**Attention Lab & Radiology (Non-Hospital) Providers
Systematic Claims Adjustment for Delayed Rate Reductions**

Lab & radiology claims impacted by the rate changes effective August 4, 2009 are being systematically adjusted for claims that were paid incorrectly as a result of a delay in implementation. Due to the large claims volume, the recycle will occur over two weeks in numerical order by billing provider number with the RA's of January 26, 2010 (Claim ICN range of 0010222000100 - 0010283739200) and February 02, 2010 (Claim ICN range of 0017222000100 - 0017272663000). Adjusted claims for each billing provider will appear on only one of the RA's. No action is necessary by providers. Please monitor your RA's to determine which date your claims were recycled.
