

Attention All Providers Receiving the 5010 835 Transaction

Claim Adjustment Reason Code (CARC) **125** has been declared obsolete by the National Code Committee and effective November, 2013, will no longer be reported in the 835 transaction. You should see the use of the new replacement CARC codes effective in the 835 transaction as of November 12, 2013. The Louisiana Medicaid Program has assigned new Claim Adjustment Reason Codes to the following proprietary LMMIS error codes that had been previously crosswalk to CARC code 125. The assignment of the Remittance Advice Remark Code (RARC code) may have changed as well. Additional information regarding the CARC and RARC code changes may be viewed at www.caqh.org under CORE/CORE Rules/CORE Code Combinations. The complete lists of CARC and RARC codes are available at www.wpi-edi.com under the link Code Lists.

See table on page 2 for the changes that apply to the Louisiana Medicaid proprietary error codes crosswalk.

LMMIS Error Code	Claim Adjustment Reason Code (CARC)	Remittance Advice Remark Code (RARC)	CORE Group Code
