Claims/authorizations for dates of service on or after October 1, 2015 must use the applicable ICD-10 diagnosis code that reflects the policy intent. References in this manual to ICD-9 diagnosis codes only apply to claims/authorizations with dates of service prior to October 1, 2015.

GLOSSARY

CLAIMS RELATED INFORMATION
OVERVIEW

The Rural Health Clinic (RHC) program was established through the Rural Health Clinic Act of 1977 to address an inadequate supply of primary health care providers who serve Medicare and Medicaid beneficiaries in rural areas. The program provides qualifying clinics located in rural and medically underserved communities with a prospective reimbursement methodology described under Section 1902(bb) of the Social Security Act.

RHCs may be either provider-based clinics or independent clinics. The provider-based RHC is considered an integral part of a rural hospital, nursing home or home health agency that is a Medicare certified provider. An independent RHC is any other clinic which meets the requirement to be classified as a RHC and is owned and operated by any entity as long as it is not operated as a rehabilitation agency or a facility primarily for care and treatment of mental diseases.

All RHC services provided by qualified individuals employed by or under contract with an RHC are billed using the organization’s provider number (e.g., RHC’s National Provider Identifier (NPI), RHC’s Medicaid ID number for each location) and Tax Identification Number (TIN).

The purpose of this chapter is to set forth the conditions and requirements that RHCs must meet in order to qualify for reimbursement under the Louisiana Medicaid program. The manual is intended to make available to Medicaid providers of RHC services a ready reference for information and procedural material needed for the prompt and accurate filing of claims for services furnished to Medicaid recipients.

The Department of Health and Hospitals, Bureau of Health Services Financing (BHSF) is responsible for assuring provider compliance with these regulations.
A rural health clinic (RHC) agrees to provide those primary care services typically included as part of a physician’s medical practice. Services and supplies that are furnished by RHC staff and are incident to the RHC professional service are considered part of the RHC service. An RHC can also provide services related to the diagnosis and treatment of mental illness, and, in certain instances, visiting nurse services.

The following RHC reimbursable services are referred to as core services:

- Physician services;
- Services and supplies incident to physician’s services;
- Physician assistant services;
- Nurse practitioners and certified nurse mid-wif e services;
- Services and supplies incident to the services of nurse practitioners, physician assistants, and certified nurse mid-wives;
- Visiting nurse services to the homebound;
- Clinical psychologist services;
- Clinical social worker services;
- Services and supplies incident to the services of clinical psychologists and clinical social workers; and
- Basic lab services.

**NOTE:** For reimbursement purposes, a service visit must be provided in order for a provider to be paid a Prospective Payment System (PPS) rate. (See Section 40.4 for more information about reimbursement)

**Physician Services**

Physician services are the professional services performed by a licensed physician for a recipient including diagnosis, therapy, surgery, and consultation.
Physician services are covered if they are professional services performed by a physician at the clinic; or performed away from the clinic if the physician has an agreement with the clinic to be paid for the services. The services must be within the scope of his/her profession under Louisiana law.

**Services and Supplies Incident to a Physician’s Professional Services**

Services and supplies incident to a licensed physician’s professional service are covered if the service or supply is furnished:

- In a physician’s office;
- Either without charge or included in the clinic’s bill;
- As an incidental, although integral, part of a physician’s professional services;
- Under the direct, personal supervision of a physician; and
- By a member of the clinic’s health care staff who is an employee of the clinic.

Only drugs and biologicals that cannot be self-administered are included within the scope of this benefit.

**Physician Assistant Services**

A physician assistant (PA) is eligible to enroll in Medicaid and must obtain a provider number and use it on the billing form when performing services or prescribing drugs. PA services are covered if:

- Furnished by a licensed PA who is employed by or receives compensation from the clinic and is enrolled in the Louisiana Medicaid Program;
- Identified by placing his/her provider number in the attending licensed physician space on the CMS 1500;
- Furnished under the medical supervision of a licensed physician. The physician supervision requirements are met if the conditions specified and any pertinent requirements of state law are satisfied;
- Furnished in accordance with medical orders for the care and treatment of a patient prepared by a physician;
• Consistent with the type of service the PA is legally permitted to perform; and
• Services are covered by Medicaid.

Nurse Practitioner and Certified Nurse Mid-wife Services

Services are covered if:

• Furnished by a licensed nurse practitioner or certified nurse mid-wife who is employed by or receiving compensation from the clinic;
• Enrolled in Louisiana Medicaid;
• Identified by placing his/her provider number in the attending physician space on the CMS 1500;
• Furnished in collaborative practice with a licensed physician. The physician supervision requirement is met if the conditions specified and any pertinent requirements of State law are satisfied;
• Furnished in accordance with any medical orders for the care and treatment of a patient prepared by a physician;
• Performed by a licensed nurse practitioner or certified nurse mid-wife, who is legally permitted to provide this type of service; and
• Services are covered by Medicaid.

Nurse practitioners and certified nurse mid-wives are eligible to enroll in Medicaid and must obtain a provider number and use it on the billing form when performing services or prescribing medications.

Services and Supplies Incident to Physician Assistant, Nurse Practitioner and Nurse Mid-wife Services

Services and supplies incident to a nurse practitioner, nurse mid-wife or physician assistant services are covered if:

• Furnished in a licensed medical provider’s office;
• Rendered either without charge or included in the clinic’s bill;
• Furnished as an incidental, although integral part of professional services furnished by nurse practitioner, PA or certified nurse mid-wife;

• Furnished under his/her direct, personal supervision. The direct personal supervision requirement is met only if the person is permitted to supervise these services under the written policies governing the clinic; and

• Furnished by a member of the clinic’s health care staff who is an employee of the clinic.

Only drugs and biologicals that cannot be self-administered are included within the scope of this benefit.

Visiting Nurse Services

Part time or intermittent visiting nurse care and related supplies are covered if:

• The clinic is located in an area designated by CMS as a home health agency shortage area;

• The services are rendered to a homebound individual. For purposes of visiting nurse services, “homebound” means a Medicaid recipient who is permanently or temporarily confined to his or her place of residence because of a medical or health condition. The individual may be considered homebound if he or she leaves the place of residence infrequently. For this purpose, “place of residence” does not include a hospital or skilled nursing facility;

• The services are furnished by a licensed registered nurse or licensed practical nurse or a licensed vocational nurse, who is employed by or received compensation for the services from the clinic; and

• The services are furnished under a written plan of treatment.

Plan of Treatment

The plan of treatment must be established and reviewed at least every 60 days by a supervising physician of the clinic or established by a physician, nurse, practitioner, physician assistant or certified nurse mid-wife, or specialized nurse practitioner and reviewed and approved at least every 60 days by a supervising physician. The plan must be signed by the nurse practitioner, physician assistant, certified nurse mid-wife or the supervising physician of the clinic.
The plan of treatment must relate visiting nurse services to the recipient’s condition. The plan must specify the following:

- Types of services required and a prognosis for changes in the recipient’s condition;
- Diagnosis and a description of the recipient’s functional limitations resulting from the illness or injury;
- Type and frequency of nursing services needed;
- Special diets;
- Activities permitted;
- Rehabilitation and therapy services;
- Medical social services;
- Home health aide services; and
- Necessary medical supplies.

All changes, in orders for controlled substances drugs, must be signed by the licensed physician.

Clinical Psychologist Services

Clinical psychologist services refers to services performed by a licensed clinical psychologist for diagnosis and treatment of mental illness which the clinical psychologist is legally authorized to perform under State licensure as would otherwise be covered if furnished by a physician or as an incident to a physician’s service.

Clinical Social Worker Services

Clinical social worker services refers to services performed by a licensed clinical social worker for diagnosis and treatment of mental illness which the clinical social worker is legally authorized to perform under state licensure and such services as would otherwise be covered if furnished by a physician or as an incident to a physician’s professional service.
Services and Supplies Incident to the Services of Clinical Psychologists and Clinical Social Workers

Services are covered if furnished:

- In a physician’s office;
- Either without charge or included in the clinic’s bill;
- As an incidental, although integral part of professional services furnished by a Clinical Psychologist or Clinical Social Worker;
- Under his/her direct, personal supervision. The direct personal supervision requirement is met only if the person is permitted to supervise these services under the written policies governing the clinic; and
- By a member of the clinic’s health care staff who is an employee of the clinic.

Only drugs and biologicals that cannot be self-administered are included within the scope of this benefit.

Basic Lab Services

An RHC is required to provide the following minimum lab services on site:

- Chemical examinations or urine by stick or tablet methods, or both;
- Hemoglobin or hematocrit;
- Blood sugar;
- Examination of stool specimens for occult blood;
- Pregnancy tests; and
- Primary culturing for transmittal to a certified laboratory.

If the RHC performs only these six tests, the RHC may obtain a waiver certificate from the regional Clinical Laboratory Improvement Act (CLIA) office.
If an RHC provides more than the basic lab services on site, it must comply with CLIA requirements for the lab services actually delivered.

**Other Ambulatory Services**

Other ambulatory services that may be provided by a RHC include non-primary care services covered by the Louisiana Medicaid State plan, but not included in the RHC’s core services. These services may be provided by the RHC if the RHC meets the same standards as other enrolled providers of those services. Examples include:

- Early and Periodic Screening, Diagnosis and Treatment (EPSDT) services for recipients under the age of 21;
- Vision care services (for recipients under the age of 21);
- Speech and language services (for recipients under the age of 21);
- Hearing services (for recipients under the age of 21);
- Dental services;
- Podiatry services;
- Pregnancy-related services;
- Perinatal case management;
- Chiropractic services;
- Nutrition counseling as part of an encounter;
- Family planning services;
- Physical and occupational therapy services; and
- Behavioral health services provided by licensed professional counselors (LPCs) and licensed family and marriage therapists (LMFTs).

The above services are governed by Medicaid policies and procedures specific to each program. The policies and procedures for the RHC services program do not apply to these “other” ambulatory services. Billing must be submitted according to the policies and procedures for each
program. Service visits will be reimbursed at the all-inclusive PPS rate per visit. (See Section 40.4 for more information about reimbursement)

**Diabetes Self-Management Training**

Diabetes self-management training (DSMT) is provided to recipients diagnosed with diabetes. These services are comprised of one hour of individual instruction and nine hours of group instruction on diabetes self-management. Recipients shall receive up to ten hours of services during the first 12-month period beginning with the initial training date. After the first 12-month period has ended, recipients shall only be eligible for two hours of individual instruction on diabetes self-management per calendar year.

**Fluoride Varnish Applications**

Coverage shall be provided for fluoride varnish applications performed in the RHC to recipients from under 21 years of age based on medical necessity. Fluoride varnish applications will be reimbursed when performed in the RHC by:

- The appropriate dental providers;
- Physicians;
- Physician assistants;
- Nurse practitioners;
- Registered nurses;
- Licensed practical nurses; or
- Certified medical assistants.

All participating staff must review the Smiles for Life training module for fluoride varnish and successfully pass the post assessment. All staff involved in the varnish application must be deemed as competent to perform the service by the RHC and be practicing within the licensed practitioner’s scope of practice.

Fluoride varnish applications shall only be reimbursed to the RHC when performed on the same date of service as an office visit or preventative screening. Separate encounters for fluoride varnish services are not permitted and the application of fluoride varnish does not constitute an encounter visit.
Services Not Covered

- Injections ordered incident to a previous face-to-face encounter (these injections would be incident to the initial encounter and part of the PPS reimbursement of the initial encounter which warranted the injection);

- Medications provided by a pharmacy that is not part of the RHC;

- Weight or blood pressure check only;

- Services for which medical necessity is not clearly established;

- Information provided to a patient over the telephone;

- Cosmetic surgery;

- A visit for the sole purpose of a patient obtaining a prescription when the need for the prescription has already been determined;

- Canceled visits or for appointments not kept;

- Foot care such as routine soaking and application of topical medication;

- Transsexual surgery or a procedure which is performed as part of the process of preparing an individual for transsexual surgery, such as hormone therapy and electrolysis; and

- Tattoo removal.

Encounter

Medical (inclusive of DSMT services) encounters are defined as face-to-face visits with a physician, physician assistant, nurse practitioner, certified nurse mid-wife, or visiting nurse during which a RHC service is rendered.

Behavioral health encounters are defined as face-to-face visits with a physician with a psychiatric specialty, nurse practitioner with a psychiatric specialty, clinical nurse specialist with a psychiatric specialty, clinical psychologist, or clinical social worker, respectively, during which an RHC service is rendered.

NOTE: A medical and a behavioral health encounter are allowed on the same day of service.
Multiple medical and/or behavioral health encounters, however, with more than one health care practitioner or with the same health care practitioner, which take place on the same day at a single location, constitute a single visit, except for cases in which the recipient, subsequent to the first encounter, suffers illness or injury requiring additional diagnosis or treatment. When the recipient suffers illness or injury requiring additional diagnosis or treatment unrelated to the initial encounter visit an additional medical and/or behavioral health encounter may be billed.

A dental encounter is defined as a face-to-face visit with a dentist where dental services are rendered. Multiple dental encounters with more than one health care practitioner or with the same health care practitioner, which take place on the same day at a single location, constitute a single visit except for cases in which the recipient, subsequent to the first encounter, suffers illness or injury requiring additional diagnosis or treatment.

**Multiple Same Day Visits**

Only one medical encounter (inclusive of DSMT encounters) per day per recipient, one behavioral health encounter per day per recipient, and one dental encounter per day per recipient may be billed except in cases in which the recipient, subsequent to the first encounter, suffers illness or injury requiring additional diagnosis or treatment. Services shall not be arbitrarily delayed or split in order to bill additional encounters.

**Service Limits**

There are no annual limits placed on the number of rural health clinic visits (encounters) payable by the Medicaid program for eligible recipients.

Separate encounters for DSMT services are not permitted and the delivery of DSMT services alone does not constitute an encounter visit.

**Exclusions**

Medicaid policy does not provide for payment of follow-up visits occurring on the same date as a previously billed visit, consultation, emergency room care or hospital admission date.

Any services “incident to” an encounter are not billable. These include, but are not limited to the following:

- Injections (allergy, antibiotic, steroids, etc.);
• Laboratory tests performed on site, Peak Flow and Spirometry, Respiratory Flow Volume Loop, EKG testing and interpretation, and x-rays;

• Immunizations;

• Hearing/Vision screenings; and

• Filling and/or obtaining prescriptions.

Service Delivery

Upon presentation at the clinic, a full mental, physical and dental assessment shall be performed that includes a written plan for each identified problem noted in the history and physical exam. Any health problems identified must be addressed to the highest degree possible. Encounters for recipients under the age of 21 shall include all the aspects of a well-child screening visit unless:

• The provider determines and documents that the child’s medical condition at the time of the visit contraindicates the well-child screening as inadvisable; or

• The child’s medical record reflects that he or she is up to date on the well-child screenings in accordance with the Medicaid periodicity schedule.

NOTE: Service delivery for recipients under the age of 21 includes the administration of required immunizations.

The medical encounter level of service must include at a minimum:

• An expanded, problem-focused history (chief complaint, brief history of present illness, problem pertinent system review); and

• An expanded, problem-focused exam (limited exam of the affected body area or organ system and other symptomatic or related organ systems).

This would be low-level complexity of medical decision making (limited number of diagnoses, limited complexity of data to review, the risk of complications and management options- low).

A new patient medical encounter level of service shall include the following:

• A detailed history (chief complaint, history of present illness, problem pertinent system review, pertinent past, family, social history); and
• A detailed exam with low-to moderate complexity decision making.

The dental encounter level of service shall include at a minimum:

• Comprehensive oral healthcare. Comprehensive oral healthcare is defined as all of the covered restorative and therapeutic services described in the Medicaid Dental Services Manual.

NOTE: Dental health preventive services should be rendered on the same day unless otherwise indicated due to identified medical issues preventing completion of all preventive services.

The behavioral health encounter level of service shall include at a minimum:

• Face-to-face visits with a physician with a psychiatric specialty, nurse practitioner with a psychiatric specialty, clinical nurse specialist with a psychiatric specialty, clinical psychologist, or clinical social worker; and

• A qualified service for the assessment, diagnosis and/or treatment of a behavioral health disorder to include services such as psychotherapy, mental health assessment, psychiatric evaluation, psychological testing and medication management.
PROVIDER REQUIREMENTS

Location

An RHC must be located in an area defined by the United States Department of Commerce, Census Bureau as non-urbanized. The Census Bureau defines a non-urbanized area as an area outside an urbanized area with a densely settled territory that contains 50,000 or more people.

Shortage Area Designation

A practice is eligible for initial RHC certification if it is located in an area “currently” designated as a Medically Underserved Area (MUA) or Health Professional Shortage Area (HPSA). The shortage area designation cannot be more than 3 years old to be considered current.

In order for RHCs to be eligible for HPSA facility designation, the clinic shall:

- Not deny requested health care services, and shall not discriminate in the provision of services to an individual who is unable to pay for services or whose services are paid by the Medicare, Medicaid, or Children’s Health Insurance Program,

- Prepare a schedule of fees consistent with locally prevailing rates or charges,

- Prepare a corresponding schedule of discounts (including waivers) to be applied to such fees or payments, with adjustments made on the basis of the patient’s ability to pay,

- Make every reasonable effort to secure from patients the fees and payments for services, and fees should be sufficiently discounted in accordance with the established schedule of discounts,

- Enter into agreements with the State Medicaid agency to ensure coverage of beneficiaries, and

- Take reasonable and appropriate steps to collect all payments due for services.

Staffing

An RHC is required to employ a mid-level provider such as a nurse practitioner or physician assistant at least 50 percent of the time the practice is open to see patients. RHC primary care
services are to be provided by licensed physicians, licensed physician assistants, nurse practitioners, or nurse-midwives operating under the direct supervision of the RHC physician and within the scope of the physician extender’s licensure or certification.

Direct supervision does not mean that the physician must be in the same room when services are rendered: however, the physician must be immediately available (at least by telephone) to provide direction or assistance when necessary.

Services of licensed clinical psychologists and clinical social workers are not required, but can be considered an RHC service when these personnel provide diagnosis and treatment of mental illness.

**Commingling**

Commingling refers to the sharing of RHC space, staff (employed or contracted), supplies, equipment, and/or other resources with an onsite Medicare Part B or Medicaid fee-for-service practice operated by the same RHC physician(s) and/or non-physician(s) practitioners. Commingling is prohibited in order to prevent:

- Duplicate Medicare or Medicaid reimbursement (including situations where the RHC is unable to distinguish its actual costs from those that are reimbursed on a fee-for-service basis), or

- Selectively choosing a higher or lower reimbursement rate for the services.

RHC practitioners may not furnish RHC-covered professional services as a Part B provider while in the RHC or in an area outside of the certified RHC space, such as a treatment room adjacent to the RHC, during RHC hours of operation.

If an RHC is located in the same building with another entity such as an unaffiliated medical practice, x-ray and lab facility, dental clinic, emergency room, etc., the RHC space must be clearly defined. If the RHC leases space to another entity, all costs associated with the leased space must be carved out of the cost report.

RHCs that share resources (e.g., waiting room, telephones, receptionist, etc.) with another entity must maintain accurate records to assure that all costs claimed for Medicare reimbursement are only for the RHC staff, space, or other resources. Any shared staff, space, or other resources must be allocated appropriately between RHC and non-RHC usage to avoid duplicate reimbursement.
This commingling policy does not prohibit a provider-based RHC from sharing its health care practitioners with the hospital emergency department in an emergency, or prohibit an RHC physician from providing on-call services for an emergency room, as long as the RHC would continue to meet the RHC conditions for coverage even if the practitioner were absent from the facility. The RHC must be able to allocate appropriately the practitioner’s salary between RHC and non-RHC time. It is expected that the sharing of the physician with the hospital emergency department would not be a common occurrence.

The fiscal intermediary has the authority to determine acceptable accounting methods for allocation of costs between the RHC and another entity. In some situations, the practitioner’s employment agreement will provide a useful tool to help determine appropriate accounting.

**Medicaid Enrollment Criteria**

To be eligible for enrollment in the Louisiana Medicaid Program, the RHC must be an entity:

- Receiving certification for participation in the Medicare program,
- Receiving licensure/certification from the Department of Health and Hospitals’ Health Standards Section,
- Complying with the Clinical Laboratory Improvement Amendment (CLIA) for all laboratory sites.

The RHC must provide to the fiscal intermediary’s (FI’s) provider enrollment unit a list of the names of all physicians and other practitioners who will be providing medical services at the center and include the practitioners’:

- National Provider Identifier (NPI), and
- Assigned Medicaid provider number, if they are enrolled in Medicaid.

All enrollments of any practitioner in any Medicaid category of service, other than the RHC program, must be submitted to the FI’s provider enrollment unit.

**NOTE:** The FI’s provider enrollment unit must be notified immediately of any change in the above. Failure to maintain current information with the provider enrollment unit may result in a loss of reimbursement for services provided by those practitioners not identified as RHC staff.
All practitioners providing patient services must be enrolled with the fiscal intermediary’s (FI) provider enrollment unit and be linked to the RHC at the time of enrollment in order for the facility to receive reimbursement.

**NOTE:** The effective date of enrollment shall not be prior to the date of receipt of a completed enrollment packet.

**Services**

The RHC agrees to provide those primary care services typically included as part of a physician’s medical practice. The RHC must provide, either directly or by referral, a full range of primary diagnostic and therapeutic services and supplies which include:

- Medical history
- Physical examination,
- Assessment of health status and treatment of a variety of conditions amendable to medical management on an ambulatory basis by a physician or a physician extender,
- Evaluation and diagnostic services to include:
  - Radiological services and
  - Laboratory and pathology services,
- Services and supplies incident to a physician’s or a physician extender’s services such as:
  - Pharmaceuticals, and
  - Supplies.

In addition, an RHC can provide services related to the diagnosis and treatment of mental illness, and in certain instances, visiting nurse services.

**Billing**

The RHC agrees to bill its usual and customary charge for each RHC-related service using applicable diagnoses and procedure codes. RHC services must be billed using the RHC’s NPI and Medicaid provider number assigned to the specific RHC location and Tax Identification
Number (TIN) of the specific RHC location where the services were provided and/or the rendering provider is based, as required by each health plan and/or the fiscal intermediary.

“Usual and customary” is defined as the fee charged to private paying patients for the same procedure during the same period of time. Records on both Medicaid eligible and private paying patients must be maintained for a minimum of five years in order to verify compliance with this policy. The RHC shall also furnish its authorized representative or contractual agents, with all information that may be requested regarding “usual and customary” fees.

The RHC must ensure that no staff or contract provider will seek separate reimbursement from Medicaid for specific services that are ordered and/or performed in the RHC and are billable under the RHC program. Laboratory, pathology, radiological and other services ordered by the RHC staff, but provided by an organization independent of the RHC, must be billed by the provider of the service and not the RHC.

**Diabetes Self-Management Training**

In order to receive Medicaid reimbursement for diabetes self-management training (DSMT) services, the RHC must have a DSMT program that meets the quality standards of one of the following accreditation organizations:

- The American Diabetes Association,
- The American Association of Diabetes Educators, or
- The Indian Health Service.

All DSMT programs must adhere to the national standards for diabetes self-management education. Each member of the instructional team must:

- Be a certified diabetes educator (CDE) certified by the National Certification Board for Diabetes Educators, or
- Have recent didactic and experiential preparation in education and diabetes management.

At a minimum, the instructional team must consist of one of the following professionals who is a CDE:

- A registered dietician,
• A registered nurse, or

• A pharmacist.

All members of the instructional team must obtain the nationally recommended annual continuing education hours for diabetes management.

**Satellite Clinics**

Satellite clinics must enter into a separate provider agreement from the parent center and obtain its own provider number for billing and reimbursement purposes.

**Mobile Clinics**

An RHC is prohibited from enrolling a mobile clinic in the Louisiana Medicaid program. Services rendered at the mobile clinic must be billed using the stationary clinic’s provider number.

**NOTE:** All mobile clinics must be HRSA approved facilities.

**Out of State RHCs in Trade Areas**

An RHC located in the trade areas designated by the Department that wishes to enroll in the Louisiana Medicaid program, must meet the provider enrollment requirements of an RHC located in Louisiana and include a letter from the RHC’s home state verifying its reimbursement rate.

**Change in Ownership**

When there is a change in ownership, Medicaid must be notified within 30 calendar days of the date of the RHC ownership change. The new owner is required to enter into a new provider agreement with the Louisiana Medicaid program. Failure to enter into a new provider agreement following a change in ownership will result in the clinic’s termination as a Louisiana Medicaid provider.
Cost Reports

RHCs are required to file an annual cost report with appropriate addenda within five months of the clinic’s fiscal year end. Failure to submit cost reports by the due date may result in Medicaid payments being suspended. (See Appendix A for contact information)

Medicare Certification

RHCs are required to submit proof on an annual basis of Medicare certification as a RHC. Failure to submit the annual certification may result in disenrollment or payments being suspended.
RECORD KEEPING

The clinic must maintain all clinical and fiscal records in accordance with written policies and procedures. The records must readily distinguish one type of service from another that is provided.

A designated member of the professional staff must be responsible for maintaining the records to ensure that they are complete, accurately documented, readily accessible, and systematically organized.

For each recipient receiving health care services, the center must maintain a record that includes the following as applicable:

- Identification and social data, consent forms, pertinent medical history, assessment of the health status and health care needs of the recipient, and a brief summary of the episode, disposition, and instructions to the recipient.

- Reports of physical examinations, diagnostic and laboratory test results, consultative findings, physician’s orders, reports of treatments and medications, and other pertinent information necessary to monitor the recipient’s progress, as well, as the physician or health care professional’s signature.

Record Maintenance and Availability

The clinic is responsible for the following:

- Maintaining adequate financial and statistical records in the form that contains the data required by the Bureau of Health Services Financing (BHSF) and fiscal intermediary that supports the payment and distinguishes the type of service provided to the recipient.

- Making the records available for verification and audit by BHSF or its contracted auditing agent, and

- Maintaining financial data on an accrual basis, unless it is part of a governmental institution that uses a cash basis of accounting. In the latter case, depreciation on capital assets in accordance with Health Insurance Manual 15 (HIM-15) is required. (See Appendix A for information about the HIM-15)
Protection of Record Information

The center must maintain the confidentiality of records, provide safeguards against loss, destruction or unauthorized use, govern removal of records from the center and the conditions for release of information. The recipient’s written consent must be obtained before the release of information not authorized by law.

Adequacy of Records

Reimbursement may be suspended if the center does not maintain records that provide an adequate basis to support payments. The suspension will continue until the center demonstrates to the satisfaction of the BHSF it does, and will continue to, maintain adequate records.

Retention of Records

Records must be retained for at least five years from the date of service or longer if required by state statute.
REIMBURSEMENT

Reimbursement for rural health clinic (RHC) services is made for those primary care services provided to Medicaid recipients by enrolled RHC providers. These services are of the type normally provided as part of a primary care physician’s practice as described in Section 40.1 – Covered Services. RHCs are reimbursed for Medicaid covered services under an all-inclusive Prospective Payment System (PPS) as specified under Section 1902(bb) of the Social Security Act.

Payments specified as the PPS rates are all inclusive of professional, technical and facility charges, including evaluation and management, routine surgical and therapeutic procedures and diagnostic testing (including laboratory/pathology and radiology) capable of being performed on site at the RHC and must be billed utilizing the facilities’ provider ID and Tax Identification Number (TIN).

- Laboratory/pathology, radiology and medications administered are not separately reimbursable. To the extent that the provider has the capabilities to provide these services and has historically provided these services, the RHC shall continue to provide such services.

- The bundling of therapeutic and diagnostic testing services in the PPS rate is not meant to imply that the RHC shall vend or refer out such ancillary services to other providers merely for the purpose of maximizing reimbursement.

Services and supplies incidental to a service visit include those services commonly furnished in a physician’s office and ordinarily rendered without charge or are included in the practice’s bill, such as laboratory/pathology services, radiology services, ordinary medications, supplies used in a patient service visit. Section 40.1 – Covered Services of this manual has a list of “incident to” services. Services provided incidental to a service visit must be furnished by an employee and must be furnished under the direct supervision of an RHC health care practitioner, meaning the health care practitioner must be immediately available when necessary, even if by telephone.

Laboratory/pathology, radiological and other services ordered by the RHC staff, but provided by an organization independent of the RHC, must be billed by the provider of the service and not the RHC.

NOTE: Professional services performed in the RHC will be subject to recoupment if billed under a physician/practitioner’s individual Medicaid number.
Rates

Determination of Rate

Payments for Medicaid covered services will be made under a PPS and paid on a per visit basis.

For an RHC which enrolls and receives approval to operate, the facility’s initial PPS per visit rate shall be determined through a comparison to other RHCs in the same town/city/parish. The scope of services shall be considered in determining which proximate RHC most closely approximates the new provider. If no RHCs are available in the proximity, comparison shall be made to the nearest RHC offering the same scope of service. The rate will be set to that of the RHC comparative to the new provider.

Alternative Payment Methodologies

Effective July 1, 2008, any provider-based RHC licensed as part of a small rural hospital as of July 1, 2007 may elect to be reimbursed at 110 percent of reasonable cost as reported from their latest filed cost report.

In accordance with Section 1902(bb)(6) of the Social Security Act, no interim or alternative payment methodologies will be imposed on an RHC without approval from the entity, and payment methodologies must result in payment to the clinic that is at least equal to the amount required to be paid to the clinic without the alternate payment methodology.

Adjustment of Rate

PPS rates are adjusted effective July 1 of the state fiscal year by the published Medicare Economic Index (MEI) as prescribed in Section 1902(bb)(3)(A) of the Social Security Act.

PPS rates are adjusted to take into account any change (increase or decrease) in the scope of services furnished by the RHC. A change in scope is an addition, removal or relocation of service sites, and the addition or deletion of specialty and non-primary services that were not included in the base line rate calculation.

The RHC is responsible for notifying BHSF, in writing, of any increases or decreases in the scope. If the change is for the inclusion of an additional service or deletion of an existing service/site, the RHC shall include the following in the notification:

- The current, approved organization budget and a budget for the addition or deletion of services/sites; and
• An assessment of the impact on total visits and Medicaid visits associated with the change of scope of services.

A new interim rate will be established based upon the reasonable allowed cost contained in the budget information. The final PPS rate will be calculated using the first two years of audited Medicaid cost reports, which include the change in scope.

Out of State/Trade Area RHC

An out-of-state RHC in the trade area will be reimbursed the lesser of the Louisiana statewide average or the PPS rate assigned to that RHC in its state’s location.

Notice of Rate Setting

BHSF will send written notice to the clinic notifying the clinic of the reimbursement rate per encounter and the methodology used to establish the rate.

BHSF, or its contracted auditing agency, will reconcile the initial PPS rates for provider based RHCs to the final audited PPS rates and inform the clinic of the rate determination and any reconciling amounts owed or due to/from the clinic.

Appeals

RHCs requesting to appeal the established PPS rate must submit their request in writing (See Appendix A for contact information).

Cost Report Submission

RHCs are required to file a Medicaid annual cost report with appropriate addenda within five months of the clinic’s fiscal year end. Failure to submit cost reports by the due date may result in a suspension of Medicaid payments. (See Appendix A for information on where to send cost reports).

A written request for an extension on submission of the cost report may be granted if received by the RHC Program Manager within 30 or more days prior to the due date. No extension will be granted unless the RHC provides evidence of extenuating circumstances beyond its control that have caused the report to be submitted late.

Audits

All cost reports are subject to audit, including desk audits and field audits.
Encounter Visits

An RHC can be reimbursed for only one medical, one behavioral health, and one dental encounter per day. Core service encounters with more than one health professional, and multiple encounters with the same health professional, that take place on the same date of service, at a single location, constitute a single visit, and are limited to one billable encounter per day except when one of the following conditions exists:

- After the first encounter, the recipient suffers illness or injury requiring additional diagnosis or treatment; or
- The recipient has a medical visit or dental visit on the same day. Behavioral health benefits are subject to the requirements outlined Section 40:1 - Covered Services of this provider manual chapter.

Services and supplies that are furnished by RHC staff and incidental to an RHC professional service as commonly furnished in a physician’s office and ordinarily rendered without charge or are included in the practice’s bill, such as laboratory/pathology services, radiology services, ordinary medications and supplies used in a patient service visit are considered part of the RHC service.

Fluoride varnish applications shall only be reimbursed to the RHC when they are performed on the same date of service as an office visit or preventative screening. Separate encounters for fluoride varnish application services are not permitted and the application of fluoride varnish alone does not constitute an encounter visit.

Medicaid reimbursement is limited to medically necessary services that are covered by the Medicaid State Plan and would be covered if furnished by a physician.

Payment for Adjunct Services

Reimbursement will be made for adjunct services in addition to the encounter rate paid for professional services when these services are rendered during the evening, weekend or holiday hours as outlined in the Current Procedural Terminology (CPT) manual under “Special Services, Procedures and Reports”.

To facilitate recipient access to services during non-typical hours and to reduce the inappropriate use of the hospital emergency department, the reimbursement provided by use of the adjunct codes is intended to assist with covering the additional administrative costs associated with staffing
during these times. Providers are not to alter their existing business hours for the purpose of maximizing reimbursement.

The reimbursement is a flat fee in addition to the reimbursement for the associated encounter. Reimbursements for adjunct services are only billable for services on weekends, state legal holidays, and between the hours of 5 p.m. and 8 a.m., Monday through Friday. Documentation must include the time the services were rendered.

NOTE: Payment is not allowed when the encounter is for dental services only.

Services with Alternative Payment Methodology

RHCs will receive reimbursement outside of their prospective payment system rate for the below Medicaid covered services.

Long Acting Reversible Contraceptives

Reimbursement for long acting reversible contraceptives (LARCs) will be the lesser of the Medicaid fee for service rate on file or the actual acquisition cost (AAC), for entities participating in the 340B program. The rates for LARCs are located on the Durable Medical Equipment fee schedule on www.lamedicaid.com.

RHC providers must submit the medical encounter and required detail line(s) for services provided to the recipient on the date of service according to current policy. The procedure code for the appropriate LARC and LARC insertion must be included in the detail lines of the claim. Detail lines for the LARC and LARC insertion cannot be the only detail lines on the claim or the claim will deny. The procedure code for the services listed will pay accordingly. All other detail lines on the claim will pay at zero.

Encounter Billing Guidelines

Reimbursement for medical, behavioral health and dental encounters include all services provided to the recipient on a specific date of service and any services on a subsequent day incidental to the original encounter visit. In addition to the appropriate encounter code, it is necessary to indicate the specific services provided by entering the individual procedure code, description, and zero or usual/customary charges for each service provided on subsequent lines of the claim.

A visit to pick up a prescription or a referral is not considered a billable encounter. Lab or x-ray services with no “face-to-face” encounter with a covered RHC provider do not constitute an RHC visit and will not be reimbursed separately as they are part of the original encounter, which warranted these additional services.
If a covered service is provided via an interactive audio and video telecommunications system (telemedicine), providers must refer to Chapter Five (5) of the Professional Services Provider Manual on www.lamedicaid.com for specific billing instructions.

**Medical Encounters**

Medical services provided in RHCs are reimbursed as encounters. These encounter visits must be billed on a CMS-1500 using procedure code T1015. In addition to the encounter code, it is necessary to indicate the specific services provided by entering the individual procedure code, description, and zero or usual/customary charges for each service provided on subsequent lines.

For obstetrical services, providers must bill the encounter code T1015 with modifier TH and all services performed on that date of service.

**NOTE:** Professional services not covered through the Professional Services Program are not covered through the RHC Program.

**Behavioral Health/Psychiatric Service Encounters**

For Behavioral health services provided during an encounter, and administered by a physician with a psychiatric specialty, a nurse practitioner or clinical nurse specialist with a psychiatric specialty, a licensed clinical social worker or a clinical psychologist, the RHC provider identification number must be placed as the billing provider. The practitioner’s provider identification number must be placed as the attending provider with the appropriate modifiers and detail line procedure codes on the claim. These services should be billed on the CMS-1500 using procedure code H2020 as the first line of the claim.

Louisiana Medicaid reimburses professional service providers for select procedure codes specific to psychiatric services delivered in the office or other outpatient facility setting. This policy is applicable to physician services in the Professional Services program and mental health services provided in an RHC. RHC providers should enter the appropriate psychiatric procedure codes as encounter detail lines when submitting claims for the following services:

- Psychiatric diagnostic or evaluative interview procedures;  
  **NOTE:** Procedure codes are reimbursable once per 365 days per attending provider.

- Psychiatric therapeutic procedures; and

- Psychological testing.
Psychological testing is reimbursable once per 365 days per attending provider. All applicable units of service related to this procedure code should be billed on one date of service and the units should not be divided among multiple dates of service or claim lines.

**NOTE:** Should nationally approved changes occur to CPT codes at a future date that relate to psychiatric services, providers are to follow the most accurate coding available for covered services for that particular date of service, unless otherwise directed.

In order to receive reimbursement from Louisiana Medicaid for behavioral health services, the RHC’s HRSA approval must include behavioral health services as a part of the clinic’s scope of service. In addition, the RHC must notify LDH by completing a new RHC Facility Survey (see Appendix E) and submitting it to the Department. The RHC is not required to obtain a Behavioral Health Service provider (BHSP) license from LDH Health Standards. A RHC will be reimbursed the all-inclusive PPS rate for these services and must follow RHC rules, policies, and manuals when billing. Practitioners who meet the above criteria can provide behavioral health services in the RHC if they are one of the below:

- Physicians with a Psychiatric Specialty;
- Nurse Practitioners or Clinical Nurse Specialists with a Psychiatric Specialty;
- Licensed Clinical Social Workers; or
- Clinical Psychologists.

**Physicians with a Psychiatric Specialty**

The RHC Medicaid ID number must be listed as the billing provider and the physician’s individual Medicaid ID number must be listed as the attending provider on the claim for behavioral health services rendered by a physician with a psychiatric specialty.

**Nurse Practitioners or Clinical Nurse Specialists with a Psychiatric Specialty**

The RHC Medicaid ID number must be listed as the billing provider and the nurse practitioner or clinical nurse specialist’s individual Medicaid ID number must be listed as the attending provider on the claim for behavioral health services rendered by a nurse practitioner or clinical nurse specialist.
Licensed Clinical Social Workers

The RHC Medicaid ID number must be listed as the billing provider and the practitioner’s Medicaid ID as the attending provider on the claim for mental health services provided in an RHC by a licensed clinical social worker. If the service provided is one of the procedure codes listed above, the AJ modifier is appended to the procedure code in the detail line of the claim.

Clinical Psychologists

A clinical psychologist must list the RHC Medicaid ID number as the billing provider and the practitioner’s provider number as the attending provider on the claim for mental health services provided in an RHC by a clinical psychologist. If the service provided is one of the procedure codes listed above, the AH modifier is appended to the procedure code in the detail line of the claim.

NOTE: Reimbursement for services for the above providers will be at the prospective payment system (PPS) rate on file on the date of service. Behavioral health services provided by a licensed professional counselor (LPC) or licensed marriage and family therapist (LMFT) are considered other ambulatory services in the clinic and are reimbursed at the PPS rate on file.

If the RHC provides specialized mental health rehabilitation services, i.e. community psychiatric support and treatment (CPST), crisis intervention, (CI), and/or psychosocial rehabilitation (PSR) without the service being included in their HRSA scope of service approval, or if services are delivered by an individual who is not a psychiatrist, an advanced practice registered nurse (APRN) with psychiatric specialty, a licensed clinical social worker or a licensed clinical psychologist, the entity is required to obtain a BHSP license issued by LDH Health Standards. The entity must enroll as an appropriate Specialized Behavioral Health Service (SBHS) provider, obtain a unique National Provider Identifier (NPI), have an active BHSP license issued by LDH Health Standards and meet qualifications and requirements established in the Medicaid Behavioral Health Services Provider Manual, rules, laws and regulations. The entity must bill using its unique BHSP NPI in accordance with the SBHS Medicaid rules, policies and manuals.

Dental Encounters

All dental services must be billed on the 2006 ADA claim form using the encounter code D0999. In addition to the encounter code, providers must list the specific dental services provided by entering the procedure code for each service rendered on subsequent lines. The provider should also include zero or usual/ customary charges for each service provided.
Adjunct Services

RHC adjunct services should be billed with the T1015 encounter code, the appropriate detail procedure, along with the adjunct service procedure code. The adjunct service procedure code may not be submitted as the only “detail line” for the encounter.

These adjunct codes are reimbursed in addition to the reimbursement for outpatient evaluation and management services when the services are rendered in settings other than hospital emergency departments:

- Between the hours of 5 p.m. and 8 a.m. Monday through Friday;
- On weekends between 12 a.m. Saturday through midnight on Sunday; and
- State proclaimed legal holidays, 12 a.m. through midnight.

Providers are instructed to bill usual and customary charges. (See Appendix A for information on accessing the fee schedule).

Only one of these adjunct codes may be submitted by a billing provider per day. Providers are to select the code that most accurately reflects their situation. Adjunct codes are reported with another code or codes describing the service related to that recipient’s visit or encounter. For example:

- If the existing office hours are Monday-Friday 8 a.m. – 5 p.m. and the physician treats the recipient in the office at 7 p.m., then the provider may report the appropriate basic service (Evaluation/Management (E/M) visit code or encounter) and adjunct code.

- If a recipient is seen in the office on Saturday during existing office hours, the provider may report the appropriate basic service (E/M visit code or encounter) and adjunct code.

Documentation in the medical record relative to this reimbursement must include the time that the services were rendered. Should there be a post payment review of claims, providers may be asked to submit documentation regarding the existing office hours during the timeframe being reviewed.

RHC providers will receive fee-for-service reimbursement for the adjunct services codes separate from, but in addition to, the PPS reimbursement for the associated encounter (T1015).
• For RHC providers whose services meet the guidelines outlined in this policy:
  • The encounter and required detail line(s) for services provided to the recipient on a date of service should be reported as directed in current RHC policy.
  • If appropriate, the adjunct services code may also be reported as a detail line, but it may not be submitted as the only “detail line” for an encounter.
  • The adjunct code will be reimbursed fee-for-service in addition to the payment for the encounter.
  • The adjunct codes are not reimbursable for dental encounters.

Payments to all providers are subject to post payment review and recovery of overpayments.

**Early and Periodic Screening, Diagnosis and Treatment (EPSDT) Screening Services**

EPSDT screening services must be billed using the 837P Professional format using encounter code T1015 with modifier EP.

It will be necessary to indicate the specific screening services provided by entering the individual procedure code for each service rendered on the appropriate line. If a registered nurse performs the screening, the appropriate procedure code must be entered followed by the modifier TD.

If immunizations are given at the time of the screening, those codes continue to be billed on the CMS-1500, along with encounter code T1015 and modifier EP. All claims billed using the T1015 and modifier EP must include supporting detail procedures. Only a physician doing a screening should bill with no modifier.

The Recipient Eligibility Verification System (REVS) or the Medicaid Eligibility Verification System (MEVS) should be used to obtain recipient eligibility information. Providers should keep hardcopy proof of eligibility from MEVS on file. Medicaid eligibility verification is also available on the web. (See Appendix A for web information).

**NOTE:** The dental encounter, D0999, may be billed on the same date of services as the encounter codes T1015, T1015 TH (OB encounter), T1015 EP (EPSDT screening) and/or H2020 (Behavioral Health encounter).
Medicare/Medicaid Dual Eligible Billing

Medicaid pays the Medicare co-insurance, up to the Medicaid established encounter rate, for recipients who are eligible for Medicare and Medicaid. Providers should first file claims with the regional Medicare fiscal intermediary/carrier, ensuring the recipient’s Medicaid ID number is included on the Medicare claim form, before filing with Medicaid.

After the Medicare claim has been processed, then Medicaid should be billed. Providers must bill these claims on the UB92/UB04 and include the Medicare Explanation of Benefits, a copy of the Medicare claims and put the Medicaid provider number and Medicaid ID number in the appropriate form locators. (See Appendix A for information on where to send the claim).

NOTE: This is the only instance where Louisiana Medicaid may be billed using the UB92/UB04 for RHC services. Straight Medicaid claims must be processed on the CMS-1500 claim form.

Outpatient Services

For all services rendered at the RHC, in a nursing home or during home visits, the RHC provider identification number must be used as the billing provider number in the appropriate place on the CMS 1500 claim form.

Inpatient Services

Physician inpatient services are billed through the physician’s individual provider number as the billing provider. Physicians are not allowed to bill through their RHC group number for inpatient services.

GLOSSARY

Adjunct Services – Services provided by the RHC on weekends, state legal holidays, and between the hours of 5 p.m. and 8 a.m. Monday through Friday.

Bureau of Health Services Financing (BHSF) – The Bureau within the Department of Health and Hospitals responsible for the administration of the Louisiana Medicaid Program.

Change in Scope – a Health Resources Services Administration (HRSA) approved addition, removal and relocation of service sites and the addition or deletion of specialty and non-primary services that were not included in the baseline rate calculation.

CMS – The Center for Medicare and Medicaid Services is the Federal agency in DHHS responsible for administering the Medicaid Program and overseeing and monitoring of the State’s Medicaid Program.

Department of Health and Hospitals (DHH) – The state agency responsible for administering the Medicaid Program and health and related services including public health, mental health, developmental disabilities, and alcohol and substance abuse services. In this manual the use of the word “department” will mean DHH.

Department of Health and Human Services (DHHS) – The federal agency responsible for administering the Medicaid Program and public health programs.

Encounter – A face-to-face visit with a physician, physician assistant, nurse practitioner, nurse midwife, visiting nurse, clinical psychologist, clinical social worker, or any other State plan approved ambulatory provider during which an RHC core or other ambulatory service is rendered. Multiple medical encounters with more than one health care practitioner or with the same health care practitioner, which take place on the same day at a single location, constitute a single visit, except for cases in which the recipient, subsequent to the first encounter, suffers illness or injury requiring additional diagnosis or treatment.

Enrollment – A determination made by DHH that a provider agency meets the necessary requirements to participate as a provider of Medicaid or other DHH-funded services. This is also referred to as provider enrollment.

Fiscal Intermediary – Is the private fiscal agent with which DHH contracts to operate the Medicaid Management Information System. It processes Title XIX claims for Medicaid services provided under the Medicaid Assistance Program, issues appropriate payment and provides assistance to providers on claims.
Health Professional Shortage Area – An urban or rural area, population group, or public or nonprofit private medical facility which the Secretary of DHHS determines has a shortage of health professionals.

Health Resources Services Administration – An office within the Department of Health and Human Services whose mission is to improve access to healthcare services for the uninsured, isolated, or medically vulnerable through leadership and financial support.

Medicaid – A federal-state financed entitlement program which provides medical services primarily to low-income individuals under a State Plan approved under Title XIX of the Social Security Act.

Medically Underserved Area – Areas designated by HRSA as having too few primary care providers.

Medically Underserved Population – Areas designated by HRSA as having high infant mortality, high poverty, and/or high elderly population.

Medicare – The health insurance program for the aged and disabled under Title XVIII of the Social Security Act.

Medicaid Management Information System (MMIS) – The computerized claims processing and information retrieval system for the Medicaid Program. This system is an organized method of payment for claims for all Medicaid covered services. It includes all Medicaid providers and eligible recipients.

Prospective Payment System (PPS) – Method of reimbursement in which payment is made on a predetermined, fixed amount. Section 1902(bb) of the Social Security Act describes the methodology used to determine the PPS for RHCs.

Provider Enrollment – Another term for enrollment.

Rural Health Clinic – an outpatient facility that is primarily engaged in furnishing physicians’ and other medical and health services and that meets other requirements to ensure the health and safety of individuals served by the clinic. The clinic must be located in a medically underserved area that is not urbanized as defined by the U.S. Bureau of Census.

Secretary – The Secretary of the Department of Health and Hospitals or any official to whom (s)he has delegated the pertinent authority.

Satellite Clinics – Separate clinics of the primary RHC.
Service Site – Any place where a health center provides primary health care services to a geographic service area or population.

Trade Areas – Counties in the states of Texas, Arkansas, and Mississippi that physically share a border with Louisiana border.
This appendix contains the following information:

- Instructions for billing using the CMS-1500 Claim Form
- Samples of the CMS-1500 Claim Form
- Instructions for adjusting or voiding a CMS-1500 claim
- Samples of a CMS-1500 Claim Form Adjustment
- Instructions for billing using the ADA Dental Claim Form
- Sample of the ADA Dental Claim Form
- Instructions for adjusting or voiding an ADA claim using the 209 Adjustment/Void Form
- Sample of the 209 Adjustment/Void Form
- Instructions for adjusting or voiding an ADA claim using the 210 Adjustment/Void Form
- Sample of the 210 Adjustment/Void Form
CMS 1500 (02/12) Billing Instructions for RHC Services

Hard copy billing of RHC services are billed on the paper CMS-1500 (02/12) claim form or electronically on the 837P Professional transaction. Instructions in this appendix are for completing the CMS-1500; however, the same information is required when billing claims electronically. Items to be completed are listed as required, situational or optional.

**Required** information must be entered in order for the claim to process. Claims submitted with missing or invalid information in these fields will be returned unprocessed to the provider with a rejection letter listing the reason(s) the claims are being returned, or will be denied through the system. These claims cannot be processed until corrected and resubmitted by the provider.

**Situational** information may be required, but only in certain circumstances as detailed in the instructions that follow.

Paper claims should be submitted to:

DXC Technology  
P.O. Box 91020  
Baton Rouge, LA  70821

Services may be billed using:

- The rendering provider’s individual provider number as the billing provider number for independently practicing providers; or

- The group provider number as the billing provider number and the individual rendering provider number as the attending provider when the individual is working through a ‘group/clinic’ practice.

**NOTE:** Electronic claims submission is the preferred method for billing. (See the EDI Specifications located on the Louisiana Medicaid website at www.lamedicaid.com, directory link “HIPAA Information Center, sub-link “5010v of the Electronic Transactions” – 837P Professional Guide.)

This appendix includes the following:

- Instructions for completing the CMS 1500 claim form and samples of completed CMS-1500 claim forms; and
• Instructions for adjusting/voiding a claim and samples of adjusted CMS 1500 claim forms.

Sample of a Claim Form

![Sample Health Insurance Claim Form](image-url)
Adjustments and Voids

An adjustment or void may be submitted electronically or by using the CMS-1500 (02/12) form.

Only a paid claim can be adjusted or voided. Denied claims must be corrected and resubmitted—not adjusted or voided.

Only one claim line can be adjusted or voided on each adjustment/void form.

For those claims where multiple services are billed and paid by service line, a separate adjustment/void form is required for each claim line if more than one claim line on a multiple line claim form must be adjusted or voided.

The provider should complete the information on the adjustment exactly as it appeared on the original claim, changing only the item(s) that was in error and noting the reason for the change in the space provided on the claim.

If a paid claim is being voided, the provider must enter all the information on the void from the original claim exactly as it appeared on the original claim. After a voided claim has appeared on the Remittance Advice, a corrected claim may be resubmitted (if applicable).

Only the paid claim's most recently approved internal control number (ICN) can be adjusted or voided, thus:

- If the claim has been successfully adjusted previously, the most current ICN (the ICN of the adjustment) must be used to further adjust the claim or to void the claim.

- If the claim has been successfully voided previously, the claim must be resubmitted as an original claim. The ICN of the voided claim is no longer active in claims history.

If a paid claim must be adjusted, almost all data can be corrected through an adjustment, with the exception of the Provider Identification Number and the Recipient/Patient Identification Number. Claims paid to an incorrect provider number or for the wrong Medicaid recipient cannot be adjusted. They must be voided and corrected claims submitted.
Adjustments/Voids Appearing on the Remittance Advice

When an Adjustment/Void Form has been processed, it will appear on the Remittance Advice under *Adjustment or Voided Claim*. The adjustment or void will appear first. The original claim line will appear in the section directly beneath the Adjustment/Void section.

The approved adjustment will replace the approved original and will be listed under the "Adjustment" section on the RA. The original payment will be taken back on the same RA and appear in the "Previously Paid" column.

When the void claim is approved, it will be listed under the "Void" column of the RA.

An Adjustment/Void will generate Credit and Debit Entries which appear in the Remittance Summary on the last page of the Remittance Advice.

Sample forms are on the following pages.

ADA Claim Form Billing Instructions for RHC Services

Medicaid EPSDT Dental and Adult Denture Program Services

The 2006 American Dental Association Claim Form is the only hardcopy dental claim form accepted for Medicaid reimbursement of services provided under the Medicaid EPSDT Dental Program or Adult Denture Program. These claim forms may be obtained by contacting the American Dental Association or your dental supply company.

The following billing instructions correspond to the 2006 ADA Claim Form.

Required information must be entered to ensure claims processing.

Situational information may be required only in certain situations as detailed in each instruction item.

Information on the claim form may be handwritten or computer generated and must be legible and completely contained in the designated area of the claim form.

EPSDT Dental Program and Adult Denture Program claims should be submitted to:

DXC Technology
P. O. Box 91022
Baton Rouge, LA 70821

| 25        | Area of Oral Cavity                  | **Situational** – Enter the oral cavity designator when applicable for a specific procedure. Refer to the Dental Services Manual, Dental Fee Schedule for specific requirements regarding oral cavity designator.  
If an oral cavity designator is **required** by Medicaid, do not enter a tooth number or letter in Block 27.                                                                                                                                                                                                 | Only one tooth number/letter or oral cavity designator is allowed per claim line. Refer to the applicable dental program policy and/or dental program fee schedule for specific requirements regarding tooth number/letter or oral cavity designator.                                                                                     |
| 26        | Tooth System                         | Leave Blank                                                                                                                                                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                                                                                                                               |
| 27        | Tooth Number(s) or Letter(s)         | **Situational** – Enter a tooth number or letter when applicable for a specific procedure. Refer to the Dental Services Manual, Dental Fee Schedule for specific requirements regarding tooth number or letter.  
If a tooth number or letter is **required** by Medicaid, do not enter an oral cavity designator in Block 25.                                                                                                                                                                                                                                         | Only one tooth number/letter or oral cavity designator is allowed per claim line. Refer to the applicable dental program policy and/or dental program fee schedule for specific requirements regarding tooth number/letter or oral cavity designator.                                                                                     |
| 28        | Tooth Surface                        | **Situational** – Enter tooth surface(s) when procedure code reported directly involves one or more tooth surfaces. Enter up to five of the following codes:  
  
  - B = Buccal  
  - D = Distal  
  - F = Facial  
  - I = Incisal  
  - L = Lingual  
  - M = Mesial, and  
  - O = Occlusal  
  
Duplicate surfaces are not payable on the same tooth for most services. Refer to the Dental Services Manual for more information.                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                                                                                                                               |

EPSDT Dental Services Adjustment/Void (209) and Adult Dental Services Adjustment/Void (210) Form

The EPSDT Dental Services 209 Adjustment/Void form (revision date 10/04) must be used when submitting adjustments/voids for EPSDT Dental Program services for all dates of service.

Additionally, when submitting adjustments/voids for the Adult Denture Program for all dates of service, dental providers must use the Adult Dental Services 210 Adjustment/Void form (revision date 10/04).

For both adjustment/void forms, the Form Locator 15 has been renamed as “Patient I.D./Account# Assigned by Dentist”. If the patient’s account (medical record) number is entered here, it will appear on the Medicaid Remittance Advice. It may consist of letters and/or numbers, and it may be a maximum of 20 positions.

Providers can obtain these forms from Molina Medicaid Solutions or through the Louisiana Medicaid website at [www.lamedicaid.com](http://www.lamedicaid.com). Instructions for completing the forms can also be obtained on the Medicaid website or within this document.

</tbody>
</table>

If a new procedure or corrected procedure is entered on the adjustment form, and the new or corrected procedure requires authorization, the completed adjustment form should be submitted to the dental consultants for authorization prior to being submitted to DXC Technology for adjustment. If the code was submitted on the original invoice, and prior authorization was already obtained for the procedure, the provider does not need to submit the adjustment for approval.
