

### **ATTENTION ALL MEDICAID PROVIDERS**

Effective April 1, 2015, the Louisiana Medicaid web site will begin a transformation. The evening of March 31, 2015, a 'facelift' will occur overnight! We will transition this site to a new look. The site becomes a part of the DHH Network, with the same color scheme and physical look of those web sites. The web site address, [www.lamedicaid.com](http://www.lamedicaid.com), will remain the same.

With this first phase of changes:

- The Banner previously run across the top of the screen becomes "Alerts" at the top of the Home page.
- Only 30 days of provider web notices will be maintained on the active Home page.
- Notices over 30 days old that are currently located on the Home page will either be moved to appropriate directory links or will appear below the Home page notices on a new link, Additional Web Notices.
- Notices initially housed on the Additional Web Notices link will be gradually moved from this link to the correct directory link.
- Ultimately, all notices will be on the active Home page for 30 days and then transferred to the appropriate directory link.

In a future phase of this transition, the directory links and sub-links will be re-named and re-organized for a more 'user friendly' experience. During the coming months, please watch for the announcements concerning additional changes to the site.

We hope the changes we are making will have a positive impact for you, our users, and thank you for your patience as we move forward with this transformation.
