
CHAPTER 30: PERSONAL CARE SERVICES

SECTION 30.3: LT-PCS - RECIPIENT CRITERIA**PAGE(S) 1**

RECIPIENT CRITERIA

LT-PCS are available to recipients who meet the following qualifications. The recipient:

- Is age 65 years or older, or 21 years of age or older with disabilities. Disabled is defined as meeting the disability criteria established by the Social Security Administration;
- Meets nursing facility level of care criteria as presumptively determined by the Level of Care Eligibility Tool (LOCET) and verified by the MDS-HC;
- Is at imminent risk of nursing facility placement, which means that a person faces a substantial possibility of deterioration in mental or physical condition or functioning if either home and community-based services or nursing facility services are not provided in less than 120 days. This criterion is considered met if the recipient:
 - Is in a nursing facility and could be discharged if community-based services were available;
 - Is likely to require nursing facility admission within the next 120 days as determined by the LOCET and MDS-HC; or
 - Has a primary caregiver who has a disability or is age 70 or older.
- Requires at least limited assistance (as defined by the MDS-HC) with one or more ADL. The MDS-HC defines Limited Assistance for most ADL as the receipt of physical help or a combination of physical help and weight-bearing assistance at specified frequencies during the period just prior to the MDS-HC assessment.
- Is able to participate in his/her care and self-direct the services of the worker independently or through a personal representative.
