

Provider Portal Enrollment Lookup Tool Update

A Provider Portal Enrollment Status Lookup Tool is available on the [Louisiana Medicaid webpage](#) if providers are unsure of their enrollment status. Providers can search for completed enrollments using one of several data points – NPI, provider name, provider type, specialty, address, city and state or zip code.

The Lookup Tool is updated daily and the results may be downloaded. Results given will show provider's status as either enrollment complete, action required or currently in process by Gainwell. Providers that show no results are not required to enroll at this time. Invitation letters will be sent at a later date.

Any public user can use the tool to check current enrollment status. If a provider's information has not been processed within 15 business days, they should contact Gainwell Technologies by emailing louisianaprovenroll@gainwelltechnologies.com or calling 1-833-641-2140 for a status update on enrollment and any next steps needed to complete the process.
