualified Health Center
- Native American or Alaska native

Providers can obtain an enrollment packet by contacting the Office of Public Health’s (OPH) Immunization Section at (504) 838-5300.

Louisiana Immunization Network For Kids Statewide (LINKS)

LINKS is a computer-based system designed to keep track of immunization records for providers and their patients.

The purpose of LINKS is to consolidate immunization information among health care providers to assure adequate immunization levels and to avoid unnecessary immunizations.

LINKS can be accessed through the OPH website:
https://linksweb.oph.dhh.louisiana.gov

LINKS will assist providers within their medical practice by offering:

- Immediate records for new patients
- Decrease staff time spent retrieving immunization records
- Avoid missed opportunities to administer needed vaccines
- Fewer missed appointments (if the “reminder cards and letter” option is used)

LINKS will assist patients by offering:

- Easy access to records needed for school and child care
- Automatic reminders to help in keeping children’s immunizations on schedule
- Reduced cost (and discomfort to child) of unnecessary immunizations

Providers can obtain an enrollment packet, or learn more about LINKS by calling the Louisiana Department of Health and Hospitals, Office of Public Health Immunization Program at (504) 838-5300.
The following chart lists vaccines for immunization services.

* indicates the vaccine is available from the Vaccines For Children (VFC) program
^ indicates the vaccine is payable for QMB Only and QMB Plus recipients
One of the purposes of KIDMED screening services is to assure that health problems are found, diagnosed, and treated early before they become more serious and treatment more costly. KIDMED providers are responsible for identifying any general suspected conditions and reporting the presence, nature, and status of the suspected conditions. Any referrals made for these conditions must also be reported and documented.

**Diagnosis**

When a medical, vision, or hearing screening indicates the need for further diagnosis or evaluation of a child’s health, the child must receive a complete diagnostic evaluation within 60 days of the screening.

An infant or toddler who meets or may meet the medical or biological eligibility criteria for EarlySteps (infant and toddler early intervention services) must be referred to the local System Point of Entry (SPOE) within two working days of the screening.

EarlySteps is the responsibility of DHH/Office of Public Health. For further information on EarlySteps refer to the Appendix.

**Initial Treatment**

Medically necessary health care, initial treatment, or other measures needed to correct or ameliorate physical or mental illnesses or conditions discovered in a medical, vision, or hearing screening must be initiated within 60 days of the screening.

**Providing or Referring Recipients for Services**

KIDMED providers detecting a health or mental health problem in a screening must either provide the services indicated or refer the patient for care without delay. Necessary referrals should be made at the time of screening if possible.

KIDMED providers performing diagnostic and/or initial treatment services should do so at the screening appointment when possible. Otherwise, KIDMED providers must ensure that recipients receive the necessary services within 60 days of the screening.

It is the provider’s responsibility to discuss referral options with parents or guardians. You must forward necessary medical information to the ‘referred-to’ provider, and request from that provider a report of the results of the exam or services provided. This information should be maintained in the recipient’s record.

You must follow up and verify that the child keeps the appointment and receives the services. This must be documented in the medical record. If the child missed the appointment, you must make at least two good faith efforts to re-schedule and have a process in place to document these efforts.
A sample referral follow up form (providers may develop their own) has been included in the Appendix for provider use.

Providers and recipients may contact ACS to obtain the names of participating Medicaid providers for referrals to any additional medical services:

**KIDMED Hotlines:**

CommunityCARE/KIDMED Hotline – ACS (800) 259-4444  
Specialty Care Resource Line – (877) 455-9955  
TTY Hotline for Hearing Impaired - (877) 544-9544

Referrals should not be limited to those services covered by Medicaid. For services Medicaid does not cover, KIDMED providers should attempt to locate other providers who furnish the services at little or no cost. Parents or guardians should be made aware of costs associated with services that Medicaid does not cover.

**In-House Referral**

During a KIDMED screening, a suspected condition may be identified. If this occurs and an in-house referral for treatment is made, no office visit higher than a 99212 is billable and payable to the same provider on the same date of service.

In-house referral charges are billed on the CMS 1500 claim form or electronically using the 837P claim transaction. Encounter code T1015 is listed on the first claim line along with the provider’s encounter rate. The supporting detail lines are billed on the subsequent lines. The charges may be listed as the provider’s usual & customary charges or $0.

**REMEMBER: Only 1 T1015 procedure code will be paid per DOS.**

**WIC REFERRALS**

WIC referrals and forms completion are a part of the KIDMED program. This is a federal requirement. Recipients should never be billed for these services.

If the WIC referral is not completed at the time of an encounter and the recipient returns solely for the completion of the form, the RHC or FQHC can not bill separately for this service as no medical service has been rendered.
KM-3 FORM TIMELY FILING GUIDELINES

Unisys must receive initial KM-3 claim forms for screening services within 60 days from the date of service. Resubmissions must be received within 1 year and 60 days from the date of service and must be accompanied by proof of timely filing.

Proof Of Timely Filing

Acceptable forms of proof of timely filing are limited to the following:

- A remittance advice or a Claim Status Inquiry (CSI) screen print indicating that the claim was processed within 60 days from the date of service.

The following reports can suffice as proof of timely filing only if detailed information is indicated on the report.

- KIDMED report CP-0-115 (Recycled Claims Listing)
- KIDMED report CP-0-50 (Denied Claims List)
- KIDMED report CP-0-50 (Resubmittal Turnaround Document)
- KIDMED report CP-0-51 (Electronic Media Claim Proof List)
- Correspondence from either the state or parish Office of Eligibility Determination concerning the claim and/or the eligibility of the recipient.
HIPAA COMPLIANT TRANSACTIONS

HIPAA mandates that providers billing electronically utilize HIPAA standardized EDI specifications. The electronic HIPAA transaction accepted for billing KIDMED/preventive medicine claims is the 837P Professional format, including the K3 (KIDMED) segment. Please communicate these requirements to your Vendor, Billing Agent, Clearinghouse (VBC), and let them know that the “file extension” on the electronic file MUST be KID, not PHY.

DHH Rule Requirements Regarding KIDMED Claims
As stated in the promulgated rule published in the Louisiana Register, Volume 30, No. 8, August 20, 2004;

- “All providers of Early and Periodic Screening, Diagnosis and Treatment (EPSDT) preventative screening services shall be required to submit information to the Medicaid Program regarding recipient immunizations, referrals and health status.”

The information submitted on the KIDMED/preventative medicine claim, including the information regarding recipient immunization services provided, immunization status, suspected conditions and referral information related to suspected conditions is a federal reporting requirement.

Accurate data submission on KIDMED/preventative medicine claims, whether it is submitted by paper claim on the KM-3 or electronically using the 837P with the K-3 segment is imperative. The services provided during a KIDMED/preventative medical screen should be reflected on the claim. It is a misrepresentation of services provided when immunizations are provided, referrals are made and health status information is obtained, recorded in the patient record and not communicated on the KM-3 or K3 segment. **Misrepresentation of the services provided, specifically, immunizations, referrals for suspected conditions and health status, is considered a direct violation of the promulgated rule. All Medicaid claims are subject to post-payment review.**

KIDMED denial edit 517 (KIDMED Format Required – Claim must be submitted in KIDMED format) will be set if the KIDMED service provided was not billed hard copy on a KM-3 claim form or submitted electronically on the 837P with the K-3 segment and the KID file extension.

KIDMED denial edit 518 (KIDMED information missing – immunization and suspected condition information required) will be set if the required KIDMED claim detail information (including immunization status, suspected conditions, and referral information) is NOT provided on the claim.
KIDMED DETAIL INFORMATION WITHIN THE 837P TRANSACTION

The following information may be helpful in communicating these new requirements to your VBC.

Within the 837P transaction is the K3 claim segment which contains detailed information specifically related to the KIDMED screening services provided. Louisiana Medicaid uses the K3 segment to collect the information related to immunization status, suspected conditions and referral information. This segment mirrors what is currently collected on the KM-3 paper claim. As with previous electronic and paper submissions, providers must certify with each claim whether or not the recipient’s immunizations are complete and current for his/her age.

The following information is required for each KIDMED claim and appears in the K3 segment once the claim is submitted to Louisiana Medicaid:

Immunization Status (Required Information)

Values in this segment are answered with Y (Yes) or N (No). If the status is N (No) then the following information is also required:
A - if the immunizations are not complete due to medical contraindication;
B - if the parent(s) or guardian(s) refuse to permit the immunization;
C - if the patient is off schedule, having received an immunization at this visit but is still due one.

Screening Finding (Required Information) - Screening results must be reported as follows:

Field qualifier SC (Suspected Conditions)
Initially, this segment is answered with Y (Yes) or N (No). If the value is Y (Yes), additional information or type of suspected condition is required as follows:

A=Medical   D= Dental   G=Abuse/Neglect
B=Vision    E=Nutritional  H=Psychological/Social
C=Hearing   F=Developmental  I=Speech/Language

After each suspected condition is identified, the referral type is also required:
U (if already under care)
O (if referred offsite)
I (if being treated in-house.)

At least one referral type must be entered. Up to three types of referrals may be entered for each condition if applicable.

NOTE 1: No more than four (4) suspected conditions may be entered. If more than four apply, enter the most significant based on medical judgment.

NOTE 2: Any of the nine (9) types of suspected conditions may be entered.
Referral Information (Suspected Conditions)

If a referral is indicated, referral information must be provided using appropriate values and data including:

- Referral Number (R1)
- Appointment Date
- Referral Reason
- Provider name
- Referral Phone Number

If additional referrals have been given, give the required information for each additional referral, identifying the second referral with a qualifier R2 and the third referral with R3 if needed.

If the referral was made as a result of the EPSDT screening service, a Y (Yes) indicator is also required in the loop. If no suspected health conditions were identified and no referral resulted from the EPSDT screening service, enter N (No).

The referral outcome should be indicated as follows:

- AV  Patient refused the referral.
- S2  Patient is currently under care for the referred condition
- ST  Patient was referred to another provider as a result of at least one suspected condition identified during the screening. (If several conditions apply as a result of a screening service, this value should take precedence.)
RHC/FQHC KM-3 CLAIMS FILING INSTRUCTIONS

- Initial and Periodic KIDMED screening services are billed on the revised KM3 form. It is necessary to indicate the specific screening services provided by entering the individual procedure code for each service rendered on appropriate lines.
- Providers must also indicate encounter code T1015, with modifier EP, on the KM3 form.
- If immunizations are given at the time of the screening, then those codes are listed on the CMS 1500, along with encounter T1015 and modifier EP. All claims billed with encounter T1015 and modifier EP must include all supporting detail procedures. Claims without an encounter code AND detail procedure will deny.
- If, on the same date of service, a recipient is referred in-house for treatment of a problem identified during the screening, encounter code T1015 is billed on the CMS1500 along with the appropriate CPT code indicating the level of care.
- When encounter code T1015 is billed on a CMS 1500, along with supporting detail, on the same date of service that a KIDMED screening is billed on the KM3, one encounter rate will pay and the other will deny with error code 715.
- Only 1 encounter code (T1015) will be paid per day.
- If the encounter code is missing, the detail line item(s) will deny.
- If the encounter code is denied, the detail line item(s) will deny.
- If the encounter code is present and passes all edits but the detail line item(s) is/are missing, the encounter code will deny.
- If the encounter code is present and passes all edits, it will deny if all detail line items deny.
- If the encounter code and detail line items are present, correct, and pass all edits, the encounter code will pay at the provider’s encounter rate and the detail line item(s) will be approved at zero ($0).
- KIDMED screenings performed by a registered nurse should be billed using encounter code T1015 with modifier EP and the appropriate KIDMED medical screening code and the modifier TD to signify a registered nurse.
- Only a physician doing a screening should bill with no modifier.

KM-3 claim forms should be mailed to the following address for processing:

Unisys
P.O. Box 14849
Baton Rouge, LA 70821

NOTE: When a provider bills an encounter code, supporting detail and modifier on one claim form the claims processing sub-system keeps all lines together for processing purposes.
Following are instructions for completing the items of the KM-3 claim form:

<table>
<thead>
<tr>
<th>Item No.</th>
<th>Description and details</th>
</tr>
</thead>
<tbody>
<tr>
<td>1.</td>
<td><strong>Type of claim</strong> - There are three choices in this box. You may choose only one, entering a checkmark as appropriate.</td>
</tr>
<tr>
<td></td>
<td>• Check &quot;original&quot; if this is the original screening claim for this recipient for the service date indicated in item 25. If you check &quot;original,&quot; skip directly to item 4.</td>
</tr>
<tr>
<td></td>
<td>• Check &quot;adjustment&quot; if this claim adjusts a previously paid claim for this recipient for the service date indicated in item 25.</td>
</tr>
<tr>
<td></td>
<td>• Check &quot;void&quot; if you are voiding a claim already submitted for this recipient for the service date indicated in item 25.</td>
</tr>
<tr>
<td></td>
<td>If there is no checkmark in this block, it is considered to be an original claim.</td>
</tr>
<tr>
<td>2.</td>
<td><strong>Reason</strong> - If &quot;adjustment&quot; or &quot;void&quot; is indicated in item 1, providers must complete item 2 by entering the applicable two-digit code:</td>
</tr>
<tr>
<td></td>
<td><strong>Code</strong></td>
</tr>
<tr>
<td></td>
<td>Adjustments 02</td>
</tr>
<tr>
<td></td>
<td>03</td>
</tr>
<tr>
<td></td>
<td>Voids 10</td>
</tr>
<tr>
<td></td>
<td>11</td>
</tr>
<tr>
<td>3.</td>
<td><strong>Adjustment ICN</strong> - Complete this item only if item 2 was completed. Enter the 13-digit Internal Control Number (ICN) as listed on the remittance advice for the original claim being adjusted or voided.</td>
</tr>
<tr>
<td>4.</td>
<td><strong>Billing Provider No.</strong> - Enter the provider’s seven-digit KIDMED Medicaid Provider ID Number.</td>
</tr>
<tr>
<td>5.</td>
<td><strong>Billing Provider Name</strong> - Enter up to 17 letters of the billing provider’s name, starting with the last name first and leaving a space between the last and first names. For example, William Sutherland, M.D., would be entered as &quot;Sutherland (space) Willia.&quot; If the billing provider is a facility or agency (such as a school board, health unit, or clinic) rather than an individual, enter the name of the facility or agency.</td>
</tr>
<tr>
<td>6.</td>
<td><strong>Site Number</strong> - Enter the valid three-digit site code at which the screening was conducted. If the site code has less than three digits, fill the empty spaces to the left with zeros. For example, if the site code is 1, enter “001”. Please communicate these requirements to your VBC (Software Vendor, Billing Agent or Clearing House) for updating billing software in preparation for future Medicaid program requirements.</td>
</tr>
</tbody>
</table>
7. **Attend Provider No.** – **Complete** this item only when the screening is provided by someone other than the billing provider. Enter the seven-digit Medicaid Provider I.D. Number of the provider who conducted the screening.

8. **Attend Provider Name** – **Complete** this item only if you completed item 7, entering up to 17 letters of the attending provider’s name, starting with the last name first and using the same format that you used in item 5 above.

9. **Refer Provider No.** – Complete this item if the recipient is not linked to you but you are screening the recipient under a contractual agreement with the recipient’s CommunityCARE PCP. If you have contracted with a CommunityCARE physician to conduct some of his KIDMED screenings, enter that CommunityCARE PCP’s 7-digit Medicaid provider ID number here.

10. **Medicaid No.** - Enter the recipient’s 13-digit Medicaid number as verified through the REVS, MEVS or e-MEVS eligibility systems. This should also be the 13-digit Medicaid number that appears on the RS-0-07 for that month.

    **NOTE:** The recipient’s 13-digit Medicaid ID number must be used to bill claims. The CCN number from the plastic ID card is **NOT** acceptable.

11. **Patient Last Name** - Enter the first 17 letters of the recipient’s last name, starting at the left of the block, as verified through the REVS, MEVS or e-MEVS eligibility systems. If the name has less than 17 letters, leave the remaining spaces blank.

12. **Patient First Name** - Enter up to 12 letters of the recipient’s first name, starting at the left of the block, as verified through the REVS, MEVS or e-MEVS eligibility systems. If the name has less than 12 letters, leave the remaining spaces blank.

13. **Date of Birth** - Enter the six-digit date of birth for the recipient, using the MMDDYY format so that all spaces. The recipient must be under age 21 on the date of the screening. Do not leave any of the spaces blank.

14. **Sex** - Optional. Enter "M" for male or "F" for female.

15. **Race** - Optional. Enter one of the following codes:

    | Race                             | Code |
    |----------------------------------|------|
    | Unknown                          | 0    |
    | White                            | 1    |
    | Black or African American        | 2    |
    | American Indian or Alaskan Native| 3    |
    | Asian                            | 4    |
    | Hispanic or Latino               | 5    |
    | Native Hawaiian or Other Pacific Islander | 6 |
    | Hispanic or Latino and one or more races | 7 |
    | More than one race (Hispanic or Latino not indicated) | 8 |
    | Unknown                          | 9    |

16. **Medical Record No.** - Optional. This number may be used to cross-reference your patient’s medical record number. Enter up to 18 alphabetical and/or numerical characters assigned by your office as the patient’s medical record number.
17. **Patient Address** - Optional. Enter the recipient's street address or P.O. box number, starting at the left of the block. Leave any unused spaces blank.

18. **City** - Optional. Enter up to nine letters of the city in which the recipient lives, starting at the left of the block. Leave any unused spaces blank.

19. **State** - Optional. Enter the commonly accepted postal abbreviation for the state ("LA" for Louisiana).

20. **Zip Code** - Optional. Enter the zip code for the recipient's address. If you do not know the full nine-digit zip code, enter the first five digits, and leave the remaining four spaces blank.

21. **Patient Home Phone** - Complete this item if the recipient has a home phone number or a contact phone number. Enter the three-digit area code and seven-digit home or contact phone number.

22. **Patient Work Phone** – Complete this item if the recipient has a work phone number. Enter the three-digit area code and seven-digit work phone number.

23. **Parent/Guardian Last Name** - This item must be completed for all recipients living with a parent or guardian. A foster parent or adoptive parent is considered a guardian. Enter up to 17 letters of the parent or guardian's last name, starting at the left of the block. Leave any unused spaces blank. If the recipient is not living with a parent or guardian, leave this item blank and skip to item 25.

24. **Parent/Guardian First Name** - Complete only if item 23 is completed. Enter up to 12 letters of the parent or guardian's first name, starting at the left of the block. Leave any unused spaces blank.

The next part of the claim form documents the “all inclusive” encounter, as well as the screening services performed which are being submitted on the claim. It also documents the encounter rate and screening fees. In addition, it records information about future screenings scheduled.

**NOTE:** You must bill the RHC/FQHC encounter procedure code T1015 with modifier EP on the appropriate claim line.

In addition to the encounter code it is necessary to indicate the specific screening services provided by entering the individual procedure code for each service rendered on appropriate lines.

Providers may bill for four (4) types of screenings:

- **Medical Screening Nurse (99381-99385 and 99391-99395 plus modifier TD)** - This is a medical screening where a registered nurse, nurse practitioner, or certified physician assistant conducted the complete unclothed physical assessment and other required age-appropriate medical screening components, including age-appropriate immunizations.
• **Medical Screening Physician (99381-99385 and 99391-99395 with no modifier)** - This is a medical screening where a licensed physician conducted the **complete unclothed physical exam** and other required age appropriate medical screening components, including age appropriate immunizations.

  Providers must enter one or the other for a single medical screening, but not both. If both a physician and a registered nurse conduct the screening, the procedure code must be entered in the field by the person performing the physical exam or assessment.

• **Vision (99173-EP)** - This is an objective vision screening conducted by a licensed physician, physician assistant, registered nurse, licensed optometrist or a trained office staff under the supervision of one of the above listed licensed professionals. (The interpretive conference with the family or recipient concerning the results of the test must be done by the RN, PA, or physician.) **No claim will be paid on a child under age four.**

• **Hearing (92551)** - This is an objective hearing screening conducted by a licensed physician, physician assistant, registered nurse, licensed and ASHA-certified audiologist, licensed and ASHA-certified speech pathologist, or a trained office staff under the supervision of one of the above listed licensed professionals. (The interpretive conference with the family or recipient concerning the results of the test must be done by the RN, PA, or physician.) **No claim will be paid on a child under age four.**

A vision and/or hearing screening will be approved only if there is an age appropriate medical screening listed for the same date of service.

25. **Date of Screening** - For each applicable line, enter the date of each service (Including the encounter and the screening(s)). For proper reimbursement, you must date each service line for which you are billing.

26. **Billed Charge** – All detail lines may be billed with $0 or a specific dollar amount. The facility encounter rate must be entered on the “Encounter” line.

27. **Next Screening Appointment Date** - If a future screening appointment has been scheduled, enter the six-digit appointment date for each applicable screening line. If no future appointments have been made at the time you submit the claim, leave this item blank and skip to item 29.

28. **Time** - If a future screening appointment has been scheduled, enter the appointment time.

29. **Immunization Status** - This item is required and must be completed for medical screenings only. Providers must certify with each claim whether or not the recipient’s immunizations are complete and current for his or her age. Check “Yes” if immunizations are complete and current for this age recipient. Check “No” if they are not. If you check “Yes,” skip to item 31.

30. **Reason** - If you indicate in item 29 that immunizations are not current and complete, you must check the appropriate box explaining why. Check “A” in the case of medical contraindication. Check “B” if the parents or guardians refuse to permit the
immunization. Check "C" if immunizations are off schedule. For example, check "C" if the recipient received an immunization at this visit but is still due one for his or her age. Do not check "C" if immunizations are off schedule and you did not immunize.

31. **Presence or absence of suspected conditions** - This item is **required** and relates to screening findings. If you find no suspected conditions, check "no" and skip to item 36. If you do find one or more suspected conditions, check "yes" and proceed to item 32.

32. **Nature of suspected conditions and referral strategy** - This item documents the general types of suspected conditions identified during the screening and whether or not:

- the recipient is already receiving care for the identified condition from any provider *(undercare)*;
- a referral was made **in-house** (when a suspected condition is identified during the screening and is diagnosed/treated by the screening provider during the same visit if possible or at a follow-up scheduled appointment to the screening provider for this suspected condition; includes self-referrals); or
- a referral was made **offsite** (to a provider other than the screening provider).

Complete this item by checking the appropriate boxes. For example, if a suspected medical condition was found for which the recipient is already under care by any provider, check the far left box on the first line. If a suspected nutritional condition is found and has been referred in-house/self-referred, check the far right column on the fifth line (E). If a suspected psychological/social condition is found and an outside referral is made, check the middle column on the eighth line (H). Be sure to enter information about all suspected conditions found. Do not make any entries on lines J through L.

Note that each of these items may require that up to eight different kinds of information are entered in the spaces marked A, B, C, D, E, F, H, and I.

33 – 35. **Referrals for Suspected Conditions** - Providers must complete at least one of these items if any suspected conditions are listed in item 32 as being referred in-house or offsite. The number of items you complete will depend on how many conditions were found in the screening and on the referrals made. If more than four suspected conditions are found, providers must fill out at least items 33 and 34. If more than eight suspected conditions are found, Providers must fill out items 33 through 35. Also, one item must be completed for each referral made. If there are more referrals than blocks 33-35 will accommodate, such referrals should be documented in the recipient’s chart and would not be listed on the claim form.

33A. **Suspected Condition** - Referring back to item 32, enter in item 33A up to four letters (A through I), identifying the type of condition(s) identified. Remember, the referral may cover up to four conditions, but only one referral provider. Start at the left of the block, and leave any unused spaces blank. **DO NOT enter an ICD-9 diagnosis code or diagnosis abbreviation (e.g., “URI”) here—that information should be entered in 33E.**

33B.
33C. **Referral Assist Needed** - Check “no,” as this block is no longer used to obtain referral assistance. If assistance is needed from the Louisiana KIDMED office on finding a referral resource, contact the Specialty Care Resource Line (ACS) at (877) 455-9955.

33D. **Appointment Date** - If the recipient is referred either in-house or offsite, enter the date of the appointment. The appointment date should be estimated if it is not known at the time the claim form is completed.

33E. **Appointment Time** - If the recipient is referred either in-house or offsite, enter the time of the appointment. The appointment time should be estimated if it is not known at the time the claim form is completed.

33F. **Reason for Referral** - Enter the reason for the referral, using up to 40 letters and/or the ICD-9 diagnostic codes. In addition, if referral assistance is needed because the referred-to provider requires direct contact with the recipient, indicate so here.

33G. **Referred To** - If an in-house or offsite referral is made, enter up to 20 letters of the name of the specific provider to whom the recipient was referred, starting with the last name first. Be as specific as possible. For example, if the recipient was referred to a large facility, give the name and department onsite. If you self-referred, enter "self" for this item. Skip to item 36 if there is no other referral information to report.

33H. **(Blank)** - Do not enter any data here. This item is reserved for future use by KIDMED.

33I. **Phone No.** - If an in-house or offsite referral has been made, enter the area code and six-digit phone number of the referred-to provider. If a self-referral has been made, leave this item blank.

33J. **Transportation Assistance Needed** - Check “no,” as this block is no longer used to obtain transportation assistance. The recipient (or the recipient's parent) should contact the Medical Dispatch Office in this region. These telephone numbers are listed in the Medicaid Services Chart.

34. Follow the instructions above for item 33.

35. Follow the instructions above for item 33.

36. Providers must read and sign the certification statement at the bottom of the screening claim form in order to be paid. Providers may use a signature stamp if it is initialed by the individual completing the form. A signature certifies that the provider has provided all components of the screening, including appropriate immunizations when the medical screening is billed. The claim form will be returned unprocessed if no signature is present.

Print or type only - Use black ink.

2006 Louisiana Medicaid RHC/FQHC Provider Training 49
Example of a 3 year old child receiving a periodic screening by a physician who is contracted to perform these services for another KIDMED provider.
The KM-3 form can be used to adjust or void incorrect payments made on medical, vision or hearing screenings. Electronic submitters may electronically submit adjustment/void claims. An example of a correctly completed adjustment is shown on the following page.

**ADJUSTMENTS AND voids ON THE KM-3 FORM**

ADJUSTING/VOIDING CLAIMS

The appropriate block for **adjustment** or **void** must be checked at the top of the KM-3. One of the following reason codes must be listed in Block 2 of the KM-3:

<table>
<thead>
<tr>
<th>Code</th>
<th>Explanation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Adjustments</td>
<td></td>
</tr>
<tr>
<td>02</td>
<td>Adjustment due to provider error</td>
</tr>
<tr>
<td>03</td>
<td>Adjustment not due to provider error</td>
</tr>
<tr>
<td>Voids</td>
<td></td>
</tr>
<tr>
<td>10</td>
<td>Void due to claim paid to wrong recipient</td>
</tr>
<tr>
<td>11</td>
<td>Void due to claim paid to wrong provider</td>
</tr>
</tbody>
</table>

The most recently approved control number must be listed in Block 3 of the KM-3 form.

Only **one** (1) control number can be adjusted or voided on each KM-3 form.

Only an **approved claim** can be adjusted or voided.

Block 3 must contain the claim's most recently approved control number. For example:

1. A claim is approved on the remittance advice dated 10/04/2005, ICN 5266156789000.
2. The claim is adjusted on the remittance advice dated 02/07/2006, ICN 6035126742100.
3. If the claim requires further adjustment or needs to be voided, the most recently approved control number, 6035126742100, must be used.

**Adjustments**: To file an adjustment, the provider should complete the adjustment as it appears on the original claim form, changing the item that was in error to show the way the claim should have been billed. The approved adjustment will replace the approved original and will be listed under the "adjustment" column on the remittance advice. The original payment will be taken back on the same remittance advice, in the "previously paid" column.

**voids**: To file a void, the provider must enter all the information from the original claim exactly as it appeared on the original claim. When the void claim is approved, it will be listed under the "void" column of the remittance advice and a corrected claim may be submitted (if applicable).

KM-3 adjustment/voids should be mailed to the following address for processing:

Unisys  
P.O. Box 14849  
Baton Rouge, LA 70898

INTERPERIODIC SCREENINGS

Interperiodic screenings may be performed if medically necessary. Any parent, medical provider or qualified health, developmental, or educational professional that comes into contact with the child outside the formal health care system may request the interperiodic screening.

An interperiodic screening can only be billed if the recipient has been given an age-appropriate medical screening. If their medical screening has not been performed, the provider should bill an age-appropriate medical screening. It is not acceptable to bill for an interperiodic screening if the age-appropriate medical screening had not been performed.

An interperiodic screening by a KIDMED provider must include all of the components required in the periodic screening. This includes a complete unclothed exam or assessment, health and history update, measurements, health education, and other age-appropriate procedures.

An Interperiodic screening may be performed and billed for a required Headstart physical or school sports physical but must include all of the components required in the periodic screening.

Providers should document in the recipient’s records who requested the interperiodic screening, why it was requested, and the outcome of the screening. The concern, symptoms or condition that led to the request must be documented, as well as any diagnosis and/or referral resulting from the screening. Documentation must indicate that all components of the screening were completed.

There is no limit on the number or frequency of medically necessary interperiodic screenings, or on their proximity to other screenings. Therefore, documenting who requested the interperiodic screening, why it was requested, and the outcome of the screening is essential.

Medically necessary laboratory, radiology, or other procedures may also be performed and should be billed separately. A well diagnosis is not required.

These codes are billed hard copy on the CMS-1500 form or electronically using the 837P claim transaction and are listed on the following page. Completed hard copy examples are on pages 55 and 56.

<tr>
<td></td>
<td></td>
<td>others will deny</td>
</tr>
</tbody>
</table>

**REMINDER:** An encounter code of T1015, modifier (if applicable) and supporting detail must be entered on each claim form. If the claims are completed correctly, the first claim that is processed will pay, while the other claim(s) will deny “715” (Duplicate edit). Even though Louisiana Medicaid will pay only one T1015 per day, per recipient, per provider, policy still requires providers to submit claims indicating all services rendered. The information from these denied claims will be used for the collection of data by DHH.
Dental Encounter Code Usage

The all inclusive dental encounter code (D0999) is required for billing RHC/FQHC dental services. When billing for EPSDT Dental, Adult Dental services or EDSPW, this code must appear on the first line of the ‘Record of Services Provided’ section of the claim form. The encounter code and other required information (date of service, procedure code, procedure description, and fee) must also be entered on the 1st line of the claim form. In addition to the encounter code (D0999), it is necessary to indicate on subsequent lines of the claim form the specific dental services provided and other required information for each service rendered.

Claims must pass all processing edits for payment to be approved.

- If the encounter code is missing, the detail line item(s) will deny.
- If the encounter code is denied, the detail line item(s) will deny.
- If the encounter code is present and passes all edits but the detail line item(s) is/are missing, the encounter code will deny.
- If the encounter code is present and passes all edits, it will deny if all detail line items deny.
- If the encounter code and detail line items are present, correct, and pass all edits, the encounter code will pay at the provider’s encounter rate and the detail line item(s) will be approved at zero ($0).

REMINDER: Dental services should not be separated or performed on different dates of service solely to enhance reimbursement. If no restorative or other treatment services are necessary, all sealants must be performed on a single date of service. If restorative or other treatment services are necessary, sealants may be performed on the same day of service as the restorative or other treatment services. Unless contraindicated, all restorative and treatment services per quadrant must be performed on the same date of service. This allows the dentist to complete all restorative treatment in the area of the mouth that is anesthetized. In addition, if there is a simple restoration required in a second quadrant, the simple restorative procedure in the second quadrant must also be performed at the same appointment. If there are circumstances that would not allow restorative treatment in this manner, the contraindication(s) must be documented in the patient’s dental record. A lead apron and thyroid shield must be used when taking any radiographs reimbursed by the Medicaid program. When taking radiographs, the use of a lead apron and thyroid shield is generally accepted standard of care practice, and is part of normal, routine, radiographic hygiene. Should you have any questions regarding this information, you may contact the Dental Medicaid Unit by calling 504-619-8589.

EPSDT DENTAL PROGRAM POLICY REVISIONS AND POLICY AND GENERAL PROGRAM REMINDERS

The following pages contain specific policy revisions, policy reminders, and general program reminders made since the printing of the 2003 Dental Services Manual. With exception to the specific revisions identified below, existing EPSDT Dental Program policy still applies. The following information should be utilized when providing these services to EPSDT recipients as it is current policy. This information has been previously published in other provider resources such as the Medicaid Remittance Advice(s) (RA), Provider Update(s), and/or the Medicaid provider website at [www.lamedicaid.com](http://www.lamedicaid.com). Procedure codes marked with an asterisk (*) in the following policy revisions and in the attached EPSDT Fee Schedule indicate services that require prior authorization. Procedure codes marked with an underscored asterisk (*) in the following policy revisions and in the attached EPSDT Fee Schedule indicate services that require partial prior authorization. Prior authorization requirements for these procedures are based on tooth number or age of recipient. Please take notice that in the future the dental services manual will be revised to reflect this information.

Policy Revisions

For Medicaid purposes, local anesthesia, when applicable, is considered part of any procedure covered by Medicaid.

Diagnostic Services

D0150 Comprehensive Oral Evaluation (New Patient)

Medicaid recognizes this code for a new patient only. A new patient is described as a patient that has not been seen by this provider for at least three years. This procedure code is to be used by a general dentist and/or specialist when evaluating a patient comprehensively for the first time. This would include the examination and recording of the patient’s dental and medical history and a general health assessment. The dental visit that includes the Comprehensive Oral Examination should include (but is not limited to) examination of the oral cavity and all of its structures, using a mirror and explorer, and periodontal probe (if required) and necessary diagnostic or vitality tests (considered part of the examination).

After the comprehensive oral examination, subsequent visits should be scheduled by the dentist to correct the dental defects that were identified. If no subsequent visit is required, the bitewing radiographs, prophylaxis, and fluoride must be provided at the time of the initial comprehensive or periodic oral examination. If subsequent treatment is required, these services must be provided at the first treatment visit if they were not provided at the initial comprehensive or periodic oral examination.

The dental provider should maintain a recall of the patient for future examinations and treatment, (if required).

This procedure should not be billed to Medicaid unless it has been at least three years since the patient was seen by the specified provider or another provider in the same office. An initial comprehensive oral examination (D0150) is limited to once per three years when performed by
the same billing provider or another Medicaid provider located in the same office as the billing provider.

**D0220**  Intraoral – Periapical Radiograph, First Film  
**D0230**  Intraoral – Periapical Radiographs, Each Additional Film

Payment for periapical radiographs (D0220 and D0230) taken in addition to bitewings is limited to a total of five and is payable when their purpose is to obtain information in regard to a specific pathological condition other than caries (ex. periapical pathology or serious doubt regarding the presence of the permanent dentition).

Under the following circumstances periapical radiographs must be taken, or written documentation as to why the radiograph(s) was (were) contraindicated must be in the patient’s record:

- An anterior crown or crown buildup is anticipated; or
- Posterior root canal therapy is anticipated (root canal working and final fill films are included in the fees for endodontic treatment); or
- Anterior *initial* or *retreatment* root canal therapy is anticipated (both maxillary and mandibular anterior films) (root canal working and final fill films are included in the fees for endodontic treatment); or
- Prior to any tooth extraction.

These radiographs are reimbursable for and must be associated with a specific unextracted Tooth Number 1 through 32 or Letter A through T. The appropriate tooth number or letter must be identified in the “Tooth Number(s) or Letter(s)” column of the ADA Claim Form when requesting reimbursement for this procedure.

**D0350**  Oral / Facial Photographic Images

This includes photographic images, including those obtained by intraoral and extraoral cameras, excluding radiographic images. These photographic images should be a part of the patient’s clinical record.

Oral/Facial Photographic Images are required when dental radiographs do not adequately indicate the necessity for the requested treatment in the following situations: Buccal and lingual decalcification prior to crowning; prior to gingivectomy; prior to full mouth debridement; or with the presence of a fistula prior to retreatment of previous root canal therapy, anterior.

The provider should bill Medicaid for oral/facial photographic images ONLY when the photographs are taken under these circumstances. If post payment review discovers the billing of oral/facial images not in conjunction with these specific services, recoupment will be initiated. Oral/facial photographic images must be of good diagnostic quality and must indicate the necessity for the requested treatment.

This procedure is limited to two units per same date of service.

This procedure is reimbursable for oral cavity designators 01, 02, 10, 20, 30 and 40. The appropriate oral cavity designator must be identified in the “Area of Oral Cavity” column of the ADA claim form when requesting prior authorization or reimbursement for this procedure.
Preventive Services

D1110  Prophylaxis – Adult

Adult prophylaxis for children 12 through 20 years of age includes removal of plaque, calculus and stains from the tooth structures in the permanent and transitional dentition. It is intended to control local irritational factors. Qualified dental personnel must perform any prophylaxis.

This procedure is limited to once per year to the same billing provider or another Medicaid provider located in the same office as the billing provider.

If, at the initial visit, it is determined that the Adult Prophylaxis is the appropriate treatment and code D1110 (Adult Prophylaxis) is billed to and reimbursed by Medicaid, then procedure code D4355 (Full Mouth Debridement) will not be reimbursed if it is billed within 12 months subsequent to the date of service of the D1110 (Adult Prophylaxis).

D1120  Prophylaxis – Child

Child prophylaxis for children under 12 years of age includes removal of plaque, calculus and stains from the tooth structures in the primary and transitional dentition. It is intended to control local irritational factors. Qualified dental personnel must perform any prophylaxis.

This procedure is limited to once per year to the same billing provider or another Medicaid provider located in the same office as the billing provider.

If, at the initial visit, it is determined that the Child Prophylaxis is the appropriate treatment and code D1120 (Child Prophylaxis) is billed to and reimbursed by Medicaid, then procedure code D4355 (Full Mouth Debridement) will not be reimbursed if it is billed within 12 months subsequent to the date of service of the D1120 (Child Prophylaxis).

D1203  Topical Fluoride Treatment (prophylaxis not included) – Child

Prescription strength fluoride product designed solely for use in the dental office, delivered to the dentition under the direct supervision of a dental professional. Fluoride must be applied separately from prophylaxis paste.

Topical fluoride treatment should be provided to children less than 12 years of age. This procedure is limited to once per year to the same billing provider or another Medicaid provider located in the same office as the billing provider.

D1204  Topical Fluoride Treatment (prophylaxis not included) – Adult

Prescription strength fluoride product designed solely for use in the dental office, delivered to the dentition under the direct supervision of a dental professional. Fluoride must be applied separately from prophylaxis paste.

Topical fluoride treatment should be provided to children 12 through 15 years of age. This procedure is limited to once per year to the same billing provider or another Medicaid provider located in the same office as the billing provider.
D1351  Sealants – per tooth

A sealant is a mechanically and/or chemically prepared enamel surface sealed to prevent decay. Sealants are limited to six- and twelve-year molars only. They are further limited to one application per tooth per lifetime by the same billing provider or another Medicaid provider located in the same office as the billing provider.

Six-year molar sealants will be paid only for those recipients under 10 years of age. Twelve-year molar sealants will be paid only for those recipients under 16 years of age.

If no restorations or other treatment services are necessary, all sealants must be performed on a single date of service. If restorative or other treatment services are necessary, sealants may be performed on the same date of service as the restorative or other treatment services.

This procedure is reimbursable for tooth numbers 2, 3, 14, 15, 18, 19, 30 and 31 only. The appropriate tooth number must be identified in the “Tooth Number(s) or Letter(s)” column of the ADA Claim Form when requesting reimbursement for this procedure.

In order for a tooth to be reimbursable for sealant services, it cannot have been previously sealed or restored on any surface and is caries-free on the date of service. Sealants are not reimbursable for teeth that have any previous restoration. Dental sealants may only be placed by persons licensed to do so under the Dental Practice Act of the State of Louisiana.

Restorative Services

D2930*  Prefabricated Stainless Steel Crown, Primary Tooth

Stainless steel crowns (D2930) may be placed on primary teeth that exhibit any of the following indications, when failure of other available restorative materials is likely to occur prior to the natural shedding of the tooth:

- extensive caries;
- interproximal decay that extends into the dentin;
- significant observable cervical decalcification;
- significant observable developmental defects, such as hypoplasia and hypocalcification following pulpotomy or pulpectomy;
- restoring a primary tooth that is to be used as an abutment for a space maintainer; or,
- fractured tooth.

Additionally, a stainless steel crown may be authorized to restore an abscessed primary 2nd molar, in conjunction with a pulpectomy prior to the eruption of the permanent 1st molar in order to avoid placement of an indicated distal shoe space maintainer.

Stainless steel crowns are not medically indicated and reimbursement will not be paid in the following circumstances:

- primary teeth with abscess or bone resorption; or
- primary teeth where root resorption equals or exceeds 75% of the root; or
- primary teeth with insufficient tooth structure remaining so as to have a poor prognosis of success, i.e. unrestorable; or
- incipient carious lesions.
Endodontic Services

D3310* Root Canal, Anterior (excluding restoration)
D3320* Root Canal, Bicuspid (excluding restoration)
D3330* Root Canal, Molar (excluding restoration)

Complete root canal therapy (procedures D3310, D3320 and D3330) includes treatment plan, all appointments necessary to complete treatment, clinical procedures, all intra-operative radiographs (which must include a post operative radiograph) and follow-up care.

Prior authorization is required. Requests for prior authorization must be accompanied by a treatment plan supported by sufficient, readable, most-current bitewings and current periapical radiographs, as applicable, to judge the general oral health status of the patient. Specific treatment plans for final restoration of the tooth must be submitted. If the radiographs do not indicate the need for a root canal, the provider must include a written statement as to why the root canal is necessary. Approval of any requested root canal will depend on the prognosis of the affected tooth, the condition of the other teeth in the mouth, and the past history of recipient oral care.

Providers are reminded that if specific treatment needs are identified by the consultants and not noted by the provider or if the radiographs do not adequately indicate the need for the root canal requested, the request for prior authorization will be returned to the provider requesting additional information.

A lifetime maximum of six root canals is allowed in the entire mouth and will be allowed as follows:

- A lifetime maximum of two posterior root canals (D3320 or D3330) is allowed per recipient with a limit of one (1) posterior root canal per covered tooth. Posterior root canals will be approved only when the tooth is in occlusion and will serve to stabilize the arch. Retreatment of previous root canal therapy is not a covered benefit for posterior teeth.
- A lifetime maximum of four anterior root canals (D3310) is allowed per recipient.

In cases where multiple root canals are requested or when teeth are missing or in need of endodontic therapy in the same arch, a partial denture may be indicated. Third molar root canals are not reimbursable.

The date of service on the payment request must reflect the final treatment date. Intra-operative radiograph(s), which must include a post-operative radiograph, are included in the reimbursement for the root canal and must be maintained in the patient treatment record.

D3310* Root Canal, Anterior (excluding restoration)

This procedure is reimbursable for Tooth Numbers 6 through 11 and 22 through 27. The appropriate tooth number or letter must be identified in the “Tooth Number(s) or Letter(s)” column of the ADA Claim Form when requesting prior authorization or reimbursement for this procedure.
D3320* Root Canal, Bicuspid (excluding restoration)

This procedure is reimbursable for Tooth Numbers 4, 5, 12, 13, 20, 21, 28 and 29. The appropriate tooth number or letter must be identified in the “Tooth Number(s) or Letter(s)” column of the ADA Claim Form when requesting prior authorization or reimbursement for this procedure.

D3330* Root Canal, Molar (excluding restoration)

This procedure is reimbursable for Tooth Numbers 2, 3, 14, 15, 18, 19, 30 and 31. The appropriate tooth number or letter must be identified in the “Tooth Number(s) or Letter(s)” column of the ADA Claim Form when requesting prior authorization or reimbursement for this procedure.

D3346* Retreatment of Previous Root Canal Therapy, Anterior

Effective September 1, 2004, procedure code D3346, Retreatment of Previous Root Canal Therapy – Anterior, became payable only to a different provider or provider group than originally performed the initial root canal therapy, and is reimbursable in the amount of $212.00 (with prior authorization) for Medicaid eligible recipients under 21 years of age.

The prior authorization request of procedure code D3346 by the same provider or provider group who performed the initial root canal therapy will be denied with a new denial code (452) which will state: “An anterior root canal retreatment is not payable to the same dentist or dental group who performed the initial root canal. Recipients may seek the service from a different dentist (dental group) who will submit for a new prior authorization.”

Procedure D3346 may include the removal of post, pin(s), old root canal filling material, and the procedures necessary to prepare the canal and place the canal filling. This includes complete root canal therapy. The reimbursement for this procedure includes all appointments necessary to complete treatment and all intra-operative radiographs. The date of service on the payment request must reflect the final treatment date. Intra-operative radiograph(s), which must include a post-operative radiograph, are included in the reimbursement for the retreatment of the root canal and must be maintained in the patient treatment record.

Approval of any requested root canal retreatment will depend on the prognosis of the affected tooth, the condition of the other teeth in the mouth, and the past history of recipient oral care. Requests for prior authorization must be accompanied by a treatment plan supported by sufficient, readable, most-current bitewings and current periapical radiographs, as applicable, to judge the general oral health status of the patient. Specific treatment plans for final restoration of the tooth must also be submitted.

If the radiographs do not indicate the need for a root canal, the provider must include a written statement as to why the root canal retreatment is necessary. If a fistula is present, a clear oral/facial image (photograph) is required and will be reimbursable in situations where dental radiographs do not adequately indicate the necessity for the requested retreatment of previous root canal therapy.
Providers are reminded that if specific treatment needs are identified by the consultants and not noted by the provider or if the radiographs do not adequately indicate the need for the retreatment of a previous root canal, the request for prior authorization will be returned to the provider requesting additional information.

If the Dental Medicaid Unit consultant determines that Medicaid has reimbursed the initial root canal provider for an incomplete root canal, the matter will be referred to the Dental SURS Unit for further review and possible recoupment of the reimbursement for the initial root canal.

A lifetime maximum of four retreatment of root canal, anterior (D3346) are allowed per recipient with a limit of one (1) retreatment per covered tooth.

This procedure is reimbursable for Tooth Numbers 6 through 11 and 22 through 27. The appropriate tooth number or letter must be identified in the “Tooth Number(s) or Letter(s)” column of the ADA Claim Form when requesting prior authorization or reimbursement for this procedure.

Periodontal Services

D4210* Gingivectomy or Gingivoplasty – Four or More Contiguous Teeth or Bounded Teeth Spaces per Quadrant

This procedure involves the excision of the soft tissue wall of the periodontal pocket by either an external or an internal bevel. It is performed to eliminate suprabony pockets after adequate initial preparation, to allow access for restorative dentistry in the presence of suprabony pockets, and to restore normal architecture when gingival enlargements or asymmetrical or unesthetic topography is evident with normal bony configuration.

This procedure requires prior authorization. A gingivectomy may be approved by Medicaid only when the tissue growth interferes with mastication as sometimes occurs from Dilantin® therapy. Explanations or reasons for treatment should be entered in the “Remarks” section of the claim form and a photograph of the affected area(s) must be included with the request for authorization.

This procedure is reimbursable for Oral Cavity Designators 10, 20, 30 and 40. The appropriate oral cavity designator must be identified in the “Area of Oral Cavity” column of the ADA Claim Form when requesting prior authorization or reimbursement for this procedure.

D4341* Periodontal Scaling and Root Planing – Four or More Teeth per Quadrant

Radiographic evidence of large amounts of subgingival calculus, deep pocket formation, and bone loss must be submitted. This procedure involves instrumentation of the crown and root surfaces of the teeth to remove plaque and calculus from these surfaces as well as the removal of rough, calculus-contaminated cementum and dentin. It is therapeutic—not prophylactic—in nature, usually requiring local anesthesia.

This procedure requires prior authorization. Radiographic evidence of bone loss indicating a true periodontal disease state must be supplied with bitewings and/or posterior/anterior periapicals. This service is not approved for recipients who have not progressed beyond the mixed dentition stage of development.
Only two units of periodontal scaling and root planing may be reimbursed per day. For patients requiring hospitalization for dental treatment, a maximum of four units of procedure code D4341 may be paid on the same date of service if prior authorized. The claim form used to request prior authorization or reimbursement must identify the “Place of Treatment” (Block 38) and “Treatment Location” (Block 56) if the service was performed at a location other than the primary office.

This procedure is reimbursable for Oral Cavity Designators 10, 20, 30 and 40. The appropriate oral cavity designator must be identified in the “Area of Oral Cavity” column of the ADA Claim Form when requesting prior authorization or reimbursement for this procedure.

D4355* Full Mouth Debridement to Enable Comprehensive Evaluation and Diagnosis

This procedure involves the gross removal of plaque and calculus that interferes with the ability of the dentist to perform a comprehensive oral evaluation. This preliminary procedure does not preclude the need for additional procedures.

This service must be performed at the initial visit if this service is indicated.

No other dental services except examination, radiographs or oral/facial photographic images are reimbursable on the same date of service as full mouth debridement. When an exam is performed on the same date of service as a full mouth debridement, the exam must be performed after completion of the full mouth debridement.

Only one full mouth debridement is allowed in a 12 month period. This procedure will not be reimbursed if payment has previously been made for an Adult Prophylaxis (D1110) or Child Prophylaxis (D1120) to the same billing provider or another Medicaid provider in the same office as the billing provider within a 12 month period.

This procedure requires prior or post authorization. When requesting prior or post authorization, bitewing radiographs that supply evidence of significant posterior supra and/or subgingival calculus in at least two quadrants must be submitted. In the occasional instance where the bitewing radiographs do not supply evidence of significant calculus in at least two quadrants, Oral/Facial Photographic Images that provide evidence of significant plaque and calculus are required.

Prior to requesting authorization for a D4355 (Full Mouth Debridement), providers must ask their new patients when they last received a Medicaid covered prophylaxis (D1110 or D1120) and record that information in the patient's treatment record. For the established patient, the provider must check the office treatment record to ensure that it has been over 12 months since a D1110 or D1120 was reimbursed by Medicaid for this recipient. If it is determined that it has been less than 12 months, the recipient must reschedule for a later date which exceeds the 12 month period.

If the prior or post authorization request for D4355 is denied and it has been determined that Medicaid has not reimbursed a D1110 (Adult Prophylaxis) or D1120 (Child Prophylaxis) within the preceding 12 months for this recipient, the provider may render and bill Medicaid for a D1110 (Adult Prophy) or D1120 (Child Prophylaxis), whichever is applicable based on the patient’s age.
Removable Prosthodontic Services

D5211* Maxillary Partial Denture – Resin Base (including any conventional clasps, rests and teeth)
D5212* Mandibular Partial Denture – Resin Base (including any conventional clasps, rests and teeth)
D5213* Maxillary Cast Partial Denture – Cast Metal Framework with Resin Denture Bases (including any conventional clasps, rests and teeth)
D5214* Mandibular Cast Partial Denture – Cast Metal Framework with Resin Denture Bases (including any conventional clasps, rests and teeth)
D5820* Interim Partial Denture (Maxillary) – Includes any necessary clasps and rests
D5821* Interim Partial Denture (Mandibular – Includes any necessary clasps and rests

Only one prosthesis (excluding interim partial dentures) per recipient per arch is allowed in a five-year period. The time period for eligibility for a new prosthesis for the same arch begins on the delivery date of original prosthesis. An interim partial denture cannot be authorized to replace a partial denture that was previously paid by Medicaid of Louisiana. Once the recipient becomes 21 years of age, the rules of the Adult Denture Program apply.

To receive consideration for approval for cast partial dentures, providers must submit periapical radiographs of the abutment teeth and bitewings with the treatment plan.

A description of the arch receiving the prosthesis must be provided by indicating which teeth are to be replaced and which are to be retained. The provider should use the following symbols in Block 34 of the ADA claim form to indicate tooth status. “X” will be used to identify missing teeth and “/” will be used to identify teeth to be extracted.

The design of the prosthesis and materials used should be as simple as possible and consistent with basic principles of prosthodontics.

Only permanent teeth are eligible for replacement by an interim partial denture or a partial denture.

Opposing partial dentures are available if each arch independently fulfills the requirements.

Partial dentures that replace only posterior teeth must occlude against multiple posterior teeth in the opposing arch, and must serve to increase masticatory function and stability of the entire mouth.

The overall condition of the mouth is an important consideration in whether or not a partial denture is authorized. For partial dentures, abutment teeth must be caries free or have been completely restored and have sound periodontal support. On those recipients requiring extensive restorations, periodontal services, extractions, etc., post-treatment radiographs may be requested prior to approval of a partial denture.

Medicaid may provide an acrylic interim partial denture (D5820/D5821) in the mixed dentition or beyond the mixed dentition stages in the following cases:

- Missing one or two maxillary permanent anterior tooth/teeth, or
- Missing two mandibular permanent anterior teeth, or
• Missing three or more permanent teeth in the same arch (of which at least one must be anterior)

Medicaid may provide a partial denture in cases where the recipient has matured beyond the mixed dentition stage in the following cases:

• Missing three or more maxillary anterior teeth, or
• Missing two or more mandibular anterior teeth, or
• Missing at least 3 adjacent posterior permanent teeth in a single quadrant when the prosthesis would restore masticatory function (third molars not considered for replacement), or
• Missing at least 2 adjacent posterior permanent teeth in both quadrants of the same arch when the prosthesis would restore masticatory function in at least one quadrant (third molars not considered for replacement), or
• Missing a combination of two or more anterior and at least one posterior tooth (excluding wisdom teeth and the second molar) in the same arch.

Cast partials (D5213 and D5214) will be considered only for those recipients who are 18 years of age or older. In addition, the coronal and periodontal integrity of the abutment teeth and the overall condition of the remaining teeth will dictate whether a cast or acrylic partial is approved. Radiographs should verify that all pre-prosthetic services have been successfully completed. On those recipients requiring extensive restorations, periodontal services, extractions, etc., post treatment radiographs may be requested prior to approval of a cast partial denture.

D5510 Repair broken complete denture base
D5520 Replace missing or broken tooth – complete denture – per tooth
D5610 Repair resin partial denture base
D5630 Repair or replace broken clasp
D5640 Replace missing or broken tooth – partial denture – per tooth
D5650 Add tooth to existing partial denture – per tooth
D5660 Add clasp to existing partial denture

Reimbursement for repairs of complete and partial dentures (excluding interim partial dentures) are allowed only if more than one year has elapsed since denture insertion by the same billing provider or another Medicaid provider located in the same office as the billing provider and the repair makes the denture fully serviceable and eliminates the need for a new denture.

If the same provider/provider group (or another Medicaid-enrolled provider located in the same office as the requesting provider) requests a complete or partial denture excluding interim partial dentures) within the first year after a repair is paid, the repair fee for that arch will be deducted from the new prosthesis fee. A repair is allowed in conjunction with a reline on the same recipient as long as the repair makes the denture fully serviceable.

A total of $125.00 in base repair, clasp addition or replacement, or tooth addition or replacement services per arch for the same recipient is allowed within a single one-year period for a single billing provider.

Procedure Codes D5510 and D5610 are reimbursable for Oral Cavity Designators 01 and 02. The appropriate oral cavity designator must be identified in the “Area of Oral Cavity” column of the ADA Claim Form when requesting reimbursement for these procedures.
The request for payment for procedure codes D5510 and D5610 must include the location and description of the fracture in the “Remarks” section of the claim form.

The fee assigned for the first tooth billed using the codes D5520 or D5640 or D5650 will reflect the base price for the first denture tooth. When multiple teeth are replaced or added to the same prosthesis on the same date of service, the same procedure code is to be used for each tooth. However, the fee assigned for the additional teeth will reflect the additional allowance per tooth as indicated in Appendix H.

Procedures D5520, D5640 and D5650 are reimbursable for Tooth Numbers 2 through 15 and 18 through 31. The appropriate tooth number must be identified in the “Tooth Number(s) or Letter(s)” column of the ADA Claim Form when requesting reimbursement for this procedure.

Procedure Codes D5630 and D5660 are reimbursable for Oral Cavity Designators 10, 20, 30 and 40. The appropriate oral cavity designator must be identified in the “Area of Oral Cavity” column of the ADA Claim Form when requesting reimbursement for these procedures. When requesting payment for these procedures, the side of the prosthesis involved (right or left) must be indicated in the “Remarks” section of the claim form.

Minimal procedural requirements for repair services include the following:

- The prosthesis should be processed under heat and pressure in a commercial or dental office laboratory using ADA certified materials. The prosthetic prescription and laboratory bill (or a copy) must be maintained in the patient’s treatment record.

- Repairs must make the prosthesis fully serviceable, retaining proper vertical dimension and centric relation of occlusion.

- The prosthesis must be finished in a workmanlike manner; be clean; exhibit a high gloss; and be free of voids, scratches, abrasions, and rough spots.

- The treatment record must specifically identify the location and extent of the breakage.

Failure to provide adequate documentation of services billed as repaired when requested by DHH or its authorized representative will result in recoupment of monies paid by the program for the repair.
Oral and Maxillofacial Surgery Services

D7140  Extraction, Erupted Tooth or Exposed Root (elevation and/or forceps removal)

This procedure includes routine removal of tooth structure, minor smoothing of socket bone and closure, as necessary.

D7210*  Surgical Removal of Erupted Tooth Requiring Elevation of Mucoperiosteal Flap and Removal of Bone and/or Section of Tooth

This procedure includes the cutting of gingiva and bone, removal of tooth structure, minor smoothing of socket bone, and closure.

This procedure requires prior authorization. All requests for prior authorization of the surgical removal of erupted tooth require the submission of radiographs.

For pre-surgical prior authorization, the radiographic evidence must clearly demonstrate the need for the cutting of gingiva and removal of bone and/or sectioning of tooth structure.

If the radiographic evidence does not clearly demonstrate the need for the cutting of gingiva and removal of bone and/or sectioning of tooth structure, the prior authorization request will be denied. After the tooth is removed, the provider may bill Medicaid for a D7140 or resubmit the prior authorization request for reconsideration (indicating the date of service) with a copy of the post surgical operative report and/or treatment record describing the surgical complications and the radiographs.

In the event a planned simple extraction becomes a surgical procedure, the provider may submit a “post” authorization request (indicating the date of service) with a copy of the post surgical operative report and/or treatment record describing the surgical complications along with the radiographs which will be used by the dental consultants in the authorization determination.

D7280*  Surgical Access of an Unerupted Tooth

This procedure includes an incision, the reflection of tissue, and the removal of bone as necessary to expose the crown of an impacted tooth not intended to be extracted.

This procedure no longer includes the placement of orthodontic attachment. Refer to procedure code D7283 below for information related to the orthodontic attachment.

This procedure requires prior authorization.

Procedure Code D7280 is reimbursable for Tooth Numbers 2 through 15 and 18 through 31. The appropriate tooth number must be identified in the “Tooth Number(s) or Letter(s)” column of the ADA Claim Form when requesting prior authorization or reimbursement for this procedure.
D7283*  Placement of Device to Facilitate Eruption of Impacted Tooth

This procedure involves the placement of an orthodontic bracket, band or other device on an unerupted tooth, after its exposure, to aid in its eruption. Report the surgical exposure separately using D7280.

This procedure is only reimbursable in conjunction with a Medicaid-approved comprehensive orthodontic treatment plan.

This procedure requires prior authorization.

Procedure Code D7283 is reimbursable for Tooth Numbers 2 through 15 and 18 through 31. The appropriate tooth number must be identified in the “Tooth Number(s) or Letter(s)” column of the ADA Claim Form when requesting prior authorization or reimbursement for this procedure.

D7286*  Biopsy of Oral Tissue – Soft

This procedure is for the surgical removal of an architecturally intact specimen only, and is not used at the same time as codes for apicoectomy/periapical curettage.

This procedure requires post authorization. A copy of the pathology report should be submitted to the Dental Medicaid Unit when requesting post authorization.

This procedure is reimbursable for Oral Cavity Designators 01, 02, 10, 20, 30 and 40. The appropriate oral cavity designator must be identified in the “Area of Oral Cavity” column of the ADA Claim Form when requesting prior authorization or reimbursement for these procedures.

Policy Reminders

Radiographs (X-rays)

In order for the Dental Medicaid Unit to be able to make necessary authorization determination, radiographs and/or oral/facial images must be of good diagnostic quality. Those requests for prior authorization that contain radiographs and oral/facial images that are not of good diagnostic quality will be rejected.

A lead apron and thyroid shield must be used when taking any radiographs reimbursed by the Medicaid program. When taking radiographs, the use of a lead apron and thyroid shield is generally accepted standard of care practice, and is part of normal, routine, radiographic hygiene.

Refer to the EPSDT Program policy revision section of this manual as well as the 2003 Dental Services Manual for additional policy information related to radiographs.

Restorative and Treatment Services

Unless contraindicated, all restorative and treatment services per quadrant must be performed on the same date of service. This allows the dentist to complete all restorative treatment in the area of the mouth that is anesthetized. In addition, if there is a simple restoration required in a
second quadrant, the simple restorative procedure in the second quadrant must also be performed at the same appointment. If there are circumstances that would not allow restorative treatment in this manner, the contraindication(s) must be documented in the patient's dental record.

Refer to the EPSDT Program policy revision section of this manual as well as the 2003 Dental Services Manual for additional policy information related to restorative and treatment services.

**Crown Services**

Crown services require radiographs, photographs, other imaging media or other documentation which depict the pretreatment condition. The documentation that supports the need for crown services must be available for review by the Bureau or its designee upon request. Refer to the EPSDT Program policy revision section of this manual as well as the 2003 Dental Services Manual for additional policy information related to crowns.

**Extraction of Primary Teeth in the Advanced Stages of Natural Exfoliation**

Post-payment reviews have shown that a number of providers are billing for the extraction of primary teeth in the advanced stages of natural exfoliation, with little or no therapeutic indication or benefit. Primary teeth that are being lost naturally should not be billed to Medicaid as an extraction. If a practice is noted during post-payment review of billing for the extraction of primary teeth that are shown radiographically to be in the advanced stages of root resorption (more than ¾ of the root resorbed), i.e., exfoliating naturally, there will be a recoupment of money paid for all such therapeutically unnecessary extractions.

If the extraction is warranted due to therapeutically indicated circumstances such as prolonged retention, blocking out of erupting permanent teeth, severe decay, abscess with bone loss, or other specifically identifiable indications, a preoperative periapical radiograph should be taken as a diagnostic aid and as means of documentation. This radiograph must be maintained in the recipient’s record, and must be furnished to post-payment review if requested. Written documentation of the reason for the extraction must be noted in the dental treatment record.

Refer to the EPSDT Program policy revision section of this manual as well as the 2003 Dental Services Manual for additional policy information related to extractions.

**General Program Reminders**

- **Dental services should not be separated or performed on different dates of service solely to enhance reimbursement.**

- The date of service on a dental claim must reflect the actual date that the service was completed/delivered (please refer to page 16-11 of the Medicaid Dental Services Provider Manual). The Dental Surveillance and Utilization Department continues to identify dental providers who have billed and been paid for root canal therapy prior to the completion of the service. Dental claims shall not be filed prior to the completion/delivery of the service. This includes, but is not limited to, root canal therapy, a complete or partial denture and space maintainers. At a minimum, Medicaid will recover the payment for all claims billed when the date of service on the claim does not reflect the date the service was completed.
• A Medicaid dental provider cannot limit his practice to diagnostic and preventive services only. A dental provider who only offers diagnostic and preventive services in his practice does not meet the necessary criteria for participation in the Medicaid EPSDT Dental, Adult Denture or Expanded Dental Services for Pregnant Women (EDSPW) Programs. Medicaid covered dental services requiring treatment by a specialist may be referred to another provider who can address the specific treatment; however, the recipient or guardian, as appropriate, must be advised of the referral. The reimbursement made for the examination, prophylaxis, bitewing radiographs and/or fluoride to providers who routinely refer recipients for restorative, surgical and other treatment services is subject to recoupment.

• Providers must ask their new patients when they last received a Medicaid covered oral examination, prophylaxis, bitewing radiographs and fluoride and record that information in the patient’s treatment record. For the established patient, the provider must check the office treatment record to ensure that it has been over one year since the patient received these services. If it is determined that it has been less than one year, the recipient must schedule for a later date.
ADULT DENTURE PROGRAM POLICY AND GENERAL PROGRAM REMINDERS

The following information contains policy and general program reminders. It is intended to be used in conjunction with the 2003 Dental Services Manual, Adult Denture Program section. This information has been previously published in other provider resources such as the Medicaid Remittance Advice(s) (RA), Provider Update(s), and/or the Medicaid provider website at www.lamedicaid.com. Please take notice that in the future the dental services manual will be revised to reflect this information.

Policy Reminders

For Medicaid purposes, local anesthesia, when applicable, is considered part of any procedure covered by Medicaid.

Radiographs (X-Rays)

In order for the Dental Medicaid Unit to be able to make necessary authorization determination, radiographs must be of good diagnostic quality. Prior authorization requests that contain radiographs that are not of good diagnostic quality will be rejected.

A lead apron and thyroid shield must be used when taking any radiographs reimbursed by the Medicaid program. When taking radiographs, the use of a lead apron and thyroid shield is generally accepted standard of care practice, and is part of normal, routine, radiographic hygiene.

Refer to the 2003 Dental Services Manual for additional policy information related to radiographs for the Adult Denture Program.

General Program Reminders

- **Dental services should not be separated or performed on different dates of service solely to enhance reimbursement.**

- The date of service on a dental claim must reflect the actual date that the service was completed/delivered. Dental claims shall not be filed prior to the completion/delivery of the service. At a minimum, Medicaid will recover the payment for all claims billed when the date of service on the claim does not reflect the date the service was completed.

- A Medicaid dental provider cannot limit his practice to diagnostic and preventive services only. A dental provider who only offers diagnostic and preventive services in his practice does not meet the necessary criteria for participation in the Medicaid EPSDT Dental, Adult Denture or Expanded Dental Services for Pregnant Women (EDSPW) Programs. Medicaid covered dental services requiring treatment by a specialist may be referred to another provider who can address the specific treatment; however, the recipient or guardian, as appropriate, must be advised of the referral. The reimbursement made for the examination, prophylaxis, bitewing radiographs and/or fluoride to providers who routinely refer recipients for restorative, surgical and other treatment services is subject to recoupment.
The following pages contain policy for the EDSPW Program. This information provides all EDSPW Program policy and includes policy revisions made since the implementation of the EDSPW Program. Several policy reminders are also included. This information has been previously published in other provider resources such as the Medicaid Remittance Advice(s) (RA), Provider Update(s), and/or the Medicaid provider website at www.lamedicaid.com. Procedure Codes marked with an asterisk (*) in the following policy revisions and in the attached EDSPW Program Fee Schedule indicate services that require prior authorization. Please take notice that in the future the dental services manual will be revised to reflect this information.

Program Information

Effective November 1, 2003, Medicaid implemented a new adult dental program for pregnant women, which is entitled the "Expanded Dental Services for Pregnant Women Program". This program provides coverage for certain designated dental services for Medicaid eligible pregnant women ages 21 through 59 years in order to address their periodontal needs during pregnancy. The services covered in this program are identified in the fee schedule which is located in Appendix J of this document.

It is the responsibility of the provider to verify recipient eligibility using the Recipient Eligibility Verification System (REVS) or Medicaid Eligibility Verification System (MEVS) or Electronic Medicaid Eligibility Verification System (e-MEVS) which is available on the web at www.lamedicaid.com. The provider should keep hardcopy proof of eligibility from MEVS/e-MEVS.

Unisys provider relations staff can answer questions regarding claims processing. You may contact Unisys Provider Relations by calling (800) 473-2783 or (225) 924-5040. LSU Dental School, Dental Medicaid Unit can answer questions related to the Medicaid dental programs. You may contact the LSU Dental School, Dental Medicaid Unit by calling (225) 216-6470.

Eligibility Criteria

A Medicaid recipient is eligible for the Expanded Dental Services for Pregnant Women Program if she is 1) pregnant and has the original BHSF Form 9-M (Referral for Pregnancy Related Dental Services) which was completed and signed by the medical professional providing her pregnancy care; 2) Medicaid eligible; and 3) ages 21 through 59 years.

EDSPW Program services are available for recipients whose Medicaid coverage includes the full range of Medicaid benefits. Dental services are not covered for pregnant women certified in the following Medicaid categories:

Medically Needy - Pregnant women, who are certified for Medicaid in the "Medically Needy Program" (MNP), are not eligible for dental services. If the recipient is certified for Medicaid in the Medically Needy Program, the REVS/MEVS/e-MEVS message will specifically indicate that
she is not eligible for dental services or dentures. If you receive this message and the recipient appears to meet the other program criteria, you should refer the pregnant woman to her local parish Medicaid office for a re-determination of her Medicaid eligibility.

Qualified Medicare Beneficiary Only - Pregnant women, who are certified as “Qualified Medicare Beneficiary Only” (QMB Only), are not eligible for dental services. If the recipient is certified for Medicaid as a QMB Only recipient, the REV$MEVS/e-MEVS message will indicate that she is only eligible for Medicaid payment of deductibles and co-insurance for services covered by Medicare.

Eligibility Period

The recipient must be pregnant on each date of service in order to be eligible for services covered in this program. Eligibility for the Expanded Dental Services for Pregnant Women Program ends at the conclusion of the pregnancy.

Referral Requirement – BHSF Form 9-M (Mandatory)

The BHSF Form 9-M is the referral form that is used to verify pregnancy for the Expanded Dental Services for Pregnant Women (EDSPW) Program. This referral form also provides additional important information.

The recipient is required to obtain the original completed BHSF Form 9-M from the medical professional providing her pregnancy care and give it to the dentist prior to receiving dental services. Prior to rendering any services, the dental provider must have the original BHSF Form 9-M with the signature of the medical professional providing the pregnancy care. Facsimile copies are not acceptable. The original form must be kept in the recipient’s dental record. A copy of this form must be submitted to the Dental Medicaid Unit when requesting prior authorization for any of the EDSPW Program services that require prior authorization.

The BHSF Form 9-M was revised with an issue date of 12/03. Effective April 1, 2004, the BHSF Form 9-M with the issue date of 12/03 became the only version excepted by Medicaid. A copy of the revised BHSF Form 9-M (Referral for Pregnancy Related Dental Services) with an issue date of 12/03 can be found in Appendix K. Blank forms may be photocopied for distribution as needed. Additional copies of this form may also be obtained from the LA Medicaid website (http://www.lamedicaid.com) or from Unisys Provider Relations by calling (800) 473-2783 or (225) 924-5040.

Prior Authorization

Services that require prior authorization are identified with an asterisk (*) in the EDSPW Program fee schedule located in Appendix J of this document. Medicaid requires the use of the American Dental Association (ADA) Claim Form for all dental prior authorization requests. The 2002 American Dental Association Claim Form and the 2002, 2004 American Dental Association Claim Form are the only hardcopy dental claim forms accepted for Medicaid prior authorization of services covered in the Medicaid EDSPW Program regardless of the date of
service. Dental prior authorization requests received by LSU Dental School, Dental Medicaid Unit on the older versions of the ADA Claim Form will be returned to the provider.

When requesting prior authorization, two identical copies of the ADA form must be submitted with the appropriate mounted bitewing or periapical radiographs that support the clinical findings and justify the treatment requested.

Radiographs, unless contraindicated, should be attached to each request for authorization. If radiographs are contraindicated, the reason must be stated in the “Remarks” section of the claim forms and documented in the treatment record as well. Prior authorization requests that do not have adequate information or radiographs necessary to make the authorization determination will be returned.

When requesting prior authorization, the provider should list all services that are anticipated, even those not requiring authorization, so that the general dental health and condition of the recipient can be fully understood. Explanations or reasons for treatment, if not obvious from the radiographs, should also be entered in the “Remarks” section of the claim form. If the information required in the remarks section of the claim exceeds the space available, the provider should include a cover sheet which must include the date of the request, the recipient’s name, the recipient’s Medicaid ID#, the provider’s name and the provider’s Medicaid ID# and should outline the information required to document the requested service(s).

It is the responsibility of the provider to document the need for treatment and the actual treatments performed in the patient record and provide that information to the Dental Medicaid Unit. Additionally, it is the provider’s responsibility to utilize the appropriate procedure code in a request for prior authorization.

Please remember to group services requiring authorization on a single claim form so that only one Prior Authorization Number is required to be issued per recipient. However, if a recipient requires services in two separate programs (e.g. Expanded Dental Services for Pregnant Women Program and the Adult Denture Program), a separate prior authorization request should be submitted for each program. If two separate requests are being submitted for a single individual, please note this in the “remarks” section of the dental claim form so that the dental consultants can review the entire treatment plan.

A copy of the BHSF Form 9-M must accompany each individual prior authorization request when requesting services covered under the Expanded Dental Services for Pregnant Women Program.

To ensure proper handling of the requests for prior authorization for services covered in the EDSPW Program, DHH asks that the BHSF Form 9-M be placed on top of the ADA claim form and other documents (i.e., radiographs) for each prior authorization request that is sent to the LSU Dental School, Dental Medicaid Unit.

All dental prior authorization requests should be sent to the following:

LSU Dental School
Dental Medicaid Unit
P.O. Box 80159
Baton Rouge, LA 70898-0159
If you have questions regarding dental prior authorization, you may contact the LSU Dental School, Dental Medicaid Unit by calling 225-216-6470.

Once prior authorization has been approved for a service, a copy of the claim form and the radiographs will be returned to the provider and the other copy will be retained by the Dental Medicaid Unit. A prior authorization letter will be sent to the provider and to the recipient detailing those services that have been prior authorized. The letter will also include a 9-digit prior authorization number used when the provider submits a claim for payment of those prior authorized services.

Failure to receive the returned claim form and radiographs and/or a Prior Authorization Letter within 25 days from the date of submission should alert the provider that the documents might have been misdirected. In these instances, please contact the dental consultants at the Dental Medicaid Unit. If the claim form is returned, but the radiographs that were included with the claim are not returned, the provider must immediately contact the dental consultants at the Dental Medicaid Unit. Please document the contacts with the dental consultants in the patient’s record. In general, EDSPW Program prior authorization decisions are rendered within two weeks from the date of receipt by the Dental Medicaid Unit.

To amend or request reconsideration of a prior authorization, the provider should submit a copy of the Prior Authorization Letter and copies of the original claim form and supporting documentation with a statement of what is requested. The services indicated on a single Prior Authorization Letter should match the services originally requested on a single page of the claim submitted for prior authorization. Requests for additional treatment must be submitted as a new claim for which a new prior authorization will be issued. For administrative changes only, e.g. provider number or recipient number corrections, date of service changes, etc., a copy of the Prior Authorization Letter with the requested changes noted may be sufficient.

If the provider proceeds with treatment before receiving prior authorization, the provider should consider that the request may not be authorized for services rendered. However, providers may render and bill for services that do not require prior authorization while they are awaiting prior authorization of those services that do.

Prior authorization of a requested service does not constitute approval of the fee indicated by the provider nor is it a guarantee of recipient Medicaid eligibility. When a recipient loses Medicaid eligibility, any authorization (approval) for services becomes void.

Notes: If a service is prior authorized and the pregnancy ends prior to receiving the service, the recipient is no longer eligible for the service.

It is the dental provider’s responsibility to obtain a dental prior authorization on behalf of the patient. If a dental provider has not received a dental prior authorization decision (or other correspondence from the Dental Medicaid Unit) within 25 days from the date of submission, it is the provider’s responsibility to contact the Dental Medicaid Unit at 225-216-6470. The provider should NEVER instruct the patient to contact Medicaid regarding the prior authorization request.

Refer to page 48 of this document for a prior authorization check list. This information is being provided as a tool to assist providers in avoiding common errors when requesting dental prior authorization.
Program Guidelines

Providers enrolled as a group or individual providers who are not linked to a group but are located in the same office as another provider are responsible for checking office records to assure that Medicaid established guidelines, limitations and/or policies are not exceeded.

Providers are not allowed to provide services to a Medicaid recipient beyond the intent of Medicaid guidelines, limitations and/or policies for the purpose of maximizing payments or circumventing Medicaid guidelines, limitations and/or policies. If this practice is detected, Medicaid will apply sanctions.

A Medicaid dental provider cannot limit his practice to diagnostic and preventive services only. A dental provider who only offers diagnostic and preventive services in his practice does not meet the necessary criteria for participation in the Medicaid EPSDT Dental, Adult Denture or Expanded Dental Services for Pregnant Women (EDSPW) Programs. Medicaid covered dental services requiring treatment by a specialist may be referred to another provider who can address the specific treatment; however, the recipient or guardian, as appropriate, must be advised of the referral. The reimbursement made for the examination, prophylaxis, bitewing radiographs and/or fluoride to providers who routinely refer recipients for restorative, surgical and other treatment services is subject to recoupment.

General Coding Information

A complete list of Medicaid covered services and procedure codes for the Expanded Dental Services for Pregnant Women Program, can be found in the fee schedule in Appendix J of this document. These codes conform to the American Dental Association (ADA) Code on Dental Procedures and Nomenclature. Fees for all procedures include local anesthesia and routine postoperative care. Providers cannot provide a service that has a defined CDT procedure code and bill a different service that has a defined CDT procedure code in order to receive reimbursement by Medicaid.

Tooth Numbering System and Oral Cavity Designators

Please refer to sections 16.2.4 of the 2003 Dental Services Manual for information regarding the tooth numbering system and oral cavity designator. Services requiring specific tooth numbers/letters and/or oral cavity designators are identified in the fee schedule.

Claims Filing

The 2002 American Dental Association Claim Form and the 2002, 2004 American Dental Association Claim Form are the only hardcopy dental claim forms accepted for the billing of services covered in the Medicaid EDSPW Program regardless of the date of service. Dental claims for payment received by Unisys on the older versions of the ADA Claim Form will be returned to the provider. Completed claims for payment should be mailed to:
Please refer to the ADA Claim Form Information and Instructions beginning on page 50 of this document and Chapter 7 (E) of the Dental Services Manual for other information related to claims filing.

Covered Services

The program is designed to address the periodontal needs of the recipients. Covered services are divided into five categories: Diagnostic Services; Preventive Services; Restorative Services; Periodontal Services; and Oral and Maxillofacial Surgery Services. **Services requiring prior authorization are identified by an asterisk (†). Dental services should not be separated or performed on different dates of service solely to enhance reimbursement.** The guidelines and policies related to each service should be reviewed carefully prior to rendering the service.

For Medicaid purposes, local anesthesia, when applicable, is considered part of any procedure covered by Medicaid.

Dental Visit (Initial)

The initial dental visit must include the following diagnostic and preventive services:

1. Comprehensive Periodontal Examination; and
2. Bitewing radiographs (unless contraindicated); and
3. Prophylaxis, including oral hygiene instructions (unless a Full Mouth Debridement [D4355] is required)

These services are limited to one each per pregnancy.

Providers must ask new patients when they last received a Medicaid covered comprehensive periodontal examination, bitewing radiographs, and/or prophylaxis and record that information in the patient’s treatment record. For the established patient, the provider must check the office treatment record to ensure that these services have not been rendered during the current pregnancy.

If it is determined that the recipient has already received a comprehensive periodontal examination, bitewing radiographs and/or prophylaxis during the current pregnancy, the recipient is ineligible for these services. If the recipient seeks additional eligible services from a second dental provider, the second dental provider should request a copy of the patient’s treatment record and/or radiographs from the previous provider.
Diagnostic Services

Diagnostic services include a comprehensive periodontal examination and radiographs.

- **D0180** Comprehensive Periodontal Examination - New or Established Patient
- **D0220** Intraoral – periapical first film
- **D0230** Intraoral – periapical each additional film (maximum of 4)
- **D0240** Intraoral – occlusal film
- **D0272** Bitewings – two films
- **D0330** Panoramic Film

Examination

- **D0180** Comprehensive Periodontal Examination - New or Established Patient

A comprehensive periodontal examination is limited to one per pregnancy.

This procedure code is indicated for patients showing signs or symptoms of periodontal disease. It includes, but is not limited to, evaluation of periodontal conditions, probing and charting, evaluation and recording of the patient’s dental and medical history, and general health assessment. It also includes the evaluation and recording of dental caries, missing or unerupted teeth, restorations, occlusal relationships, and oral cancer screening.

This visit should also include preparation and/or updating of the patient’s records, development of a current treatment plan, and the completion of reporting forms.

After the comprehensive examination, subsequent visits should be scheduled by the dentist to correct the dental defects that were identified.

Radiographs (X-Rays)

- **D0220** Intraoral – periapical first film
- **D0230** Intraoral – periapical each additional film (maximum of 4)
- **D0240** Intraoral – occlusal film
- **D0272** Bitewings – two films
- **D0330** Panoramic Film

A lead apron and thyroid shield must be used when taking any radiographs reimbursed by the Medicaid program. When taking radiographs, the use of a lead apron and thyroid shield is a generally accepted standard of care practice and is part of normal, routine, radiographic hygiene.

Radiographs taken must be of **good diagnostic quality** and, when submitted for prior authorization or post payment review, must be properly mounted. Radiographic mounts and panoramic-type radiographs must indicate the date taken, the name of the recipient, and the provider. Radiographic copies must also indicate the above as well as be marked to indicate the left and right sides of the recipient’s mouth. Radiographs that are not of good diagnostic quality will be rejected.
Scanned radiographic images should be of an adequate resolution to be diagnostically acceptable and must indicate right and left side. Scanned images that are not diagnostic will be returned for new images.

According to the accepted standards of dental practice, the lowest number of radiographs needed to provide the diagnosis should be taken.

In cases where the medical professional considers radiographs to be medically contraindicated (as noted on the BHSF Form 9-M) or upon any other medical contraindications for the radiographic evaluation, the following must be noted in the dental treatment record and in the remarks section on any claims submitted for authorization:

- Reason the x-rays were contraindicated
- Description of the oral condition/dental problem that requires treatment, including documentation of the oral condition’s effect on the periodontal health

Any prior authorization requests, which are not accompanied by the appropriate radiographs, must be accompanied by a copy of the recipient’s treatment record as created on the Comprehensive Periodontal Examination appointment. The recipient’s name and Medicaid number must be indicated on the copy of the treatment records submitted for review.

If the treatment records do not adequately describe the conditions requiring treatment, the services requiring prior authorization will be denied.

Any periapical radiographs, occlusal radiographs or panoramic radiographs taken routinely at the time of a dental examination appointment for screening purposes are not covered. If a routine practice of taking such radiographs, without adequate diagnostic justification, is discovered during post payment review, all treatment records may be reviewed and recoupment of money paid for all radiographs will be initiated.

**D0220** Intraoral – periapical first film
**D0230** Intraoral – periapical each additional film

Payment for periapical radiographs taken in addition to bitewings is limited to a total of five and is payable when their purpose is to obtain information in regard to a specific pathological condition other than caries (e.g. periapical pathology or extensive periodontal conditions).

Periapical radiographs, unless contraindicated, must be taken prior to any tooth extraction.

For reimbursement by the Medicaid program, the radiographs must be associated with a specific unextracted Tooth Number 1 through 32 or Tooth A through T. The appropriate tooth number or letter must be identified in the “Tooth Number(s) or Letter(s)” column of the ADA Claim Form when requesting reimbursement for this procedure.

**D0240** Intraoral – occlusal film

A #2 size film taken in an occlusal orientation will be considered an anterior periapical radiograph for payment. The fee for an occlusal radiograph will be paid only when a true occlusal film (2” x 3”) is used to evaluate the maxillary or mandibular arch. The actual occlusal radiograph must be sent with the prior authorization request for an occlusal film.
This radiograph is reimbursable for Oral Cavity designators 01 and 02. The appropriate oral cavity designator must be identified in the “Area of Oral Cavity” column of the ADA Claim Form when requesting prior authorization or reimbursement for this procedure.

**D0272**  
**Bitewings – two films**

Bitewing radiographs are required (unless contraindicated) at the comprehensive periodontal examination and are limited to one set per pregnancy. In cases where the provider considers radiographs to be medically contraindicated, a narrative describing the contraindication must be documented in the recipient’s record.

**D0330**  
**Panoramic film**

Panoramic radiographs are not indicated and will be considered insufficient for diagnosis in periodontics and restorative dentistry and will not be reimbursed. Panoramic radiographs are only reimbursable in conjunction with oral and maxillofacial surgery services. The dental consultants may request the actual panoramic radiograph before a prior authorization request can be completed.

**Preventive Services**

**Adult Prophylaxis**

**D1110**  
**Adult Prophylaxis**

This procedure includes removal of plaque, calculus and stains from the tooth structures in the permanent and transitional dentition. It is intended to control local irritational factors. Qualified dental personnel must perform any prophylaxis. This service is limited to one per pregnancy.

If, at the initial visit, it is determined that the Adult Prophylaxis is the appropriate treatment and code D1110 (Adult Prophylaxis) is billed to and reimbursed by Medicaid, then procedure code D4355 (Full Mouth Debridement) will not be subsequently reimbursed during this pregnancy.

**Restorative Services**

Restorative services include: amalgam restorations, resin-based composite restorations, stainless steel crowns and resin crowns. Unless contraindicated, all restorative and treatment services per quadrant must be performed on the same date of service. This allows the dentist to complete all restorative treatment in the area of the mouth that is anesthetized. In addition, if there is a simple restoration required in a second quadrant, the simple restorative procedure in the second quadrant must also be performed at the same appointment. If there are circumstances that would not allow restorative treatment in this manner, the contraindication(s) must be documented in the patient’s dental record. All restorative services require prior authorization.
D2140* Amalgam – one surface, primary or permanent
D2150* Amalgam – two surfaces, primary or permanent
D2160* Amalgam – three surfaces, primary or permanent
D2161* Amalgam – four or more surfaces, permanent
D2330* Resin-based composite, one surface, anterior
D2331* Resin-based composite, two surfaces, anterior
D2332* Resin-based composite, three surfaces, anterior
D2335* Resin-based composite – four or more surfaces or involving incisal angle (anterior)
D2390* Resin-based composite crown, anterior
D2931* Prefabricated stainless steel crown – permanent tooth
D2932* Prefabricated resin crown, primary or permanent
D2951* Pin retention, per tooth, in addition to restoration

Since this program is designed to address the periodontal needs during pregnancy, the location of the caries to be restored must be in an area that would impact the gingival integrity and affect the periodontal health of the woman. Radiograph(s), unless contraindicated, that support the need for the restoration to maintain the gingival integrity (e.g. significant subgingival decay, etc.) must be taken and submitted with the request for prior authorization. Restoration of dental caries not penetrating the dentin will be denied.

In cases where the medical professional considers radiographs to be medically contraindicated (as noted on the BHSF Form 9-M) or upon any other medical contraindications for the radiographic evaluation, the following must be noted in the dental treatment record and in the remarks section on any claims submitted for authorization:

- Reason the x-rays were contraindicated
- Description of the oral condition/dental problem that requires treatment, including documentation of the oral condition’s effect on the periodontal health

Any prior authorization requests, which are not accompanied by the appropriate radiographs, must be accompanied by a copy of the recipient’s treatment record as created on the Comprehensive Periodontal Examination appointment. The recipient’s name and Medicaid number must be indicated on the copy of the treatment records submitted for review.

If the treatment records do not adequately describe the conditions requiring treatment; the services requiring prior authorization will be denied.

Local anesthesia is considered to be part of restorative services. Tooth and soft tissue preparation, all adhesives (including amalgam bonding agents), liners and bases, are included as part of amalgam restorations. Tooth and soft tissue preparation, all adhesives (including resin bonding agents), liners and bases and curing are included as part of resin-based composite restorations. Pins should be reported separately.

The original billing provider is responsible for the replacement of the original restoration within the first twelve months after initial placement.

Laboratory processed crowns are not covered.
Amalgam Restorations (including polishing)

D2140* Amalgam – one surface, primary or permanent
D2150* Amalgam – two surfaces, primary or permanent
D2160* Amalgam – three surfaces, primary or permanent
D2161* Amalgam – four or more surfaces, permanent

Procedure codes D2140, D2150, D2160, and D2161 represent final restorations.

Procedure code D2140 is payable only for Class V type restorations on the buccal or lingual surface in direct contact with the periodontally affected gingival tissue. **Occlusal surfaces and buccal, lingual, and occlusal pits are specifically excluded from reimbursement for code D2140.**

Procedure codes D2150, D2160, and D2161 are payable only for restorations in which at least one of the involved surfaces is in direct contact with the periodontally affected gingival tissue.

In addition to the requirement of gingival contact, amalgam restorations must be placed in a preparation in which the entire preparation extends through the enamel and into dentin, and follows established dental protocol that the preparation and restoration include all grooves and fissures on the billed surface(s). If the restoration is a mesial occlusal or distal occlusal restoration, the preparation must extend down the mesial or distal surface far enough for the restoration to contact the periodontally affected gingival tissue.

Duplicate surfaces are not payable on the same tooth in amalgam restorations in a 12-month period.

If two or more restorations are placed on the same tooth, a maximum amalgam fee that can be reimbursed per tooth has been established such that all restored surfaces on a single tooth shall be considered connected.

The fee for any additional restorative service(s) on the same tooth will be cutback to the maximum fee for the combined number of non-duplicated surfaces when performed within a 12-month period.

Procedure codes D2140, D2150 and D2160 are reimbursable for Tooth Numbers 1 through 32 and Tooth Letters A through C, H through M, and R through T.

Procedure code D2161 is reimbursable for Tooth Numbers 1 through 32 only. Code D2161 is not payable for primary teeth.

The appropriate tooth number or letter must be identified in the “Tooth Number(s) or Letter(s)” column of the ADA Claim Form when requesting reimbursement for this procedure.
Resin-Based Composite Restorations

D2330* Resin-based composite, one surface, anterior
D2331* Resin-based composite, two surfaces, anterior
D2332* Resin-based composite, three surfaces, anterior
D2335* Resin-based composite – four or more surfaces or involving incisal angle (anterior)
D2390* Resin-based composite crown, anterior

Posterior composite restorations are not reimbursable under the guidelines of Louisiana Medicaid.

Procedure code D2330 is payable only for Class V type restorations on the buccal or lingual surface in direct contact with the periodontally affected gingival tissue. **Occlusal surfaces and buccal, lingual, and occlusal pits are specifically excluded from reimbursement for code D2330.**

Procedure codes D2331, D2332, D2335, and D2390 are payable only for restorations in which at least one of the involved surfaces is in direct contact with the periodontally affected gingival tissue.

In addition to the requirement of gingival contact, resin-based composite restorations must be placed in a preparation in which the entire preparation extends through the enamel and into dentin, and follows established dental protocol that the preparation and restoration include all grooves and fissures on the billed surface(s).

Procedure codes D2330, D2331, D2332, D2335, and D2390 represent final restorations. If two restorations are placed on the same tooth, a maximum fee for resin-based composites that can be reimbursed per tooth has been established. The fee for any additional restorative service(s) on the same tooth will be cut back to the maximum fee for the combined number of surfaces when performed within a 12-month period.

Procedure D2335 is reimbursable only once per day, same tooth, any billing provider.

To bill for a particular surface in a complex restoration, the margins of the preparation must extend past the line angles onto the claimed surface. A Class V resin-based composite restoration is a one surface restoration.

The resin-based composite – four or more surfaces or involving incisal angle (D2335) is a restoration in which both the lingual and facial margins extend beyond the proximal line angle and the incisal angle is involved. This restoration might also involve all four surfaces of an anterior tooth and not involve the incisal angle. To receive reimbursement for a restoration involving the incisal angle, the restoration must involve at least 1/3 of the clinical crown of the tooth.

The resin-based composite crown, anterior (D2390) is a single anterior restoration that involves full resin-based composite coverage of a tooth. Providers may request this procedure in cases where two D2332 restorations would not adequately restore the tooth or in cases where two
D2335 would be required. Providers may also request this procedure on a tooth that has suffered a horizontal fracture resulting in the loss of the entire incisal segment.

Crown services require radiographs (unless contraindicated) or other documentation which depict the pretreatment condition. The documentation that supports the need for crown services must be available for review by the Bureau or its designee upon request.

Procedure codes D2330, D2331, D2332, D2335, and D2390 are reimbursable for Tooth Numbers 6 through 11, 22 through 27 and Tooth Letters C, H, M and R. The appropriate tooth number or letter must be identified in the “Tooth Number(s) or Letter(s)” column of the ADA Claim Form when requesting reimbursement for this procedure.

Non-Laboratory Crowns

D2931* Prefabricated Stainless Steel Crown – permanent tooth
D2932* Prefabricated Resin Crown – primary or permanent tooth

Procedure codes D2931 and D2932 represent final restorations. These restorations must be in direct contact with the periodontally affected gingival tissue. Non-laboratory or chair-side full coverage restorations such as stainless steel and polycarbonate crowns are available but should only be considered when other conventional chair-side types of restorations such as complex amalgams and composite resins are unsuitable.

Crown services require radiographs (unless contraindicated).

Indications such as extensive caries, extensive cervical caries, fractured teeth, replacing a missing cusp, etc. must be radiographically evident and/or documented in the recipient’s treatment records if radiographs are medically contraindicated. The documentation that supports the need for crown services must be available for review by the Bureau or its designee upon request.

D2931* Prefabricated Stainless Steel Crown – permanent tooth

This procedure is reimbursable for Tooth Numbers 1 through 32. The appropriate tooth number must be identified in the “Tooth Number(s) or Letter(s)” column of the ADA Claim Form when requesting prior authorization or reimbursement for this procedure.

D2932* Prefabricated Resin Crown – primary or permanent tooth

This procedure is reimbursable for Tooth Numbers 6 through 11 and 22 through 27 and Tooth Letters C, H, M and R. The appropriate tooth number or letter must be identified in the “Tooth Number(s) or Letter(s)” column of the ADA Claim Form when requesting prior authorization or reimbursement for this procedure.
Other Restorative Services

D2951*  Pin retention - per tooth, in addition to restoration

Reimbursement for pins is limited to one per tooth, per lifetime and may only be billed in conjunction with the complex restoration codes D2160 or D2161.

This procedure is reimbursable for Tooth Numbers 2 through 5; 12 through 15; 18 through 21; and 28 through 31. The appropriate tooth number or letter must be identified in the “Tooth Number(s) or Letter(s)” column of the ADA Claim Form when requesting reimbursement for this procedure.

Periodontal Services

Periodontal services include periodontal scaling and root planing and full mouth debridement. Local anesthesia is considered to be part of periodontal procedures.

Prior authorization is required for all periodontal services.

D4341*  Periodontal scaling and root planing – four or more teeth per quadrant
D4355*  Full mouth debridement

Unless contraindicated, radiograph(s) that support the need for the periodontal services must be taken and submitted with the request for prior authorization.

In cases where the medical professional considers radiographs to be medically contraindicated (as noted on the BHSF Form 9-M) or upon any other medical contraindications for the radiographic evaluation, the following must be noted in the dental treatment record and in the remarks section on any claims submitted for authorization:

- Reason the x-rays were contraindicated
- Description of the oral condition/dental problem that requires treatment, including documentation of the oral condition’s effect on the periodontal health

Any prior authorization requests, which are not accompanied by the appropriate radiographs, must be accompanied by a copy of the recipient’s treatment record as created on the Comprehensive Periodontal Examination appointment. The recipient’s name and Medicaid number must be indicated on the copy of the treatment records submitted for review.

If the treatment records do not adequately describe the conditions requiring treatment, the services requiring prior authorization will be denied.

D4341*  Periodontal scaling and root planing – four or more teeth per quadrant

Radiographic evidence of large amounts of subgingival calculus, deep pocket formation, and bone loss must be submitted. This procedure involves instrumentation of the crown and root surfaces of the teeth to remove plaque and calculus from these surfaces as well as the removal
of rough, calculus-contaminated cementum and dentin. It is therapeutic not prophylactic in nature, usually requiring local anesthesia.

This procedure requires prior authorization. Radiographic evidence of bone loss indicating a true periodontal disease state must be supplied with bitewings and/or posterior/anterior periapicals. This service is not approved for recipients who have not progressed beyond the mixed dentition stage of development.

Only two units of periodontal scaling and root planing may be reimbursed per day.

This procedure is reimbursable for Oral Cavity Designators 10, 20, 30 and 40. The appropriate oral cavity designator must be identified in the “Area of Oral Cavity” column of the ADA Claim Form when requesting prior authorization or reimbursement for this procedure.

**D4355**  Full Mouth Debridement

This procedure involves the gross removal of plaque and calculus that interferes with the ability of the dentist to perform a comprehensive oral evaluation. This preliminary procedure does not preclude the need for additional procedures.

**This service must be performed at the initial visit if the service is indicated.**

No other dental services except an examination and/or radiographs are reimbursable on the same date of service as full mouth debridement. When an exam is performed on the same date of service as a full mouth debridement, the exam must be performed after completion of the full mouth debridement.

Only one Full Mouth Debridement is allowed per pregnancy. **This procedure will not be reimbursed if payment has previously been made for an Adult Prophylaxis (D1110) to the same billing provider or another Medicaid provider in the same office as the billing provider during this pregnancy.**

This procedure requires prior or post authorization. When requesting prior or post authorization, bitewing radiographs (unless contraindicated) that supply evidence of significant posterior supra and/or subgingival calculus in at least two quadrants must be submitted. In cases where radiographs are contraindicated or in which the radiographs do not visually satisfy the two quadrant minimum, the provider must include in the request for authorization a copy of the written patient record that provides narrative documentation that describes and supports the necessity for this procedure. Although not reimbursable in the EDSPW Program, intraoral photographs that clearly depict the extent of debris and need for D4355 can be submitted.

Prior to requesting authorization for a D4355 (Full Mouth Debridement), providers must ask their new patients if they have received a Medicaid covered prophylaxis (D1110) during this pregnancy and record that information in the patient’s treatment record. For the established patient, the provider must check the office treatment record to ensure that a D1110 has not been reimbursed by Medicaid for this recipient during this pregnancy. If it is determined that a D1110 has been reimbursed by Medicaid for this recipient during this pregnancy, the recipient is not eligible for a D4355.
If the prior or post authorization request for D4355 is denied and it has been determined that Medicaid has not reimbursed a D1110 (Adult Prophylaxis) for the recipient during this pregnancy, the provider may render and bill Medicaid for a D1110 (Adult Prophy).

**Oral and Maxillofacial Surgery Services**

**Note:** Dental providers who are qualified to bill for services using the Current Physician’s Terminology (CPT) codes, may bill for certain medical oral surgery services using the CPT codes which are covered under the Physician’s Program when those services are rendered to Medicaid recipients who are eligible for services provided in the Physician’s Program. Refer to the Oral and Maxillofacial Surgery Program section of the 1995 Dental Services Manual for specific details.

The prophylactic removal of an asymptomatic impacted tooth is not covered.

Due to the potential risk of complications involved in the surgical removal of teeth, including the extraction of impacted teeth, minimal standards of care require that these procedures not be attempted without radiographic evaluation.

Requests for prior authorization for surgical extractions, including the extraction of impacted teeth, will not be considered without radiographs. The radiographic findings determine the necessity of surgical extraction and the degree of impaction and correspond to the CDT definitions of impactions. The prior authorization letter will list the tooth numbers and will correspond to the CDT definitions. Therefore, it is suggested that prior authorization be used to resolve differences in interpretation prior to the day of surgery.

Procedure codes D7240 and D7241 are not reimbursable in this program.

**Extractions**

<table>
<thead>
<tr>
<th>Code</th>

<tr>
<td>D7210*</td>
<td>Surgical removal of erupted tooth</td>
</tr>
<tr>
<td>D7220*</td>
<td>Removal of impacted tooth – soft tissue</td>
</tr>
<tr>
<td>D7230*</td>
<td>Removal of impacted tooth - partial bony</td>
</tr>
</tbody>
</table>

These codes include local anesthesia, suturing (if needed), and routine post-operative care.

Procedure codes D7140, D7210, D7220, and D7230 are reimbursable for Tooth Numbers 1 through 32 and Tooth Letters A through T. ADA tooth numbering codes for Supernumerary Teeth 51 through 82 or AS through TS should be used when needed. The appropriate tooth number or letter must be identified in the “Tooth Number(s) or Letter(s)” column of the ADA Claim Form when requesting reimbursement for this procedure.
**Non-surgical Extractions**

**D7140** Extractions, erupted tooth or exposed root (elevation and/or forceps removal)

This procedure includes routine removal of tooth structure, minor smoothing of socket bone and closure, as necessary.

Radiograph(s), unless contraindicated, must be taken prior to this procedure (D7140).

In cases where the medical professional considers radiographs to be medically contraindicated (as noted on the BHSF Form 9-M) or upon any other medical contraindications for the radiographic evaluation, the following must be noted in the recipient’s treatment record:

- Reason the x-rays were contraindicated
- Description of the oral condition/dental problem that requires treatment, including documentation of the effect of the oral condition on the periodontal health

**Surgical Extractions**

**D7210** Surgical removal of erupted tooth requiring elevation of mucoperiosteal flap and removal of bone and/or section of tooth

This procedure includes the cutting of gingiva and bone, removal of tooth structure, minor smoothing of socket bone, and closure.

This procedure requires prior authorization. All requests for prior authorization of the surgical removal of erupted tooth require the submission of radiographs.

For pre-surgical prior authorization, the radiographic evidence must clearly demonstrate the need for the cutting of gingiva and removal of bone and/or sectioning of tooth structure.

If the radiographic evidence does not clearly demonstrate the need for the cutting of gingiva and removal of bone and/or sectioning of tooth structure, the prior authorization request will be denied. After the tooth is removed, the provider may bill Medicaid for a D7140 or resubmit the prior authorization request for reconsideration (indicating the date of service) with a copy of the post surgical operative report and/or treatment record describing the surgical complications and the radiographs.

In the event a planned simple extraction becomes a surgical procedure, the provider may submit a “post” authorization request (indicating the date of service) with a copy of the post surgical operative report and/or treatment record describing the surgical complications along with the radiographs which will be used by the dental consultants in the authorization determination.
D7220* Removal of impacted tooth - soft tissue

The occlusal surface of the tooth is covered by soft tissue and removal of the tooth requires mucoperiosteal flap elevation.

All requests for prior authorization of the removal of impacted tooth - soft tissue (D7220) require the submission of radiographs.

D7230* Removal of impacted tooth – partial bony

Part of crown covered by bone; requires mucoperiosteal flap elevation and bone removal.

All requests for prior authorization of the removal of impacted tooth – partial bony (D7230) require the submission of radiographs.

Non-Covered Services

Non-covered services include but are not limited to the following:

- Procedure codes not included in the fee schedule located in Appendix J of this document
- Routine post-operative services (these services are covered as part of the fee for the initial treatment provided)
- Treatment of incipient or non-caries lesions
- Routine panoramic radiographs, occlusal radiographs, upper and lower anterior, or posterior periapical radiographs (when utilized as part of an initial examination or screening without a specific diagnostic reason why the radiograph(s) is necessary)
- General anesthesia
- Administration of in-office pre-medication

EDSPW Program Reminders

- The date of service on a dental claim must reflect the actual date that the service was completed/delivered. Dental claims shall not be filed prior to the completion/delivery of the service. At a minimum, Medicaid will recover the payment for all claims billed when the date of service on the claim does not reflect the date the service was completed.

- Providers must ask their new patients when they last received a Medicaid covered periodontal examination, prophylaxis, and bitewing radiographs, and record that information in the patient’s treatment record. For the established patient, the provider must check the office treatment record to ensure that the specified patient has not received these services during the current pregnancy. If it is determined that these services have been rendered during the current pregnancy, the patient is not eligible for the services.
PRIOR AUTHORIZATION INFORMATION AND REMINDERS

The 2002 American Dental Association Claim Form and the 2002, 2004 American Dental Association Claim Form are the only hardcopy dental claim forms accepted for Medicaid prior authorization (PA) of services provided under the Medicaid EPSDT Dental Program, EDSPW Program or Adult Denture Program regardless of the date of service. Dental prior authorization requests received by LSU Dental School, Dental Medicaid Unit on the older versions of the ADA Claim Form will be returned to the provider.

Reminders

- If a claim is being submitted for prior authorization, you must mark “Request for Predetermination/Preauthorization” in Block 1 of the 2002 or 2002, 2004 ADA Claim Form.
- Radiographs must be submitted with request for prior authorization when required.
- Providers are reminded that dental prior authorization requests are to be submitted to the following address:

  LSU Dental School
  Dental Medicaid Unit
  P. O. Box 80159
  Baton Rouge, LA 70898-0159

If you have questions regarding dental prior authorization, you may contact the LSU Dental School, Dental Medicaid Unit by calling 225-216-6470.
Check List for Use Prior to Mailing a Medicaid Dental Prior Authorization Request
(Print or copy this page for your convenience)

The information provided below will help you prevent errors frequently made when completing a Medicaid dental prior authorization (PA) request. For complete dental prior authorization guidelines, refer to pages 16-6 through 16-9 of the Dental Services Manual dated May 1, 2003.

☐ Are you using the 2002 American Dental Association (ADA) Claim Form or the 2002, 2004 ADA Claim Form when submitting a request to Medicaid for dental prior authorization? (Only these versions are accepted.)

☐ Have you provided two identical copies of each ADA claim form being submitted?

☐ Has any information been placed in the upper right-hand corner of the claim (above the box labeled “Primary Subscriber Information”)? (This area is for Medicaid use only and must be left blank.)

☐ Are you certain that the claim form is properly completed with provider name, group, and individual provider number, current provider address and phone number, recipient name and date of birth, etc.? (Each claim form submitted for dental prior authorization should be fully completed using the ADA Claim Form instructions on page 50 of this document. If a service has not been delivered at the time of the request, leave the date of service blank. If a service has already been delivered, enter the correct date of service on the claim form.

☐ Have you grouped together on the first lines of the claim form all services requiring prior authorization? (Procedures that will be rendered and do not require prior authorization should be listed on the ADA claim form after those services requiring prior authorization so that the reviewer understands the full treatment plan.)

☐ Have you provided an explanation or reason for treatment in the remarks section of the claim form if the reason is not obvious from the radiographs? (Be certain to include the remarks on the same ADA claim form in which the treatment is being requested.)

☐ Have you included bitewing radiographs and any other required radiographs?

☐ Are the radiographs mounted so that each individual film is readily viewable and does the doctor’s name, patient’s name, and the date of the films appear on the mounting? (Radiographs MUST be mounted and MUST contain the identified information.)

☐ Are the mounted radiographs on the top of the EPSDT Dental Program the Adult Denture Program claims? (The mounted radiographs MUST be on the top of the claim for prior authorization for these programs.)

☐ Is a single copy of the BHSF Form 9-M on top of the request, followed by the mounted radiographs and then the claim for the Expanded Dental Services for Pregnant Women (EDSPW) Program requests? (Placing the Form 9-M as the first page of an EDSPW request will help to identify it as related to an adult pregnant woman.)

☐ Have you submitted the panoramic radiograph, if one has been taken, along with the request for post-authorization of the radiograph and included any additional services requiring prior authorization on the same claim form?

☐ Have you stapled all pages (and the mounted radiographs) for a single recipient with a SINGLE staple in the upper left-hand corner? (Using a single staple will expedite the request. Paper clips should be not used.)

☐ Have you separated the dental prior authorization requests by program type (EPSDT Dental Program, Expanded Dental Services for Pregnant Women (EDSPW) Program, and Adult Denture Program and placed each program type in a separate package/envelope?

☐ Are you mailing to LSU Dental School, Dental Medicaid Unit, P.O. Box 80159, B.R. LA 70898-0159?

NOTE: It is the dental provider’s responsibility to obtain a dental prior authorization on behalf of the patient. If a dental provider has not received a dental prior authorization decision (or other related correspondence from the Dental Medicaid Unit) within 25 days from the date of submission, it is the provider’s responsibility to contact the Dental Medicaid Unit at 225-216-6470 to inquire on the status of the prior authorization request. The provider should NEVER instruct the patient to contact Medicaid regarding the dental prior authorization request.
ADA CLAIM FORM INFORMATION/INSTRUCTIONS AND BILLING REMINDERS

Medicaid EPSDT Dental, EDSPW and Adult Denture Program Services

The 2002 American Dental Association Claim Form and the 2002, 2004 American Dental Association Claim Form are the only hardcopy dental claim forms accepted for Medicaid reimbursement of services provided under the Medicaid EPSDT Dental Program, EDSPW Program or Adult Denture Program regardless of the date of service. Dental claims received by Unisys on the older versions of the ADA Claim Form will be returned to the provider. These claim forms may be obtained by contacting the American Dental Association or your dental supply company.

Billing Reminders

• If a claim is being submitted for payment, you must mark “Statement of Actual Services” in Block 1 of the 2002 or 2002, 2004 American Dental Association (ADA) Claim Form.

• Claims for payment that are sent to Unisys should never include radiographs. Claims for payment that are submitted with radiograph attachments will cause a delay in payment.

REMINDER: The all inclusive encounter code (D0999) and other required information regarding this code must be entered on the 1st line of the claim form; tooth number/letter, surface or oral cavity designator is not required for this line. In addition to the encounter information, it is necessary to indicate on subsequent lines of the claim form, the specific dental services provided by entering the individual procedures, including all appropriate line item information for each service rendered.

The following billing instructions correspond to the 2002 ADA Claim Form and the 2002, 2004 ADA Dental Claim Form. Required information must be entered to ensure claims processing. Situational information may be required only in certain situations as detailed in each instruction item. Information on the claim form may be handwritten or computer generated and must be legible and completely contained in the designated area of the claim form. Only one tooth number/letter or oral cavity designator is allowed per claim line. Refer to the applicable dental program policy and/or dental program fee schedule for specific requirements regarding tooth number/letter or oral cavity designator.

EPSDT Dental Program, EDSPW Program and Adult Denture Program claims should be submitted to:

Unisys
P. O. Box 91022
Baton Rouge, LA 70821
1. Required. Must check applicable box to designate whether the claim is a statement of actual services or a request for prior authorization.

Situational. Must check box marked “EPSDT / Title XIX” if patient is covered by state Medicaid’s Early and Periodic Screening, Diagnosis and Treatment program for persons under age 21. **If block is not checked, the claim will be processed as an adult claim.**

2. Situational. Must enter the prior authorization number assigned by Medicaid when submitting a claim for services that require prior authorization.

3. Situational. If completed, must enter the primary payer information.

4. Required. If yes, complete Block 9.

5-8. Situational.

9. Situational. Must enter the third party’s carrier code if a third party is involved. A list of codes identifying various carriers may be obtained from Unisys. If the provider has chosen to bill the third party and Medicaid, an explanation of benefits must be attached to the claim filed with Medicaid.

12. Required. Enter the recipient’s last name, first name, and middle initial exactly as verified through REVS or MEVS. Recipient’s address is situational.

13. Required. Enter the recipient’s eight-digit date of birth in month, day, and year (MM/DD/CCYY). If there is only one digit in a field, precede that digit with a zero.

15. Required. Enter the thirteen-digit Medicaid ID number as obtained from REVS or MEVS. **Do not use the sixteen-digit Card Control Number (CCN) from the recipient’s Medicaid card.**

23. Situational. If you enter a Patient ID/Account Number (Number Assigned by Dentist), it will appear on the Remittance Advice. It may consist of letters and/or numbers, and it may be a maximum of 20 positions.

24. Required. Enter the date the service was performed in month, day, and year (MM/DD/CCYY). If there is only one digit in a field, precede that digit with a zero. **A service must have been performed/delivered before billing Medicaid for payment.**

25. Situational. Must indicate the oral cavity designator when the Medicaid Program requires an oral cavity designator for the specific procedure. Refer to the Dental Services Manual, Dental Fee Schedule for specific requirements regarding oral cavity designator. If an oral cavity designator is required by Medicaid, do not enter a tooth number or letter in Block 27 of the ADA Claim Form.
26. **Situational.**

27. **Situational.** Must indicate a tooth number or letter when the Medicaid Program requires a tooth number or letter for the specific procedure. Refer to the Dental Services Manual, Dental Fee Schedule for specific requirements regarding tooth number or letter. If a tooth number or letter is required by Medicaid, do not enter a oral cavity designator in Block 25 of the ADA Claim Form.

28. **Situational.** Must indicate tooth surface(s) when procedure code reported directly involves one or more tooth surfaces. Enter up to five of the following codes: B = Buccal; D = Distal; F = Facial; I = Incisal; L = Lingual; M = Mesial; and O = Occlusal. Duplicate surfaces are not payable on the same tooth for most services. Refer to the Dental Services Manual for more information.

29. **Required.** Enter the encounter code D0999 on the first line. Enter the specific services provided by entering the appropriate dental procedure code from the current version of Code on Dental Procedures and Nomenclature on subsequent lines. The Medicaid reimbursable codes are located in the Medicaid Dental Services Manual, Dental Fee Schedule.

30. **Required.** Enter “ENCOUNTER ALL INCLUSIVE” on the first line. Enter the description of the specific services on subsequent lines.

31. **Required.** Enter your encounter rate on the 1st line to correspond with the encounter code and enter the dentist’s full (usual and customary) fees for the specific procedure reported.

32. **Situational.**

33. **Required.** Total of all fees listed on the claim form.

34. **Situational.** Must complete for the Adult Denture Program. Situational for the EPSDT Dental Program when requesting a prosthesis, space maintainer or root canal therapy. Report missing teeth on each claim submission. Indicate all missing teeth with an “X”. Indicate teeth to be extracted with a “/”.

35. **Situational.** Must include the following information in the remarks section of the claim form: 1) If Block 9 of the claim form is completed, write the words “Carrier Paid” and the amount that was paid by the carrier (including zero [$0] payment); and/or 2) Additional information which is required by Medicaid regarding requested services (i.e. description of the patient management techniques being utilized for which a patient management fee is being requested, reason for hospitalization request, etc.) or any additional information that the provider needs to include. For prior authorization requests, if the information required in the remarks section of the claim form exceeds the space available, the provider should include a cover sheet outlining the information required to document the requested services. If a cover sheet is used, please be sure it includes the date of the request, the recipient’s name and Medicaid ID # and the provider’s name and Medicaid ID #. A copy of this cover sheet, along with a copy of the request for prior authorization, should be kept in the patient’s treatment record.
36. Situational.

37. Situational.

38. Situational. Must check applicable box if services are to be/were provided at a location other than the address entered in Block 48. If services were provided at a location other than the address entered in Block 48, completion of Block 56 is required.

39. Situational. Must complete if applicable. Enter 00 to 99 in applicable boxes. Claims submitted for prior authorization should contain the identified attachments. Claims submitted for payment should not contain any of the attachments listed in Block 39.

40. Situational. Must complete if requesting comprehensive orthodontic services. Refer to the Dental Services Manual for guidelines regarding comprehensive orthodontic services.

41. Situational.

42. Situational.

43. Situational. Must complete if applicable. Check appropriate box. If yes, complete Block 44, if known.

44. Situational. Must complete if date is known. Enter the appropriate eight-digit date in month, day and year (MM/DD/CCYY).

45. Situational. Must complete if applicable. Check applicable box.

46. Situational. Must complete if applicable. Enter the eight-digit date in month, day and year (MM/DD/CCYY).

47. Situational. Must complete if applicable. Enter auto accident state.

48. Required. Enter the name of the individual dentist or dental group to whom payment is being made. If payment is being made to a group, the group name must be entered. Enter the full address, including city, state and zip code, of the dentist or dental group to whom the payment is being made.

49. Required. Enter the seven-digit billing provider Medicaid ID number to whom payment is being made. If payment is being made to a group, the group Medicaid ID number must be entered.

50. Situational.

51. Situational.

52. Required. Enter the phone number for the dentist or dental group to whom payment is being made.
53. Required. Signature of treating (attending) dentist. Enter the date the claim was signed. Signature stamps and computer-generated signatures are acceptable if they are initialed. The signature may be initialed by the provider or the provider’s assistant.

54. Required. Enter the Medicaid provider ID number of the treating (attending) dentist.

55. Required. Enter the license number of the treating (attending) dentist.

56. Situational. Enter the full address, including city, state and zip code, where treatment was performed by treating (attending) dentist, if different from Block 48.

57. Situational. Enter the phone number for the treating (attending) dentist, if different from Block 52.

58. Situational.

EPSDT DENTAL SERVICES ADJUSTMENT/VOID (209) AND ADULT DENTAL SERVICES ADJUSTMENT/VOID (210) FORM CHANGES

The EPSDT Dental Services 209 Adjustment/Void form (revision date 10/04) must be used when submitting adjustments/voids for EPSDT Dental Program services for all dates of service. Additionally, when submitting adjustments/voids for the Adult Denture Program or Expanded Dental Services for Pregnant Women Program for all dates of service, dental providers must use the Adult Dental Services 210 Adjustment/Void form (revision date 10/04). For both adjustment/void forms Form Locator 15 has been renamed as “Patient I.D./Account# Assigned by Dentist”. If the patient's account (medical record) number is entered here, it will appear on the Medicaid Remittance Advice. It may consist of letters and/or numbers, and it may be a maximum of 20 positions. Providers can obtain these forms from Unisys or through the Louisiana Medicaid website at www.lamedicaid.com. Instructions for completing the forms can also be obtained on the Medicaid website or within this document.

DENTAL CLAIM ERROR CODE INFORMATION

The Medicaid computer system compares information from claims against specific program requirements (i.e., reporting of tooth codes, prior authorization, service limitations, etc.) Claim error codes are used when the claim information does not match these program requirements. A discussion of the most common dental claim error codes follows. Please note that this is not a complete list of dental claim error codes. The remittance advice (RA) contains a brief description of each error code reported; however, if further explanation/information is required regarding an error code, the provider should contact Unisys Provider Relations by calling (800) 473-2783 or (225) 924-5040.

EDIT RESOLUTION

<table>

<tr>
<th>Code</th>
<th>Message</th>
<th>Resolution</th>
</tr>
</thead>
</table>
| 103  | Invalid Tooth Code/Oral Cavity Designator    | Either the data in the “Tooth # or letter” or oral cavity designator columns of the claim form is not recognized as a valid tooth code or oral cavey designator.  
Or  
The data in the “Tooth # or letter” column of the claim form is valid tooth code or oral cavity designator, but it is not valid for the service billed (e.g., billing a tooth number for a service requiring an oral cavity designator.).  
Or  
The claim does not indicate a tooth code or oral cavity designator for a procedure code that requires this information.  
Determine whether the procedure requires a tooth code or oral cavity designator. Correct the claim to reflect the appropriate and accurate data and resubmit the claim. |
| 510  | Only 1 of These Procedures in 7 Years Per Recipient/Provider| Only one of the procedures billed can be performed for the recipient, by the provider, within seven years. The system will deny the claim. |
| 515  | Override Required-Send To Dental PA Unit      | The claim history for this recipient indicates this claim is the second restoration request for the same tooth within a year. The reason that the tooth requires a second or additional restoration must be well documented in the patient’s record. For Medicaid to reconsider the claim, you must send the following to the LSU Dental School, Dental Medicaid Unit, P. O. Box 80159, Baton Rouge, Louisiana 70898-0159:  
• A cover letter requesting reconsideration of the 515 denial.  
• One original and one copy of the ADA claim form with the denied service(s) listed. NOTE: ADA claim form, Block 1, must be marked “Statement of Actual Services” and completed so that it is acceptable by Unisys for payment.  
• A copy of the Remittance Advice denying your request for payment (indicating the 515 denial).  
• A copy of the entire treatment record.  
• All pertinent radiographs taken. If radiographic copies are sent, they must be labeled right/left and be of good diagnostic quality. |

<td>Invalid Tooth Code/Oral Cavity Designator</td>
<td>Either the data in the “Tooth # or letter” or oral cavity designator columns of the claim form is not recognized as a valid tooth code or oral cavity designator. Or The data in the “Tooth # or letter” column of the claim form is valid tooth code or oral cavity designator, but it is not valid for the service billed (e.g., billing a tooth number for a service requiring an oral cavity designator.). Or The claim does not indicate a tooth code or oral cavity designator for a procedure code that requires this information. Determine whether the procedure requires a tooth code or oral cavity designator. Correct the claim to reflect the appropriate and accurate data and resubmit the claim.</td>
</tr>
<tr>
<td>742</td>
<td>Only 1 of These Procedures Allowed in 5 Years Per Recipient/Provider</td>
<td>Only one of the procedures billed can be performed for the recipient, by the provider, within five years. The system will deny the claim.</td>
</tr>
<tr>
<td>775</td>
<td>Payment Cutback Same Tooth</td>
<td>The claim history for this recipient indicates that Medicaid has already processed a claim or claims for this tooth, and the paid amounts have been applied toward the maximum amount allowed for the tooth. In payment of the current claim, only part of the billed amount could be reimbursed without exceeding the maximum allowed payment. Normally this occurs when more than one restoration is billed for the same tooth by the same provider within a certain period of time. Ensure the correct dates of service and procedure code were billed on the claim form. If not, correct the claim and resubmit. Otherwise, refer to the patient’s chart and billing records, including RAs that reflect payment for services for the recipient.</td>
</tr>
<tr>
<td>779</td>
<td>Procedure on Extracted Tooth Not Payable</td>
<td>The claim history for this recipient indicates that Medicaid has already paid for the extraction of this tooth. Ensure that the correct date of service, procedure code and tooth letter/number were billed on the claim form. If not, correct and resubmit. Otherwise, contact the Dental Medicaid Unit by calling 225-216-6470.</td>
</tr>
</tbody>
</table>
ORAL AND MAXILLOFACIAL SURGERY PROGRAM  
(MEDICAL SERVICES)

Covered Services

Medicaid recipients, regardless of age, who are eligible for services that are covered under the Physician's Program are eligible for coverage of essentially medically necessary oral and maxillofacial medical procedures that are covered in the Medicaid Physician's Program when required in the treatment of injury or disease related to the head and neck. Procedures performed for cosmetic purposes are not allowed.

Providers are not allowed to bill unlisted/miscellaneous Current Procedural Terminology (CPT) codes for services that have specific codes published in the Current Dental Terminology (CDT) for that service even if the CDT procedure is a non-covered Medicaid service. For example, a provider cannot bill an unlisted/miscellaneous CPT code for a tooth extraction since there are specific CDT codes for this procedure. Please note: Tooth extractions are not covered by Medicaid for adults except for those extractions covered in the Expanded Dental Services for Pregnant Women (EDSPW) Program.

Recipient Eligibility

Providers should verify the recipient's eligibility on each date of service using the Recipient Eligibility Verification System (REVS) or Medicaid Eligibility Verification System (MEVS). Electronic Medicaid Eligibility Verification System (E-MEVS) is also available on the web at www.lamedicaid.com. The provider should keep hardcopy proof of eligibility from MEVS and/or e-MEVS in the patient’s record. (Payment is made for authorized services only if the recipient is eligible on the date the service is rendered.)

Reimbursement

Reimbursement to providers is determined by federal regulations and state policy. Reimbursement to dental providers for oral and maxillofacial surgery services covered under the Physician's Program is based upon the fee for service that has been established for physician providers for the procedure code billed on the claim form.

Claims Filing

The CMS-1500 Claim Form is the only claim form that can be processed for payment of claims for medical services (CPT codes) in the Oral and Maxillofacial Surgery Program.

Procedure Codes

The CPT (Physicians Current Procedural Terminology) is a listing of descriptive terms and identifying codes for reporting medical services and procedures performed by qualified
providers. The purpose of the terminology is to provide a uniform language that will accurately designate medical, surgical, and diagnostic services and that will provide an effective means for reliable, nationwide communications among providers, patients, and third parties.

**Diagnosis Codes**

Providers should use the appropriate diagnosis codes listed in the ICD-9-CM Diagnosis Code Book when completing the CMS-1500 claim form.

Diagnosis codes are required entries. Omission will cause the claim to be denied. The diagnosis codes appropriate for all treatment rendered should be listed in Block 21.

**NOTE:** A diagnosis code beginning with an E or M is not covered.

**Additional Program Information**

Please refer to the 2006 Basic Services Training Packet and/or the 2006 Professional Services Training Packet for additional information regarding claims filing, prior authorization, third party liability, Medicare/Medicaid reimbursement, etc.
ELECTRONIC DATA INTERCHANGE (EDI)

Claims Submission

Electronic data interchange submission is the preferred method of submitting Medicaid claims to Unisys. With electronic data, a provider or a third party contractor (billing agent) submits Medicaid claims to Unisys on a computer encoded magnetic tape, diskette or via telecommunications.

Each claim undergoes the editing common to all claims, e.g., verification of dates and balancing. Each type of claim has unique edits consistent with the requirements outlined in the provider manuals. All claims received via electronic data must satisfy the criteria listed in the manual for that type of claim.

Advantages of submitting claims electronically include increased cash flow, improved claim control, decrease in time for receipt of payment, automation of receivables information, improved claim reporting by observation of errors and reduction of errors through pre-editing claims information.

Certification Forms

Any submitter - individual providers, clearinghouse, billing agents, etc. - that submits at least one claim electronically in a given year is required to submit an Annual EDI Certification Form. This form is then kept on file to cover all submissions within the calendar year. It must be signed by an authorized representative of the provider and must have an original signature (no stamps or initials.)

Third Party Billers are required to submit a Certification Form including a list of provider(s) name(s) and Medicaid Provider numbers. Additionally, all Third Party Billers MUST obtain a “Professional, Pharmacy, Hospital or KIDMED Services Certification” form on which the provider has attested to the truth, accuracy and completeness of the claim information. These forms MUST be maintained for a period of five years. This information must be furnished to the agency, the DHH Secretary, or the Medicaid Fraud Control Unit upon request.

Required Certification forms may be obtained from lamедicaid.com under the EDI Certification Notices and Forms HIPAA Information Center link. The required forms are also available in both the General EDI Companion Guide and the EMC Enrollment Packet.

Failure to submit the Annual Certification Form will result in deactivation of the submitter number. Once the Cert is received, the number will be reactivated. There will be a delay if the number is deactivated thus preventing timely payment to your providers. Failure to correctly complete the Certification Form will result in the form being returned for correction.

To contact the EMC Department at Unisys, call (225) 216-6000 and select option 2. Providers may write to Unisys EMC Department, P.O. Box 91025, Baton Rouge, LA 70821.
Electronic Data Interchange (EDI) General Information

Please review the entire General EDI Companion Guide before completing any forms or calling the EMC Department.

The following claim types may be submitted as approved HIPAA compliant 837 transactions:

- Pharmacy
- Hospital Outpatient/Inpatient
- Physician/Professional
- Home Health
- Emergency Transportation
- Adult Dental
- Dental Screening
- Rehabilitation
- Crossover A/B

The following claims types may be submitted under proprietary specifications (not as HIPAA-compliant 837 transactions):

- Case Management services
- Non-Ambulance Transportation

Any number of claims can be included in production file submissions. There is no minimum number.

EDI Testing is required for all submitters (including KIDMED) before they are approved to submit claims for production unless the testing requirement has been completed by the Vendor. LTC providers must test prior to submission to production.

Case Management Services and Non-Ambulance Transportation submitters who file via modem MUST wait 24 hours, excluding weekends, between file submissions to allow time for processing.

Enrollment Requirements For EDI Submission

- **Submitters wishing to submit EDI 837 transactions without using a Third Party Biller** - complete the PROVIDER'S ELECTION TO EMPLOY ELECTRONIC MEDIA SUBMISSION OF CLAIMS (EMC Contract).

- **Submitters wishing to submit EDI 837 transactions through a Third Party Biller or Clearinghouse** – complete the PROVIDER'S ELECTION TO EMPLOY ELECTRONIC MEDIA SUBMISSION OF CLAIMS (EMC Contract) and a Limited Power of Attorney.

- **Third Party Billers or Clearinghouses** (billers for multiple providers) are required to submit a completed HCFA 1513 – Disclosure of Ownership form and return it with a completed EMC Contract and a Limited Power of Attorney for their first client to Unisys Provider Enrollment.
Enrollment Requirements For 835 Electronic Remittance Advices

- All EMC billers have the option of signing up for 835 Transactions (Electronic Remittance Advice). This allows EMC billers to download their remittance advices weekly.

- 835 Transactions may not contain all information printed on the hardcopy RA, ex. blood deductible, patient account number, etc.

- To request 835 Transactions – Electronic Remittance Advice, contact Unisys EMC Department at (225) 216-6000 ext. 2.

Electronic Adjustments/Voids

Adjustments and voids can be submitted electronically. If your present software installation does not offer this option, please contact your software vendor to discuss adding this capability to your software.

SUBMISSION DEADLINES
Regular Business Weeks

- Magnetic Tape and Diskettes 4:30 P.M. each Wednesday
- KIDMED Submissions (All Media) 4:30 P.M. each Wednesday
- Telecommunications (Modem) 10:00 A.M. each Thursday

Thanksgiving Week

- Magnetic Tape and Diskettes 4:30 P.M. Tuesday, 11/21/06
- KIDMED Submissions 4:30 P.M. Tuesday, 11/21/06
- Telecommunications (Modem) 10:00 A.M. Wednesday, 11/22/06

Important Reminders For EMC Submission

Denied claims may be resubmitted electronically unless the denial code states otherwise. This includes claims that have produced a denied claim turnaround document (DTA). Claims with attachments must be submitted hardcopy.

- If errors exist on a file, the file may be rejected when submitted. Errors should be corrected and the file resubmitted for processing.

- The total amount of the submitted file must equal the amount indicated on the Unisys response file.

- All claims submitted must meet timely filing guidelines.
COMMUNITYCARE

Program Description

CommunityCARE is operated as a State Plan option as published in the Louisiana Register volume 32: number 3 (March 2006). It is a system of comprehensive health care based on a primary care case management (PCCM) model. CommunityCARE links Medicaid eligibles with a primary care physician (PCP) that serves as their medical home.

Recipients

Participation in the CommunityCARE program is mandatory for most Medicaid eligibles. Currently, seventy-five to eighty percent of all Medicaid eligibles are linked to a primary care provider. Recipients not linked to a CommunityCARE PCP may continue to receive services without a referral/authorization just as they did before CommunityCARE. Those recipient types that are EXEMPT from participation in CommunityCARE, and will not be linked to a PCP, are listed below. (This list is subject to change):

- Residents of long term care nursing facilities, psychiatric facilities, or intermediate care facilities for the mentally retarded (ICF/MR) such as state developmental centers and group homes
- Recipients who are 65 or older
- Recipients with Medicare benefits, including dual eligibles
- Foster children or children receiving adoption assistance
- Hospice recipients
- Office of Youth Development recipients (children in State custody)
- Recipients in the Medicaid physician/pharmacy ‘Lock-In’ program (recipients that are pharmacy-only ‘Lock-In’ are not exempt)
- Recipients who have other primary insurance with physician benefits, including HMOs
- Recipients who have an eligibility period of less than 3 months
- Recipients with retroactive only eligibility (CommunityCARE does not make retroactive linkages)
- BHSF case-by-case approved “Medically High Risk” exemptions
- Native American Indians residing in parish of reservation (currently Jefferson Davis, St. Mary, LaSalle and Avoyelles parishes)
- Recipients in pregnant woman eligibility categories
- Recipients in the PACE program
- SSI recipients under the age of 19
- Recipients under the age of 19 in the NOW and Children’s Choice waiver programs

CommunityCARE enrollees are identified under the CommunityCARE segment of REVS, MEVS and the online verification system through the Unisys website – www.lamedicaid.com. This segment gives the name and telephone number of the linked PCP.
Primary Care Physician

As part of the PCPs’ care coordination responsibilities they are obligated to ensure that referral authorizations for medically necessary healthcare services which they can not/do not provide are furnished promptly and without compromise to quality of care. The PCP shall not unreasonably withhold or deny valid requests for referrals/authorizations that are made in accordance with CommunityCARE policy. The PCP also shall not require that the requesting provider complete the referral authorization form. The State encourages PCPs to issue appropriately requested referrals/authorizations as quickly as possible, taking into consideration the urgency of the enrollee’s medical needs, not to exceed a period of 10 days. Although this time frame was designed to provide guidance for responding to requests for post-authorizations, we encourage PCPs to respond to requests sooner than 10 days if possible. Deliberately holding referral authorizations until the 10th day just because the PCP has 10 days is inappropriate.

The PCP referral/authorization requirement does not replace other Medicaid policies that are in existence. For example, if the service requires prior authorization, the provider must still obtain prior authorization in addition to obtaining the referrals/authorizations from the PCP.

The Medicaid covered services, which do not require authorization referrals from the CommunityCARE PCP, are “exempt.” The current list of exempt services is as follows:

- Chiropractic service upon KIDMED referrals/authorizations, ages 0-21
- Dental services for children, ages 0-21 (billed on the ADA claim form)
- Dental Services for Pregnant Women (ages 21-59), billed on the ADA claim form
- Dentures for adults
- The three higher level (CPT 99283, 99284, 99285) emergency room visits and associated physician services (NOTE: The two lower level Emergency room visits (CPT 99281, 99282) and associated physician services do not require prior authorization, but do require POST authorization. Refer to “Emergency Services” in the CommunityCARE Handbook
- Inpatient Care that has been pre-certed (this also applies to public hospitals even without pre-certification for inpatient stays): hospital, physician, and ancillary services billed with inpatient place of service.
- EPSDT Health Services – Rehabilitative type services such as occupational, physical and speech/language therapy delivered to EPSDT recipients through schools or early intervention centers or the EarlySteps program
- Family planning services
- Prenatal/Obstetrical services
- Services provided through the Home and Community-Based Waiver programs
- Targeted case management
- Mental Health Rehabilitation(privately owned clinics)
- Mental Health Clinics(State facilities)
- Neonatology services while in the hospital
- Ophthalmologist and Optometrist services (age 0-21)
- Pharmacy
- Inpatient Psychiatric services (distinct part and freestanding psychiatric hospital)
- Psychiatrists services
- Transportation services
- Hemodialysis
- Hospice services
- Specific outpatient laboratory/radiology services
- Immunization for children under age 21 (Office of Public Health and their affiliated providers)
- WIC services (Office of Public Health WIC Clinics)
- Services provided by School Based Health Centers to recipients age 10 and over
- Tuberculosis clinic services (Office of Public Health)
- STD clinic services (Office of Public Health)
- Specific lab and radiology codes

**Non-PCP Providers and Exempt Services**

Any provider other than the recipient’s PCP must obtain a referral from the recipient’s PCP, **prior to rendering services**, in order to receive payment from Medicaid. Any provider who provides a non-exempt, non-emergent (routine) service for a CommunityCARE enrollee, without obtaining the appropriate referral/authorization prior to the service being provided risks non-payment by Medicaid. **DHH and Unisys will not assist providers with obtaining referrals/authorizations for routine/non-urgent care not requested in accordance with CommunityCARE policy.** PCPs are not required to respond to requests for referrals/authorizations for non-emergent/routine care not made in accordance with CommunityCARE policy: i.e. requests made after the service has been rendered.

When a patient is being discharged from the hospital it is the responsibility of the discharging physician/hospital discharge planner to coordinate with the patient’s PCP to obtain the appropriate referral/authorization for any follow-up services the patient may need after discharge (i.e. Durable Medical Equipment (DME) or home health). Neither the home health nor DME provider can receive reimbursement from Medicaid without the appropriate PCP referral/authorization. **The DME and home health provider must have the referral/authorization in hand prior to rendering the services.**

**General Assistance – all numbers are available Mon-Fri, 8am-5pm**

**Providers:**

Unisys - (800) 473-2783 or (225) 924-5040 - CommunityCARE Program policy, procedures, and problems, complaints concerning CommunityCARE

ACS - (800) 259-4444 PCP - assignment for CommunityCARE recipients, inquiries related to monitoring, certification

ACS - (877) 455-9955 – Specialty Care Resource Line - assistance with locating a specialist in their area who accepts Medicaid.
Enrollees:

Medicaid provides several options for enrollees to obtain assistance with their Medicaid enrollment. Providers should make note of these numbers and share them with recipients.

- CommunityCARE Enrollee Hotline (800) 259-4444: Provides assistance with questions or complaints about CommunityCARE or their PCP. It is also the number recipients call to select or change their PCP.

- Specialty Care Resource Line (877) 455-9955: Provides assistance with locating a specialist in their area who accepts Medicaid.

- CommunityCARE Nurse Helpline (866) 529-1681: Is a resource for recipients to speak with a nurse 24/7 to obtain assistance and information on a wide array of health-related topics.

</table>

PLEASE NOTE: when a provider submits a claim, which has more than one page of procedures and charges, each claim page must be totaled and attachments must be submitted with each page of the claim.
CLAIMS PROCESSING REMINDERS

Unisys Louisiana Medicaid images and stores all Louisiana Medicaid paper claims on-line. This process allows the Unisys Provider Relations Department to respond more efficiently to claim inquiries by facilitating the retrieval and research of submitted claims.

If claims cannot be submitted electronically, prepare paper claim forms according to the following instructions to ensure appropriate and timely processing:

- Submit an original claim form whenever possible. Do not submit carbon copies under any circumstances. If you must submit a photocopy, ensure that it is legible, and not too light or too dark.
- Enter information within the appropriate boxes and align forms in your printer to ensure the correct horizontal and vertical placement of data elements within the appropriate boxes.
- Providers who want to draw the attention of a reviewer to a specific part of a report or attachment are asked to circle that particular paragraph or sentence. **DO NOT use a highlighter to draw attention to specific information.**
- Paper claims must be legible and in good condition for scanning into our document imaging system.
- **Don’t forget to sign and date your claim form. Unisys will accept stamped or computer-generated signature, but they must be initialed by authorized personnel.**
- Continuous feed forms must be torn apart before submission.
- Use high quality printer ribbons or cartridges-black ink only.
- Use 10-12 point font sizes. We recommend font styles Courier 12, Arial 11, and Times New Roman 11.
- Do not use italic, bold, or underline features.
- Do not submit two-sided documents.
- Do not use a marking pen to omit claim line entries. Use a black ballpoint pen (medium point).

The recipient’s 13-digit Medicaid ID number must be used to bill claims. The CCN number from the plastic card is NOT acceptable.
Attachments

All claim attachments should be standard 8½ x 11 sheets. Any attachments larger or smaller than this size should be copied onto standard sized paper. If it is necessary to attach documentation to a claim, the documents must be placed directly behind each claim that requires this documentation. Therefore, it may be necessary to make multiple copies of the documents if they must be placed with multiple claims.

Changes to Claim Forms

Louisiana Medicaid policy prohibits Unisys staff from changing any information on a provider’s claim form. Any claims requiring changes must be made prior to submission. Please do not ask Unisys staff to make any changes on your behalf.

Data Entry

Data entry clerks do not interpret information on claim forms—data is keyed as it appears on the claim form. If the data is incorrect, or IS NOT IN THE CORRECT LOCATION, the claim will not process correctly.

Rejected Claims

Unisys currently returns claims that are illegible or incomplete. These claims are not processed and are returned along with a cover letter stating why the claim(s) is/are rejected. During 2005, Unisys returned 273,291 rejected claims to providers. The most common reasons for rejection are listed as follows:

- A signature or handwritten initials were missing
- The recipient number was invalid or missing
- The provider # was missing or incomplete

The criteria for legible claims are:

- All claim forms are clear and in good condition
- All information is readable to the normal eye
- All information is centered in the appropriate block
- All essential information is complete
**IMPORTANT UNISYS ADDRESSES**

Please be aware that **different post office boxes** are used for the various Medicaid programs. If you are submitting an original "clean" hard copy claim for payment or adjustments/voids, please utilize the following post office boxes and zip codes.

TIMELY FILING GUIDELINES

In order to be reimbursed for services rendered, all providers must comply with the following filing limits set by Medicaid of Louisiana:

• Straight Medicaid claims must be filed within 12 months of the date of service.

• KIDMED screening claims (KM-3 forms or 837P with K-3 segment) must be filed within 60 days from the date of service.

• Claims for recipients who have Medicare and Medicaid coverage must be filed with the Medicare fiscal intermediary within 12 months of the date of service in order to meet Medicaid's timely filing regulations.

• Claims which fail to cross over via tape and have to be filed hard copy MUST be adjudicated within six months from the date on the Medicare Explanation of Medicare Benefits (EOMB), provided that they were filed with Medicare within one year from the date of service.

• Claims with third-party payment must be filed to Medicaid within 12 months of the date of service.

Dates of Service Past Initial Filing Limit

Medicaid claims received after the initial timely filing limits cannot be processed unless the provider is able to furnish proof of timely filing. Such proof may include the following:

A Claims Status Inquiry (e-CSI) screen print indicating that the claim was processed within the specified time frame.

OR

A Remittance Advice indicating that the claim was processed within the specified time frame.

OR

Correspondence from either the state or parish Office of Eligibility Determination concerning the claim and/or the eligibility of the recipient.

NOTE 1: All proof of timely filing documentation must reference the individual recipient and date of service. RA pages and e-CSI screen prints must contain the specific recipient information, provider information, and date of service to be considered as proof of timely filing.

NOTE 2: At this time Louisiana Medicaid does not accept printouts of Medicaid Electronic Remittance Advice (ERA) screens as proof of timely filing. Reject letters are not considered proof of timely filing as they do not reference a specific
individual recipient or date of service. Postal “certified” receipts and receipts from other delivery carriers are not acceptable proof of timely filing.

To ensure accurate processing when resubmitting the claim and documentation, providers must be certain that the claim is legible.

**Submitting Claims for Two-Year Override Consideration**

Providers requesting two-year overrides for claims with dates of service over two years old must provide proof of timely filing and must assure that each claim meets at least one of the three criteria listed below:

- The recipient was certified for retroactive Medicaid benefits, and the claim was filed within 12 months of the date retroactive eligibility was granted.
- The recipient won a Medicare or SSI appeal in which he or she was granted retroactive Medicaid Benefits.
- The failure of the claim to pay was the fault of the Louisiana Medicaid Program rather than the provider’s each time the claim was adjudicated.

All provider requests for two-year overrides must be mailed directly to:

**Unisys Provider Relations Correspondence Unit**

P.O. Box 91024
Baton Rouge, La 70821

The provider must submit the claim with a cover letter describing the criteria that has been met for consideration along with all supporting documentation. Supporting documentation includes but is not limited to proof of timely filing and evidence of the criteria met for consideration.

Claims submitted without a cover letter, proof of timely filing, and/or supporting documentation will be returned to the provider without consideration. Any request submitted directly to DHH staff will be routed to Unisys Provider Relations.
PROVIDER ASSISTANCE

Many of the most commonly requested items from providers including, but not limited to, the Field Analyst listing, RA messages, Provider Updates, preferred drug listings, general Medicaid information, and program training packets are available online at www.lamedicaid.com.

UNISYS PROVIDER RELATIONS TELEPHONE INQUIRY UNIT

The telephone inquiry staff assists with inquiries such as obtaining policy and procedure/information/clarification, ordering printed material, requesting a Field Analyst visit, etc., and may be reached by calling:

(800) 473-2783 or (225) 924-5040*
FAX: (225) 216-6334**

*Please listen to the menu options and press the appropriate key for assistance.

NOTE: Providers should access eligibility information via the Medicaid Eligibility Verification System (MEVS) or the automated Recipient Eligibility Verification System (REVS) at (800)776-6323 or (225)216-7387. Providers may also check eligibility by accessing the web-based application, e-MEVS, now available on the Louisiana Medicaid website. Questions regarding an eligibility response may be directed to Provider Relations.

**Provider Relations will accept faxed information regarding provider inquiries on an approved case by case basis. However, faxed claims are not acceptable for processing.

UNISYS PROVIDER RELATIONS CORRESPONDENCE GROUP

The Provider Relations Correspondence Unit is available to research and respond in writing to questions involving problem claims.

All requests to the Correspondence Unit should be submitted to the following address:

Unisys Provider Relations Correspondence Unit
P. O. Box 91024
Baton Rouge, LA  70821

NOTE: All correspondence sent to Provider Relations, including recipient file updates, must include a separate cover letter explaining the problem or question, a copy of the claim(s), and all pertinent documentation (e.g., copies of RA pages showing prior denials, recipient chart notes, copies of previously submitted claims, documentation verifying eligibility, etc.). A copy of the claim form along with applicable corrections and/or attachments must accompany all resubmissions.

Provider Relations staff does not have direct access to eligibility files. Requests to update recipient files are forwarded to the Bureau of Health Services Financing by the Correspondence Unit, so these may take additional time for final resolution.
Requests to update Third Party Liability (TPL) should be directed to:

DHH-Third Party Liability  
Medicaid Recovery Unit  
P.O. Box 91030  
Baton Rouge, LA 70821

“Clean claims” should not be submitted to Provider Relations as this delays processing. Please submit “clean claims” to the appropriate P.O. Box. A complete list is available in this training packet under “Unisys Claims Filing Addresses”.

**NOTE:** CLAIMS RECEIVED WITHOUT A COVER LETTER WILL BE CONSIDERED “CLEAN” CLAIMS AND WILL NOT BE RESEARCHED.

**UNISYS PROVIDER RELATIONS FIELD ANALYSTS**

Upon request, Provider Relations Field Analysts are available to visit and train new providers and their office staff on site. Providers are encouraged to request Analyst assistance to help resolve complicated billing/claim denial issues and to help train their staff on Medicaid billing procedures. However, since Field Analysts routinely work in the field, they are not available to answer calls regarding eligibility, routine claim denials, and requests for printed material, or other policy documentation. These calls should be directed to the Unisys Provider Relations Telephone Inquiry Unit at (800) 473-2783 or (225) 924-5040.

</tbody>
</table>

**NOTE:** Providers should not give their provider numbers to recipients for the purpose of contacting Unisys. Recipients with a provider number may be able to obtain information regarding the provider (last check date and amount, amounts paid to the provider, etc.) that would normally remain confidential.
The newest way to obtain general and specific Medicaid information is on our Louisiana Medicaid Provider Website:

www.lamedicaid.com

This website has several applications that should be used by Louisiana Medicaid providers. These applications require that providers establish an online account for the site.

**Provider Login And Password**

To ensure appropriate security of recipient’s patient health information (PHI) and provider’s personal information, the secure area of the web site is available to providers only. It is the responsibility of each provider to become “Web Enrolled” by obtaining a login and password for this area of the site to be used with his/her provider number. Once the login and password are obtained by the provider who “owns” the provider number, that provider may permit multiple users to login using the provider number. This system allows multiple individuals to login using the same login and password OR a provider may have up to 500 individual logins and passwords established for a single provider number. The administrative account rights are established when a provider initially obtains a login and password, and should remain with the provider or designated office staff employed by the provider.

A login and password may be obtained by using the link, Provider Web Account Registration Instructions. Should you need assistance with obtaining a login and password or have questions about the technical use of the application, please contact the Unisys Technical Support Desk at 877-598-8753.

Unisys has received inquiries from billing agents/vendors attempting to access this web application. DHH and CMS Security Policy restrictions will not permit Unisys to allow access of this secure application to anyone except the owner of the provider number being used for accessing the site. In cases where an outside billing agent/vendor is contracted to submit claims on behalf of a provider, any existing business partner agreement is between the provider and the billing agent/vendor. Unisys may not permit anyone except the provider to receive or ask for information related to a login and password to access secured information.
Web Applications

There are a number of web applications available on the Medicaid website, however, the following applications are the most commonly used:

- Medicaid Eligibility Verification System (e-MEVS) for recipient eligibility inquiries; and
- Claims Status Inquiry (e-CSI) for inquiring on claims status; and
- Clinical Data Inquiry (e-CDI) for inquiring on recipient pharmacy prescriptions as well as other medical claims data; and
- Prior Authorization (e-PA) for requesting prior authorizations electronically.

These applications are available to providers 24 hours a day, 7 days a week at no cost.

e-MEVS:

Providers can now verify eligibility, primary insurance information, and service limits for a Medicaid recipient using this web application accessed through www.lamedicaid.com. This application provides eligibility verification capability in addition to MEVS swipe card transactions and REVS. An eligibility request can be entered via the web for a single recipient and the data for that individual will be returned on a printable web page response. The application is to be used for single individual requests and cannot be used to transmit batch requests.

Since its release, the application has undergone some cosmetic and informational changes to make it more user-friendly and allow presentation of more complete, understandable information.

e-CSI:

Providers wishing to check the status of claims submitted to Louisiana Medicaid should use this application. We are required to use HIPAA compliant denial and reference codes and descriptions for this application. If the information displayed on CSI is not specific enough to determine the detailed information needed to resolve the claim inquiry, refer to the hard copy remittance advice. The date of the remittance advice is displayed in the CSI response. The hard copy remittance advice continues to carry the Louisiana specific error codes. Providers must ensure that their internal procedures include a mechanism that allows those individuals checking claims statuses to have access to remittance advices for this purpose. A LA Medicaid/HIPAA Error Code Crosswalk is available on this website by accessing the link, Forms/Files.

Once enrolled in the website, all active providers, with the exception of “prescribing only” providers, have authorization to utilize the e-CSI application.
e-CDI:

The e-CDI application provides a Medicaid recipient’s essential clinical history information at the authorized practitioner’s finger tips at any practice location.

The nine (9) clinical services information components are:

1. Clinical Drug Inquiry
2. Physician/EPSDT Encounters
3. Outpatient Procedures
4. Specialist Services
5. Ancillary Services
6. Lab & X-Ray Services
7. Emergency Room Services
8. Inpatient Services
9. Clinical Notes Page

This information is updated on a monthly basis, with the exception of the Clinical Drug Inquiry, which is updated on a daily basis. The Clinical Drug Inquiry component will provide clinical historical data on each Medicaid recipient for the current month, prior month, and prior four months. All other components will provide clinical historical data within a six-month period. These updates are based on Medicaid claims history. A print-friendly version of the information on each of the web pages will be accessible and suitable for the recipient’s clinical chart.

The major benefits of the use of e-CDI by the practitioner will include:

1. Displays a list of all services (i.e. drugs, procedures, MD visits, etc.) by all providers that have provided services to each individual recipient.
2. Provides the practitioner rapid access to current clinical data to help him/her evaluate the need for “modifications” of an individual Medicaid recipient’s health care treatment.
3. Promotes the deliberate evaluation by a practitioner to help prevent duplicate drug therapy and decreases the ordering of duplicate laboratory tests, x-ray procedures, and other services.
4. Supplies a list of all practitioner types providing health care services to each Medicaid recipient.
5. Assists the practitioner in improving therapeutic outcomes and decreasing health care costs.

e-PA

The Electronic Prior Authorization (e-PA) Web Application has been developed for requesting prior authorizations electronically. E-PA is a web application found on the [www.lamedicaid.com](http://www.lamedicaid.com) website and provides a secure web based tool for providers to submit prior authorization requests and to view the status of previously submitted requests. This application is currently restricted to the following prior authorization types:

01 – Inpatient
05 – Rehabilitation
06 – Home Health
09 – DME
14 – EPSDT PCS
99 - Other
Providers who do not have access to a computer and/or fax machine will not be able to utilize the web application. However, prior authorization requests will continue to be accepted and processed using the current PA hard-copy submission methods.

NOTE: Dental electronic Prior authorization (e-PA) Web Application to be implemented at a later date. In order to utilize the Dental e-PA Web Application, the dental provider will be required to obtain the services of a vendor to submit the electronic attachment information to Medicaid. Complete Dental e-PA instructions will be provided upon implementation of Dental e-PA.

**Reminders:**

**PA Type 01:** Outpatient Ambulatory Surgery performed Inpatient on the first or second day of the stay. This is only for State Operated hospitals and Out-of-State hospitals that have a DHH approval letter for the out of state stay. Use ICD-9-CM procedure codes.

**PA Type 99:** Outpatient Ambulatory Surgery (CPT procedures) performed Inpatient on the first or second day of the stay. The surgery was performed at a State Operated hospital and Out-of-State hospital that has a DHH approval letter for the out of state stay. This is also used for specialized CPT procedures. This is for professional services only.

**PA Type 05:** Providers must always submit the PA02 Form with each request. Do not request authorization for the evaluation procedures, these do not require prior approval. Submit only units on the e-PA transaction, Do Not submit dollar amounts.

**Home Health Providers** submitting Rehab Services should use PA Type 05 and **PA Type 09** when submitting DME Services.

**PA Type 09:** When submitting a request with a miscellaneous procedure code, the provider must submit a PA01 Form with the description of the item they are requesting.

NO EMERGENCY REQUEST CAN BE SUBMITTED VIA e-PA.

RECONSIDERATION REQUESTS (RECONS) CANNOT BE SUBMITTED VIA THE e-PA WEB APPLICATION AND SHOULD BE SUBMITTED USING THE EXISTING PROCESS.

PHARMACY SERVICES

Prior Authorization

The prescribing provider must request prior authorization for non-preferred drugs from the University of Louisiana – Monroe. Prior authorizations requests can be obtained by phone, fax, or mail, as listed below.

Contact information for the Pharmacy Prior Authorization department:

Phone:  (866) 730-4357   (8 a.m. to 6 p.m., Monday through Saturday)
FAX:    (866) 797-2329

University of Louisiana – Monroe
School of Pharmacy
1401 Royal Avenue
Monroe, LA  71201

The following page includes a copy of the “Request for Prescription Prior Authorization” form, as can be found on the LAMedicaid.com website under “Rx PA Fax Form”.

Preferred Drug List (PDL)

The most current PDL can be found on the LAMedicaid.com website.

Monthly Prescription Service Limit

An eight-prescription limit per recipient per calendar month has been implemented in the LA Medicaid Pharmacy Program.

The following federally mandated recipient groups are exempt from the eight-prescription monthly limitation:

- Persons under the age of twenty-one (21) years
- Persons living in long term care facilities such as nursing homes and ICF-MR facilities
- Pregnant women

If it is deemed medically necessary for the recipient to receive more than eight prescriptions in any given month, the provider must write “medically necessary override” and the ICD-9-CM diagnosis code that directly relates to each drug prescribed on the prescription.
### Request for Prescription Prior Authorization

Please answer the following questions for your request to prescribe a non-preferred drug for your patient: *

1. Has the patient experienced treatment failure with the preferred product(s)?
   - [ ] YES
   - [ ] NO

2. Does the patient have a condition that prevents the use of the preferred product(s)?
   - [ ] YES
   - [ ] NO
   
   If YES, list the condition(s) in the box below:

3. Is there a potential drug interaction between another medication and the preferred product(s)?
   - [ ] YES
   - [ ] NO
   
   If YES, list the interaction(s) in the box below:

4. Has the patient experienced intolerable side effects while on the preferred product(s)?
   - [ ] YES
   - [ ] NO
   
   If YES, list the side effects in the box below:

**Practitioner Signature:** *

(If a signature stamp is used, then the prescribing practitioner must initial the signature)

\(X\) = Required at visit for this age

\(S\) = Subjective by history

\(O\) = Objective by Medicaid – approved standard testing method

\(---\) = One test must be administered during this time frame

---

\(^{11}\) Baseline lab and developmental screening must be done at the initial medical screening on all children under age six.

\(^{12}\) The newborn screening examination at birth must occur prior to hospital discharge.

\(^{13}\) The physical examination/assessment must be unclothed or undraped and include all body systems.

\(^{14}\) The state health department immunization schedule must be followed per AAP recommendations.

\(^{15}\) If done less than 48 hours after birth, neonatal screening must be repeated.

\(^{16}\) Anemia screening is to be done once between 9 and 12 months or earlier if medically indicated, one year to four years, five years to 12 years, and between 13 and 20 years.

\(^{17}\) Urine testing (dipstick) is to be done once between one and four years, (as soon as toilet trained), five to 12 years, and between 13 and 20 years.

\(^{18}\) Anticipatory guidance and verbal risk assessment for lead must be done at every medical screening.

\(^{19}\) Screening beginning at six months corresponds to CDC guidelines. The frequency of screening using the blood lead test depends on the result of the verbal risk assessment.

\(^{20}\) Health education must include anticipatory guidance and interpretive conference. Youth, ages 12 through 20, must receive more intensive health education which addresses psychological issues, emotional issues, substance usage, and reproductive health issues at each screening visit.

</tbody>
</table>

* indicates the vaccine is available from the Vaccines For Children (VFC) program
^ indicates the vaccine is payable for QMB Only and QMB Plus recipients
APPENDIX E
Universal Screening Documentation Tools – Optional

A universal screening documentation tool is one that can be used at the screening provider’s option. The tool is attached. This tool should be completed thoroughly and accurately to ensure all components of a screening are documented. Providers should be familiar with the program requirements of a screening as explained in the KIDMED provider manual. Any additional information necessary to support the screening should also be found in the patient’s chart. This tool was designed to incorporate necessary items for a screening in a clear, concise manner. **We are not requiring this tool to be used; it is for your convenience, only.**

However, any tool used must document that all five components of a medical screening as stated in the KIDMED manual, were completed. Program compliance reviews will look for such documentation. Furthermore, be aware that the same documentation applies to a “well-child” visit which must also conform to the requirements mandatory for a KIDMED screening. If you do not wish to use this documentation, you may develop your own.
## INITIAL SCREENING

**BIRTH THROUGH 5 YEARS**

### Patient Information

- **Name:** [Patient Name]
- **Age:** [Age]

- Hobbies & Sports
- Family/Peer Relationship
- School/Job Performance

**Physical Exam**

- Normal (✓)
- Abnormal (Describe)

1. Cranium/Face
2. Hair/Scalp
3. EENT
4. Mouth/Teeth
5. Skin/Lymph Nodes
6. Heart
7. Lungs
8. Abdomen
9. Genitilia
10. Musculoskeletal System
11. Extremities
12. Nervous System

**Vision Screen**

- Subjective: any eye disorder
- F.H.O. eye disorder
- Wear glasses

- Objective: Visual acuity
- Muscle Balance
- Color Perception

- Hearing Screen
- Subjective: response to voices
- Delayed speech development
- Recurrent O.M.
- Hearing 20 db HL

- Right Ear
- Left Ear

**Laboratory**

- Hct or Hgb: WNL
- Urea Nitrogen: WNL
- T. P. R.

**Age:**

**Labs**

- Urea Nitrogen: WNL
- T. P. R.

**Urine Dipstick**

- WNL
- UTD
- UTO

**Immunization Status**

- Immunizations current
- Off Schedule
- Medication Contraindicated
- Parental Refusal
- Explain

**Plan or Referral**

- 1. Interimative Conference Conducted

**Environmental Assessment**

- Water supply: City Well None
- Sewer system: City Septic None
- Smokers in the home?
- Pets in home? List:

**Nutritional Assessment**

- Special Diet
- Vitamins/Supplements
- Growth Chart

**Dental Assessment**

- Any Dental Disease
- Dental Caries
- Brush Teeth Regularly

APPENDIX G
Check List for Use Prior to Mailing a Medicaid Dental Prior Authorization Request  
(Print or copy this page for your convenience)

The information provided below will help you prevent errors frequently made when completing a Medicaid dental prior authorization (PA) request. For complete dental prior authorization guidelines, refer to pages 16-6 through 16-9 of the Dental Services Manual dated May 1, 2003.

☐ Are you using the 2002 American Dental Association (ADA) Claim Form or the 2002, 2004 ADA Claim Form when submitting a request to Medicaid for dental prior authorization? (Only these versions are accepted.)

☐ Have you provided two identical copies of each ADA claim form being submitted?

☐ Has any information been placed in the upper right-hand corner of the claim (above the box labeled “Primary Subscriber Information”)? (This area is for Medicaid use only and must be left blank.)

☐ Are you certain that the claim form is properly completed with provider name, group, and individual provider number, current provider address and phone number, recipient name and date of birth, etc.? (Each claim form submitted for dental prior authorization should be fully completed using the ADA Claim Form instructions on page 50 of this document. If a service has not been delivered at the time of the request, leave the date of service blank. If a service has already been delivered, enter the correct date of service on the claim form.

☐ Have you grouped together on the first lines of the claim form all services requiring prior authorization? (Procedures that will be rendered and do not require prior authorization should be listed on the ADA claim form after those services requiring prior authorization so that the reviewer understands the full treatment plan.)

☐ Have you provided an explanation or reason for treatment in the remarks section of the claim form if the reason is not obvious from the radiographs? (Be certain to include the remarks on the same ADA claim form in which the treatment is being requested.)

☐ Have you included bitewing radiographs and any other required radiographs?

☐ Are the radiographs mounted so that each individual film is readily viewable and does the doctor’s name, patient’s name, and the date of the films appear on the mounting? (Radiographs MUST be mounted and MUST contain the identified information.)

☐ Are the mounted radiographs on the top of the EPSDT Dental Program the Adult Denture Program claims? (The mounted radiographs MUST be on the top of the claim for prior authorization for these programs.)

☐ Is a single copy of the BHSF Form 9-M on top of the request, followed by the mounted radiographs and then the claim for the Expanded Dental Services for Pregnant Women (EDSPW) Program requests? (Placing the Form 9-M as the first page of an EDSPW request will help to identify it as related to an adult pregnant woman.)

☐ Have you submitted the panoramic radiograph, if one has been taken, along with the request for post-authorization of the radiograph and included any additional services requiring prior authorization on the same claim form?

☐ Have you stapled all pages (and the mounted radiographs) for a single recipient with a SINGLE staple in the upper left-hand corner? (Using a single staple will expedite the request. Paper clips should be not used.)

☐ Have you separated the dental prior authorization requests by program type (EPSDT Dental Program, Expanded Dental Services for Pregnant Women (EDSPW) Program, and Adult Denture Program and placed each program type in a separate package/envelope?

☐ Are you mailing to LSU Dental School, Dental Medicaid Unit, P.O. Box 80159, B.R. LA 70898-0159?

NOTE: It is the dental provider’s responsibility to obtain a dental prior authorization on behalf of the patient. If a dental provider has not received a dental prior authorization decision (or other related correspondence from the Dental Medicaid Unit) within 25 days from the date of submission, it is the provider’s responsibility to contact the Dental Medicaid Unit at 225-216-6470 to inquire on the status of the prior authorization request. The provider should NEVER instruct the patient to contact Medicaid regarding the dental prior authorization request.
APPENDIX H
EPSDT DENTAL PROGRAM FEE SCHEDULE

All procedures listed in the EPSDT Dental Program Fee Schedule are subject to the guidelines, policies and limitations of the Louisiana Medicaid EPSDT Dental Program. Please refer to the EPSDT Dental Program section of the Dental Services Manual for complete guidelines, policies and limitations for each procedure.

All services marked with an asterisk (*) in the code column require prior authorization.

All services marked with an underscored asterisk (*) in the code column requires partial prior authorization. Prior authorization requirements for these procedures are based on tooth number or age of recipient.

All services marked with a number sign (#) in the code column for the EPSDT Dental Program require a tooth number or letter to be specified on the claim form for payment requests and prior authorization requests if required.

All services marked with a plus sign (+) in the code column for the EPSDT Dental Program require an oral cavity designator to be specified on the claim form for payment requests and prior authorization requests if required.

Fees marked with a check mark (✓) in the fee column denotes fee for permanent tooth.

All fees marked with 5 asterisks (***** in the fee column will be priced manually by the dental consultant.
**EPSDT DENTAL PROGRAM FEE SCHEDULE**

*NOTE: The individual reimbursements are not listed as RHCs and FQHCs are reimbursed an encounter rate for dental services.*

### EPSDT DENTAL PROGRAM RESTORATIVE PROCEDURE CODES

<table>
<thead>
<tr>
<th>CODE</th>
<th>DESCRIPTION</th>
</tr>
</thead>
</table>
| #D2140 | Amalgam, One Surface, Primary or Permanent  
This procedure is reimbursable for Tooth Number 1 through 32 and Tooth Letters A through T. However, this Procedure is reimbursable for Tooth Letters D, E, F, G, N, O, P and Q only if the recipient is under 4 years of age. |
| #D2150 | Amalgam, Two Surfaces, Primary or Permanent  
This procedure is reimbursable for Tooth Number 1 through 32 and Tooth Letters A through T. However, this Procedure is reimbursable for Tooth Letters D, E, F, G, N, O, P and Q only if the recipient is under 4 years of age. |
| #D2160 | Amalgam, Three Surfaces, Primary or Permanent  
This procedure is reimbursable for Tooth Number 1 through 32 and Tooth Letters A through T. However, this Procedure is reimbursable for Tooth Letters D, E, F, G, N, O, P and Q only if the recipient is under 4 years of age. |
| #D2161 | Amalgam, Four or More Surfaces, Permanent  
This procedure is reimbursable for Tooth Number 1 through 32. |
| #D2330 | Resin-based Composite, One Surface, Anterior  
This procedure is reimbursable for Tooth Number 6 through 11 and 22 through 27. This procedure is reimbursable for Tooth Letters C, H, M and R regardless of age; and Tooth Letters D, E, F, G, N, O, P and Q only if the recipient is under 4 years of age. |
| #D2331 | Resin-based Composite, Two Surfaces, Anterior  
This procedure is reimbursable for Tooth Number 6 through 11 and 22 through 27. This procedure is reimbursable for Tooth Letters C, H, M and R regardless of age; and Tooth Letters D, E, F, G, N, O, P and Q only if the recipient is under 4 years of age. |
| #D2332 | Resin-based Composite, Three Surfaces, Anterior  
This procedure is reimbursable for Tooth Number 6 through 11 and 22 through 27. This procedure is reimbursable for Tooth Letters C, H, M and R regardless of age; and Tooth Letters D, E, F, G, N, O, P and Q only if the recipient is under 4 years of age. |
| #*D2335 | Resin-based Composite, Four or More Surfaces, Anterior  
This procedure is reimbursable for Tooth Number 6 through 11 and 22 through 27. This procedure is reimbursable for Tooth Letters C, H, M and R regardless of age; and Tooth Letters D, E, F, G, N, O, P and Q only if the recipient is under 4 years of age. |
| #*D2390 | Resin-based Composite Crown, Anterior  
This procedure is reimbursable for Tooth Number 6 through 11 and 22 through 27; and Tooth Letters C, H, M and R regardless of age; and Tooth Letters D, E, F, G, N, O, P and Q only if the recipient is under 4 years of age. |
| #D2920 | Replacement Crown  
This procedure is reimbursable for Tooth Number 1 through 32 and Tooth Letter A through T. |
| #*D2930 | Prefabricated Stainless Steel Crown, Primary Tooth  
This procedure is reimbursable for Tooth Letters A through T. However, this procedure is reimbursable for Tooth Letters D, E, F, G, N, O, P and Q only if the recipient is under 4 years of age. Prior Authorization is required only for Tooth Letters B, I, L, and S for recipients 8 years of age and older; and for Tooth Letters A, C, H, J, K, M, R and T for recipients 9 years of age and older. |

Note: Dental prior authorization requests and dental claims for payment must indicate tooth surface(s) when the procedure code directly involves one or more tooth surfaces.
APPENDIX I
Adult Denture Program Fee Schedule

Provided in the table on the following pages are the reimbursable dental procedure codes and fees for the Medicaid of Louisiana, Adult Denture Program.

All procedures listed in the Adult Denture Program Fee Schedule are subject to the guidelines, policies and limitations of the Medicaid of Louisiana, Adult Denture Program. Please refer to the Adult Denture Program section of the Dental Services Manual for complete guidelines, policies and limitations for each procedure.

All services marked with an asterisk (*) in the code column require prior authorization.

All services marked with a number sign (#) in the code column require a tooth number to be specified on the claim form for payment requests and prior authorization requests if required.

All services marked with a plus sign (+) in the code column require an oral cavity designator to be specified on the claim form for payment requests and prior authorization requests if required.

All fees marked with 5 asterisks (***** in the fee column will be priced manually by the dental consultant.
**ADULT DENTURE PROGRAM FEE SCHEDULE**

*NOTE: The individual reimbursements are not listed as RHCs and FQHCs are reimbursed an encounter rate for dental services.*

APPENDIX K
Medicaid Program

Referral for Pregnancy Related Dental Services
(Must Be Completed By the Medical Professional Providing Pregnancy Care)

Part I: All Items Must Be Complete

Name of Patient: ____________________________________

Street Address:_____________________________ City:_____________ Zip Code:_______

Medicaid Recipient ID #: ______________________________ 

Estimated Date of Delivery (MM/DD/YYYY):___________________________

Part II: Check (✓) All Conditions That Apply

- Bleeding Gums
- Swollen, puffy gums
- Loose teeth
- Teeth with obvious decay
- Teeth that appear longer
- Pain associated with teeth or gums
- Bad breath odor that does not go away with normal brushing
- Spaces between the teeth that were not there before
- Inability to chew or swallow properly
- Tender gums that bleed when brushing

Are there any medical or perinatal complications that the dentist should be aware of prior to the delivery of dental services? □ YES □ NO If yes, please describe below:

________________________________________________________________________

________________________________________________________________________

Is pre-medication or other medication required prior to dental treatment? □ YES □ NO (If yes, please attach a photocopy of the prescription.)

Part III: Check (✓) Any Services That Are Contraindicated

- Local Anesthetic
- Radiograph(s)
- Teeth Cleaning
- Restoration(s)
- Gum Treatment – Ultrasonic Cleaning and/or Scaling Below the Gum Line
- Extraction(s)

Part IV: Please include other comments and/or recommendations below:

________________________________________________________________________

________________________________________________________________________

I have confirmed the pregnancy with diagnostic testing for the above-named patient.

Medical Professional Signature (Required) ____________________________

Provider Type & License # _____________________________ Office Telephone # ____________ Date ____________
