

AFFORDABLE CARE ACT ENHANCED REIMBURSEMENT RECYCLE

Medicare Crossover Claims and Place of Service Edits

A recycle of claims was completed in June 2014 to correct a processing error involving approved Medicare crossover claims eligible for the Affordable Care Act Primary Care (ACA) Enhanced Reimbursement. It has since been identified that the Place of Service information was not being captured correctly in some claims, causing these claims to not process as eligible under ACA. Place of Service is necessary to indicate whether the claim will receive the Facility or Non-Facility rate.

The Place of Service issue is now resolved. DHH is planning to recycle affected claims on the 7/29/14 Remittance Advice. Many of these claims will not receive additional funds as they have previously been paid the full amount allowable. However it is necessary to include these claims in the recycle to adhere to federal reporting guidelines.

For questions regarding this recycle, you may contact Michael Magee at (504)324-1007 or michael.magee@la.gov.
